Poor Eyesight is a Defect of Nature

If you want to fight it out with nature in the matter of eyesight, that is your privilege, but it is a losing game.

Sensible People

submit to the dictates of nature when the first sign of eye trouble appears. Delay is dangerous. Consult an eye specialist if there is reason to believe that your eyes are not just as they should be.

I make tests that cannot fail to reveal the trouble and am prepared to give relief by overcoming the cause.
