Decorative art—like music or drawing—reaches its fullest expression in the hands of those naturally gifted in that direction. Though some may acquire an understanding of the fundamental principles—arrangements, harmony and contrast—their efforts lack the grace and symmetry of design and purpose so apparent in others.

FEEDING CAR OF OIL CAKE

Stock Doing Well on King Ranch near Angora

Recently we mentioned that some of the ranchmen of western Nebraska were feeding oil cake this winter on account of the shortage of hay. Cattle do well running on the range when fed a small ration of oil cake and no hay.

About three weeks ago Wm. King ordered a car load of oil cake from Kansas City to be fed on the ranch near Angora run by Tom and Anna King. He informs The Herald that the cattle on the ranch are doing splendidly on this feed. We have observed that Mr. King is quick to recognize a good thing in a real estate or stock raising proposition, and the promptness with which he ordered this feed to tide the stock over till grass comes shows that he understands the stock raising situation in this country at the present time and knows how to handle it.

BRIGHT PROSPECTS FOR FARMERS

The splendid outlook for farmers this season indicates a strong movement to your locality in the near future. Good prices for farm products are apparently assured for many years to come. Now is a good time to let your eastern friends know about the chances to get cheap lands in your neighborhood.

OUR NEW BOOKLETS describing opportunities for farmers to buy cheap lands will be gladly sent to your eastern friends if you will only send me their names and addresses.

Homeseekers' rates from the East every first and third Tuesday.
