

"A Vote for Wilson is a Vote for Good Government"

Tariff protected trusts have fattened at the expense of the people until, under the leadership of the champions of Democracy, there has come a popular uprising, demanding a change in the affairs of the government. Alarmed at the popular demand for progressive legislation, a great effort is being made to defeat reform in government by nominating the same old class of reactionary candidates under the name "Progressive."

This is Democracy's Year

The people will not be deceived longer. Those who serve monopolies and special interests under the name "Republican" will do the same if elected to office under any other name. The demand for reform in government in the interests of the people has come through the persistent agitation of Democrats.

Insure Progressive Government

by electing to office the candidates nominated as Democrats. They have shown in State government, as well as in the National Congress, that Democracy means the rule of the people. Make no mistake.

Mark Your Ticket: DEMOCRAT . . . (X)

One cross X will be sufficient. Mark it in the circle opposite the word DEMOCRAT at the head of the ballot. No other mark on the ballot will then be needed.
