NO. 1, BOX BUTTE COUNTY, NEBRASKA, THURSDAY, NOVEMBER 6, 1913

NUMBER 48

CALL FOR CONVENTION

Seventeenth Annual Convention of American Live Stock Association in Denver, January 20, 21, 22

To Members and all Live-Stock Associations and Live-Stock Producers:

Call is hereby made for the Seventeenth Annual Convention of the American National Live Stock Association, to be held at the Broadway Theatre, Denver, Colorado, January 20, 21 and 22, 1914, convening at 10 o'clock a. m. on Tuesday, January 20.

During the same week, January 19-24, 1914, the Ninth Annual Western Stock Show will be held at the Stadium at the Stock Yards, and, in order to afford our members and visiting stockmen an opportunity to attend both our convention and the stock show, it has been arranged to hold the sessions of our convention only in the morning on the days indicated; but, if necessary to conclude our business, an afternoon session will be held on Thursday, January 22. This will allow plenty of time to see the stock show in the afternoon and the horse show in the evening.

The week previous to our convention the annual meeting of the National Wool-Growers' Association will be held at Salt Lake City, Utah, January 15, 16 and 17, 1914.

The new tariff bill, placing live stock and meats on the free list, was signed October 3, 1913, and went into effect on the following day. We were able to secure a satisfactory amendment, providing for adequate inspection of all imported meats on substantially the same basis as now applies to our domestic production. The effect that free meats and free live stock will have on our home prices, the world supply of meat-feeding animals, live-stock conditions in other surplus countries, and the probable volume of meat imports into this country, will be thoroughly discussed at our meeting by well-informed officials of the government and representative stockmen.

There has recently been some complaint from several states that the rigid enforcement of the regulations of the Bureau of Animal Industry on the mangle question is causing an unnecessary expense and hardship to the stockmen. In order that the whole mangle question and its eradication, and the regulations of the Bureau of Animal Industry pertaining thereto, may be thoroughly discussed by all concerned, a conference will be held, at the time of our meeting, between the representatives of the Bureau of Animal Industry, the representatives of the various state sanitary boards of the West, and a committee from this Association. All interested stockmen are invited to attend and participate in said conference.

Prospects for the passage of a

land-lease law at the next session of Congress are brighter than ever before. Many of the sheep-growers have heretofore opposed such a law; now the majority of them favor it. The unsatisfactory conditions resulting from the unregulated use of the open ranges have contributed in no small measure to the decrease of live stock in the West. This can be corrected by a lease law such as this Association has recommended. Congress seems to have finally awakened to a just appreciation of the importance of such a law and its bearing on our future meat supply. This question and the various land bills now pending in Congress will be considered at our meeting.

Officers of the Forest Service at Washington will be present at our convention to confer with the National Advisory Board appointed by this Association regarding any needed changes in the regulations governing grazing on the national forests. If any stockmen have complaints as to the administration of grazing on the national forests, they should arrange to attend our convention and submit their grievance to the committee of our Association for proper action.

There are many other questions which will come up for consideration at the convention, among them the following:

Elimination of valuation clause in live-stock contracts of railroads; speed minimum for live stock; cases pending before the Interstate Commerce Commission involving rates on live stock; delay in furnishing stock cars; railway service; meat-inspection law; prohibitive tax on oleomargarine; advance in commission charges for sale of live stock; and many other subjects of national importance to the stockmen of the West. The discussion of these questions will not be confined to the members of this Association; any stockmen in attendance will be allowed to take part.

The committee in charge of arrangements for the convention and the entertainment of visiting stockmen is: A. E. de Ricqles, George W. Ballantine, James Brennan, Isaac Baer, Charles Fletcher, Frank C. Goudy, C. A. Gebhard, M. H. Mark, John W. Springer, F. M. Taylor, John F. Vallery.

The railroads have promised to grant reduced rates to our convention. Members will be advised in ample time by circular letter of basis of fares agreed to.

All live-stock producers are cordially invited to attend our convention.

By order of the Executive Committee.

