### CATTLE SALES AT DENVER SHOW

Sales at the Big Live Stock Show this Week Exceed the Records of All Previous Years

DENVER, Colo., Jan. 23.—Five million dollars from the sale of livestock, the great bulk of it through auction sales at the National Western Livestock show, represented the business which passed through the Denver Stockyards bank from the opening of the show Monday morning up to the close of banking at 3 o'clock yesterday afternoon.

Yesterday's business through the bank aggregated \$1,500,000. The day was one of the heaviest in the history of the yards. Transactions, it was estimated, exceeded the \$2,000,000 mark.

An settlement for a large portion of the trading was not made until after 3 p. m., with some remaining for this morning, total figures of sales for the first four days of the show are expected to aggregate at least \$6,000,000.

A world's record was established yesterday in the sale of feeder cattle, a class in which the Denver show stands supreme. Twenty Angus steer calves entered by N. L. Harrison of Roggen, Colo., were bought at auction by A. W. Bragg of Tuscola, Ill., for \$13.10 per hundred pounds.

The carload, which had won the reserve championship, averaged 602 pounds to the animal, and brought \$1,577.24, or \$78.86 per head. This is 85 cents above the highest price paid for feeders at last year's show, and \$2.50 per hundred better than the champion fat cattle brought on Wednesday.

Bragg also paid \$11.10 a hundred for the fourth prize winners, twenty-five Angus steer calves, entered by N. L. Harrison, Jr. These averaged 674 pounds. Yesterday's prices for all feeders averaged from 25 to 50 cents per hundred pounds higher than a year ago.

The breeders' sale, which was conducted by the Hereford Breeders' association, resulted in some record sales. Three pure bred Herefords sold for over \$1,000 each, while the average price paid for sixty head was \$441.50. Many of the animals were purchased by Eastern buyers, thus marking the movement of pure bred cattle from the West to improve the herds of the East.

Governor Ammons, who lost none of his interest in the livestock industry when he became the state's chief executive, proved himself a capable auctioneer when he conducted the sales of dressed carcasses yesterday afternoon.

At previous shows this feature has attracted less interest than other sales. The governor overruled precedent by enthralling his bidders and obtaining from them some of the best prices ever paid for dressed carcasses at a National Western Livestock show.

**JUST RECEIVED. Car of Floor and car of Feed. It will be sold at reduced prices, in large or small quantities. E. ESSAY 113 Box Butte Ave.**

### ABLE TO SEE "COMICAL SIDE"

An Exchange Speaks of Seeing the "Comical Side" of Having One's Ear Cut Off

Which side is the "comical side" when one has one's ear accidentally taken off?

C. C. Nelson of Bridgeport was recently thrown from his wagon while driving out to his ranch. He fell so that his head struck the ground just in front of one of the wheels, so close the track that the wheel completely severed his left ear from his head. The ear was found the next morning in the wagon track.

A physician dressed the wound and expressed the belief that the hearing would not be affected, notwithstanding the seriousness of the injury. A neighboring paper in giving an account of the accident closes by saying:

"Mr. Nelson is in good spirits and is able to see the comical side of the mishap."

### URGES REGIONAL BANK FOR OMAHA

Henry Clews, New York Banker, Favors Nebraska Metropolis for Regional Bank

Omaha, Jan. 23.—Omaha is a logical place for establishing a regional bank, according to Henry Clews of the well known banking firm bearing his name. Chicago and St. Louis are also favored by the New York financier for the same reason, that the moving of crops of the United States devolves upon these three cities.

Omaha business men with the co-operation of Nebraska men are formulating a strong argument for the selection of Omaha. Its geographical location, supplemented by the fact that twenty separate and distinct lines of railroad are operated out of Omaha, are factors that must be taken into consideration in Omaha's favor. Omaha can be reached from more financial centers within twelve hours than any other city west of the Mississippi river.

The fact that the counter transactions of the banks of Omaha and South Omaha, members of the clearing house, aggregated more than two billion dollars last year is another element which shows the importance of the city as a financial center. That figure represents one-fifth of the total wealth of the United States.

### DESERVING HOME ENTERPRISE

One Way to Get Needed Institutions is to Appreciate Those We Already Have

There are many things the people of Alliance want established in this city. We are getting some of them. One good way to get other needed institutions is to show our appreciation of those already established.

