

**DRAKE HOTEL CHANGES HANDS**

New Management Plans Improvements in that Popular Hostelry.

H. A. Bowman, a popular traveling salesman well known in this part of the west, is the new landlord at the Drake Hotel, having purchased W. S. Barrett's interest in the same. The new proprietor will be ably assisted in the management of the hotel by his son, Harry L. Bowman, who with his wife arrived in Alliance Monday from Chicago. Mr. Bowman, Jr., is also a commercial traveler, having been engaged in that capacity since he was seventeen years old and very successfully. He and his father are familiar with the needs and requirements of the traveling public and without doubt will be able to meet them satisfactorily. As will be seen by notices in this issue of The Herald the new management will give their opening dinner next Sunday from twelve to two o'clock. The Herald bespeaks for them success in the hotel business.

Mr. and Mrs. Barrett will spend sometime in an outing and visiting friends before they engage actively again in business. Mr. Barrett will leave soon for the mountains on a hunting and fishing expedition. He expects before he gets thru with this trip to clean up the balance of the bears in the mountains and leave only enough trout to stock the streams next season. Mrs. Barrett and two children will leave shortly for West Virginia for a short visit with her parents and other relatives. They have many friends in Alliance, whose best wishes will go with them.

**WEEKLY WEATHER REPORT**

Good Weather and Good Crop Prospects in this Country

The spring of 1912 was unusually late in northwestern Nebraska, as it was also in many other places, but otherwise it has been almost an ideal season. When warm weather came there was sufficient moisture to start grass to growing in fine shape, and the soil was in good condition for working for crops. There was not much rainfall during the month of May, but not much was needed. The two days of high wind the fore part of last week made people begin to want rain, and a good one came on Thursday night. Since then there has been good, warm growing weather most of the time, altho it is cool today. There was a sprinkle of rain this morning, and indications of more.

There is more Catarrh in this section of the country than all other diseases (it is terrible, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney, 215 E. Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system.