H. A. JASTRO, President.
T. W. TOMLINSON, Secretary.

HUERTA WILL NOT RESIGN

American Envoy Sends Dispatch to Washington Following Conference With Huerta on Wednesday

(International News Service)

Mexico City, Nov. 6—Envoy O'Shaughnessy sent a long dispatch to Washington giving full details of his conference with Huerta Wednesday. He refuses to discuss the conference but shows great anxiety. It is reported that Huerta informed O'Shaughnessy that under no circumstances would he consider retiring at this time but would willingly retire after the incoming congress decides on his successor. The next con-

gress will be controlled by Huerta. Huerta's private secretary, Robago, was present at the conference. It is reported that he soon will become foreign minister, succeeding Moheno, who recently resigned.

Huerta's friends say that he intended to resign the presidency of Mexico three days ago, but that his stubbornness was aroused by pressure brought to bear by Washington, and that he has decided to remain president despite any action taken by the United States. However, if the Mexican Congress calls another election, Huerta says that he is willing to abide by the result.

Washington, Nov. 6—The Secretary of the Navy has ordered that the four following battleships are to remain in Mexican waters for the present: the Louisiana, Michigan, New Hampshire and California.

El Paso, Nov. 6—It is reported that twelve thousand Constitutionalists under Villa have attacked Chihuahua City. The battle is now raging

MOST REMARKABLE RESCUE PHOTOGRAPH EVER MADE

This photograph, which is the most remarkable marine picture ever made, stands in a class by itself. It shows a condition at sea never before pictured by the camera. That the crew of the sinking vessel ever escaped at all is as remarkable as the picture itself. The suction caused by a vessel of such size as was the four-masted schooner Margery Brown must have been indescribable and the photograph gives one but little idea of its force, as the life-boat (arrow) escaped from its suction and found itself on the very rim of the vortex, from which perilous position the men were rescued by the North German Lloyd S. S. Berlin, bound for New York. It was 200 miles outside of Sandy Hook that an 80-mile gale hit the schooner and 36 hours later, Capt. Joseph Walker and his crew of five abandoned the vessel.

COUNCIL HOLD MEETING

City Fathers Handle Routine Business Tuesday Evening—New Water Ordinance is Passed

Tuesday evening's council meeting was concerned chiefly with the new water ordinance and the matter of electric lighting. The services of G. R. Bell, special deputy, were discontinued. J. W. Guthrie was present and showed the necessity for a yalley covering the employer's liability. A policy was ordered taken out which would protect city employees.

George Kaiser, who had his hand injured at the Nolan fire several weeks ago, was allowed \$20 relief.

Manager C. A. Dow of the electric light department said that the way to find out what the street lights are costing would be to put a meter on for the purpose of testing. The proposition of extending the present

street lighting system to the court house was taken up. It appears that most of the property owners are desirous of doing this and it may soon be installed. Mr. Dow stated that he desired to extend electric power lines to Duncan's addition as there are probably ten new customers there who want service.

Mr. Dow is in favor of lowering the rate on electric power for the purpose of inducing new consumers to install motors. His proposed rate would reduce the cost of 1,000 kilowatts from \$45 to \$38. There will undoubtedly be an electric pumping plant installed by spring for irrigation purposes and the power to be used for this purpose must sell cheaper than at present.

CALL OUT TROOPS

Governor of Indiana Gets National Guard to Handle Strike Situation in Indianapolis

(International News Service)

Indianapolis, Ind., Nov. 6—The governor of Indiana today called out the entire Indiana National Guard, following a midnight conference with officials of the street car company. The troops will begin arriving soon. The governor attempted to induce the street car company to arbitrate but they insist that they have nothing to arbitrate. The carmen have no grievance, striking only because they were forced to leave the cars.

Sixty prominent business men of the city requested the governor to issue the call for troops. All of the newspapers agreed to print no extras regarding the coming of the troops, fearing that it would cause

disturbances before they arrive. Three regiments of infantry and the hospital and signal corps are coming, a total of about 2,000 men. All will be held on the outskirts of the city until all are in a body, and march into town together. This is for the purpose of preventing rioters attacking isolated companies entering the city alone.

Union leaders have called meetings for this afternoon.

The governor of Indiana says that the bringing of the militia here does not mean the establishment of martial law. However, martial law may become necessary in the near future.

The governor has refused the labor unions permission to hold mass

meetings of protest on the State House grounds this afternoon, saying that he was opposed to any public demonstration now. Union leaders upon being refused declared that they would hold a mass meeting anyway. At present everything is quiet. The sheriff has sworn in fifty additional deputies.

