### FIRE DAMAGES HALL RESIDENCE

Fire, starting at ten-thirty o'clock Tuesday morning, form a defective flue, damaged the large residence of Eugene Hall on Cheyenne Ave. The damage, estimated by Snoddy & Mollring, who had the building insured, amounts to \$2,000. The fire started in the attic at the west end of the building and was burning flercely when discovered.

The fire department made a very quick run to the fire and two streams of water were soon busy. It was difficult to reach the fire on account of the fact that it was back under the roof, through which holes had to be chopped. It was necessary to use a large amount of water, which soaked through the ceilings damage. A chemical engine could have saved a big loss here on ac-count of the fact that the big water damage could have been avoided.

Most of the furniture was removed from the house and placed in the house adjoining on the south, which was vacant, and which will be occu-pled by Mr. Hall and family until his residence is repaired.