With the above little introduction The Herald wishes to say a word in behalf of the Alliance Choral Club. "A choral club does not amount to much," some may think or say; but right there is where a huge mistake is made.

The Alliance Choral Club is not a part of the Alliance School of Music, although the members of the faculty are interested in and connected with it. It is for everybody who is interested in musical conditions in this city. The object is not to make money, but something is necessary to pay expenses. It is for the benefit of the city and to elevate the standard of music.

### BUILDING STONE PROVES TO BE GOOD STUFF

Government Tests Show that Rope by Which Suspended Should Not Have Broken

The big stone that goes over the entrance to the new court house had a test the other day that was not called for in the building contract. While suspended in the air preparatory to being put in place, one of the drums on the derrick broke, letting one end of the stone fall to the ground, a distance of eight feet.

Fortunately no one was under the stone when it fell, as it weighs five tons. It was also fortunate that the stone was not damaged by the fall, not even being nicked or otherwise defaced.

### NEW TAILOR IN TOWN

Jack Ottmar of Tacoma, Wash., arrived in Alliance Friday to accept a position with the Alliance Cleaning Works, commencing work this morning. He is the gentleman referred to in The Herald recently when mention was made that Mrs. Zehrung would soon have an experienced man in her employ. Mr. Ottmar is an experienced tailor and understands the cleaning and pressing department of the business thoroughly. He comes highly recommended and will no doubt give the customers of the Alliance Cleaning Works satisfactory service.

### THIS IS CERTAIN

The Proof That Alliance Readers Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time. Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Grateful endorsements should prove undoubtedly the merits of this remedy. Years ago people right in this locality testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say that time has completed the test.

Peter Hansen, Potter, Nebr., says: "I have more faith in Doan's Kidney Pills than ever and I willingly confirm all I said about them before. Aside from the great benefit I got from Doan's Kidney Pills, I have known of cases where parties have been almost down and out with kidney complaint and short use of Doan's Kidney Pills has improved their health wonderfully. Cases of weak and lame back, irregular action of the kidneys and bladder, all yield readily to this remedy. Kidney complaint and I are strangers now, thanks to Doan's Kidney Pills. I cannot make this endorsement too strong."

### ARRESTED FOR SHOOTING DEER

B. F. Monakey of Seneca, Nebraska, Gets Gay with Gun and Kills Forbidden Game

(By Herald Correspondent.)

SENECA, Nebr., Jan. 23.—The trial of B. F. Monakey, a resident here, has been held over until April, and will take place at Lincoln. It is claimed that he killed a deer about three miles west of here on the Dismal river. From there he took it to Mullen and shipped it to Lincoln, to a fictitious party, as poultry. The only reason that can be found why he did not bring it here and ship it, is on account of everybody knowing him.

He then went to Lincoln and got his deer at the express office. After a while he went into a saloon to "wet his whistle" and getting quite "mellow," he offered to sell the bartender his deer. The bartender, whose middle name was Solomon, went to get some cash, and while doing so phoned to his friend, Mr. Plain Clothes Man of Police Station Ave., who very obligingly took Mr. Monakey to his private residence and gave him a burglar proof apartment to reside in until he regains his moniker.

### BIG FLOODS ON THE COAST

San Francisco, Jan. 27.—Southern California is in the grip of a terrific storm today. Torrents of rain have fallen in the last twenty-four hours and a number of lives lost. The damage to property around Los Angeles is estimated at \$1,000,000. Many costly roadways have been ruined and people living along the flood have in many places had their property destroyed by the high water.

## A WORD TO THE WISE

DON'T be a pessimist. A pessimist is never wise. He only sees the other fellow's advantage—not his own. The average merchant is a pessimist about the parcel post. He sees in it only an advantage to the mail order house. But if he would look a little further he would see in it possibilities for his own development hitherto unsuspected.

By means of it he can reach every customer within fifty miles of him more cheaply, more quickly and more satisfactorily than any mail order house in a big city. He should hasten to make the buyers in this territory acquainted with this fact. Then he should back up his advertised claims for his goods with absolute fidelity. The sequel will be inevitable success.

WATCH HIM GROW.
