Ranked at the Very Top

DAVID RANKIN was a big farmer and he knew his business. He owned the largest corn farm in the world, about 35,000 acres down in Missouri. He devoted his life to the pleasant study and practice of right farming, and he succeeded mightily, for he made \$4,000,000 in the business of farming. David Rankin said: "The manure spreader is the most efficient money-maker on the place."

I H C Manure Spreaders

are built to suit you, to do best work for the buyer in every case, to convince him that he has made the wisest purchase. Every detail in the construction has a purpose, for which it was made after thorough tests and experiment. They have the maximum of strength and endurance.

You will find all styles and sizes in the I H C spreader line. They will cover the ground with a light or heavy coat, as you choose, but always evenly, up hill or down. There are high and low machines, with steel frames, endless or reverse aprons, but always giving best possible service. Tractive power is assured by position of the rear wheels well under the box, carrying nearly three-fourths of the load. Study the I H C spreader line at the local dealer's. Read the catalogues—write us.
