MANY KIDS SEE SANTA

He Came from the East on 43 Saturday. Went up Main St. in His Sleigh

As announced previously in The Herald, Santa Claus came to Alliance at noon Saturday on No. 43 from the east. The Bee Hive people want to thank the Burlington railroad people for their kindness in allowing Santa to ride on their trains which were much too warm for him, being as he is used to staying out in the cold most of the time. Santa was met at the depot by a sleigh and about a thousand kids, many of them accompanied by their parents. They followed him up main street to the Bee Hive, where he proceeded to make himself at home and gave everyone a present to remember him by. In the sleigh with Santa were 7 little tots—Gale Threlhold, Dorothy Barnes, Billy Fuller, Lulu House, Frances Schott, Margery Oswebe and Adolph Young.

639 little tots, to say nothing of about the same number of larger and full grown ones, passed through the Bee Hive Saturday afternoon for their present. A traveling man who saw the crowd said it was the largest he ever saw outside of the big cities.

When Santa arrived at the Bee Hive he found many letters from children who were unable to be here. One was from a little girl in South Dakota who said she had read about him in The Daily Herald and that she wanted to come awfully bad but the snow was too heavy. Many other letters were received. They will be re-printed in The Herald later.

MAY HAVE GOOD OIL LAND

A. J. Rock who returned a few days ago from a visit to his old home at Gettysburg, S. D., has a half section farm near that place. He informs us that they are prospecting for oil near his farm, fully expecting to strike a good flow. He has an offer to lease his land for oil for every eighth barrel produced, but declined to accept as the proposition did not suit him.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-throbs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foreman or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only \$20 a month—what a fine return that would be on your spare-time investment! G. O. Gibboney, of Mount Pleasant, Pa., increased his earnings \$250 a month, and hundreds have done as well.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
