SUFFRAGE AS A DUTY
I leave it to others to speak of suffrage as a right or a privilege, I speak of it as a duty. What right have you women to leave all this work of caring for the country with men? Is it not your country as well as theirs? Are not your children to live in it after you are gone? Are you not bound to contribute whatever faculty God has given you to make it and keep it a pure, safe and happy land?
—Rev. James Freeman Clarke.

DEMOLISHING THE "CLINGING VINE" THEORY
"My husband is very fond of beans, and as I was out one day putting up the poles, I thought how often he had compared women to vines, and men to the supports on which they climb. There was a strong wind blowing, so I looked at the bean vines, and thought the poles would figure as trees, and perhaps I could get an inspiration from them.
"There were two rows, one in which the vines were twined all about the poles, and another in which the poles had just been set out and the vines had not yet begun to cling. Well, they were struggling beautifully with the wind, and the harder it blew the tighter the vines seemed to cling to the poles, and I had just begun to feel the inspiration creeping over me when there came a sudden gust of wind and blew down every single pole which did not have a vine on it, and left the others standing as straight as ever! That just spoiled it all, for after that, no matter how I looked at them, those vines always would seem to be holding up the poles instead of the poles holding up the vines."—Used by Miss Willard, in annual address of 1889.

"The nation that first recognizes the importance of scientifically rearing and training the children of the commonwealth will be the nation that will survive."—The Union Signal.

"THE LARGER HOUSE-KEEPING FOR WOMEN"
Illinois is the latest state to grant "Votes to Women". What the enfranchised women of the new suffrage state east of the Mississippi will do with the privileges is a question uppermost in the minds of the people of that commonwealth. The answer can undoubtedly be found in the very recent history of Washington, Oregon and California, as well as of other equal suffrage states.

The women voters of Kansas within the last few months have given a splendid demonstration of their ability to successfully carry on the "larger housekeeping", in the cleaning up of the city of Topeka, and electing as its mayor, chief of police and other officers, men of the highest type. The recall of unprincipled officials in Seattle and Tacoma is an illustration of what can be done in the way of civic housecleaning when the women are permitted to wield the suffrage broom. Portland, Oregon, has by the aid of its women voters, accomplished commendable feats of which the president of the state W. C. T. U. says, "Every candidate was measured, the acid test given being his belief in a restricted district or connection in any way with the saloon interests." That the California women are already making an impression on the civic life of the great cities is shown by the testimony of the chief of police of Los Angeles.

"Our women are new voters," says Mary McDowell, a prominent social worker of Chicago, "but they are not crude and undeveloped housekeepers, and this keeper of the home has developed at last into the municipal housewife, and the limits of her home responsibilities are stretching farther and farther out toward the collective family life of our great cities. She begins to see that safety to her own loved ones lies in the use of her housewifely habits, for the welfare of all the children of all the people. Everybody's child must be protected if her own children are to be safe."

CARPENTER.
.....
July 5th.

Why doesn't it rain and stop the heat that is turning the prairies brown and drying up the crops. Small grain is about gone but the corn and potatoes are looking well yet.

Last Wednesday Rev. Barrett and Mr. Corp came out to Carpenter. Rev. Barrett preached a good sermon which was thankfully received by the people of Carpenter.

Quite a number of our young people celebrated at Angola the 4th.

Mr. and Mrs. Hawkins went to Angola to celebrate and report a good time.

John and Lizzie Coker spent the 4th with their brother, W. S. Coker, and family, going on from there to Alliance the next day.

R. M. Worley spent the 4th at the J. C. Wright home partaking of fried chicken and other good things.

Miles Hagaman is helping work the roads this week.

Long famous for strange and curious forms of animal life to be found in no other zoological gardens, Cole Brothers triple menageries this year contain an exhibit which is just now occupying the attention of scientists and naturalists everywhere. It is the only black camel ever seen in captivity and the only wild one ever brought to this country. Prof. Knude, who has given a great deal of study to the subject, claims he finds this remarkable beast a descendant of the few which survived the storms which about the year 1700 overwhelmed the village of the Gobi plateau and killed all of the people. At any rate it is a prize of