The merchants of Indianapolis demanded troops, saying that anarchy's conditions have caused trade to fall off nearly fifty per cent.

Vehicles of all sorts have been pressed into service to carry people to work, and are charging ten to twenty-five cents for hauling people. Two hundred and fifty strike-breakers arrived today, but the traction company refuses to say when they expect to have cars running again.

SUCCESSFUL AUCTION SALE

Alliance Men Sell Fifty Head Thoroughbred Holstein Milch Cows on Last Saturday

All of the fifty thoroughbred Holstein milch cattle advertised by Peagins and Coursey for sale Saturday afternoon at the Coursey barn were sold, although the prices received were not as good as they should have been, principally for the reason that many who wanted cattle of this class did not realize it until too late.

That there is a demand for this class of milch cattle is shown by the fact that there were a number who asked where they could obtain cattle of this character. Some who missed getting any at the sale endeavored to purchase from those who were lucky.

Following is a list of the purchasers with the number of cattle purchased by them: Joe Reiman, Hemingford, 5; Emery Abley, Hemingford, 3; Chas. Bauer, 1; Ferd Trenkle, Bingham, 8; George Smeor, Orlando, 2; Mrs. C. M. Lotapich, 2; Jas. Dicks, 1; Jack Riordan, 1; Wm. McLaughlin, Orlando, 1; Ray Westover, Lakeside, 1; I. L. Acheson, 1; Arthur Taylor, 2; L. J. Schill, 17; Otto Hagaman, 1; Mike O'Shea, 1; Mike Bayer, 1.

Rev. O. S. Baker is a Lakeside visitor today.

ELOPEMENT IS STOPPED

Parents of Girl Object to Marriage to Young Man Who is Also Under Age; Both Are Arrested Here

Lillie Hutt, aged 17 and Corbet Ash, aged 19, were taken into custody Wednesday afternoon by chief of police Jeffers on a telegraphic request from Broken Bow authorities who wired the officials here to hold both or either of them.

The girl came up Monday night and the young man, who is a brother of George Ash, who was killed in a railroad accident a short time ago, came in at noon Wednesday. The couple were together when taken into custody.

The young man is an intelligent looking young fellow and in talking with The Herald reporter Wednesday evening said, "Lillie and I have been keeping company for about two years. She ran away once before because she was not satisfied with conditions at her home and I was blamed for that although I was perfectly innocent of the affair. I had seen and talked with her the evening before but did not know that she was leaving. I have been living with my parents at Broken Bow since the death of George, my brother. Lillie and I intended to get married today but I suppose that we cannot do so now. Her father is a wealthy retired Broken Bow man who owns property there and farms near town. We think a great deal of each other and want to get married."

Inasmuch as the couple are both under age they cannot marry without the consent of their parents. Ashe stated that he would have no trouble in securing the consent of his parents but that the girl's parents objected to the match and that he supposed they were responsible for the telegram which caused their detention. Ashe has many friends here among the railroad boys. The girl will probably be taken back to her parents. Ashe says that they will marry as soon as she is of age, which will be her next birthday.

MILLER BOUND OVER

H. J. Miller, who forged checks on local merchants, was arraigned before Magistrate Zurn Wednesday. He pled not guilty and waived his preliminary hearing. He was bound over in the district court under bonds of \$1,000, which he was unable to furnish. He was represented by attorney Bullock.

It is expected that district Judge Westover will be in Alliance the last off the week when Miller will be taken before him. It is also expected that he will plead guilty and be sentenced at that time.

JOLLY HUNTING PARTY

George S. Mayo, Doc Copeland, S. A. Powles and John Graham composed a hunting party that went out Wednesday morning for geese. They were fully equipped and looked as if they meant business. We will judge the results by the looks of The Herald's table in the next two or three days.

As one of their friends remarked this morning, "Mayo went along to pour oil on the troubled waters. Doc was to see that they used the right dope. Powles was to get the fowls. And Graham was to pull the Studebaker car over the sand hills."

NO MORE GAS THIS WINTER

(International News Service)

Kansas City, Nov. 6—The chances of getting more gas this winter are very poor. The clerk of the Court of Appeals which recently turned the Kansas Natural Gas Company over to Kansas receivers has notified the receivers that a mandate will not be sent down for sixty days. It will then be too late to make any extensions this winter.
