

CHADRON NOTES

(By Herald Correspondent.)

Chadron, Nebr., May 14—The final examinations for the last semester will be given on May 25 and 26.

All of the exterior, and a good part of the interior, of the work on the dormitory is completed. It is thought that everything will be fully completed by the time summer school begins.

Mr. Anderson, a farm demonstrator, visited our assembly exercises last week, and when called upon for a speech, said he could foresee a big development in agriculture in Dawes county. Mr. Anderson has supervi-

on of work in his line in this section of the state.

At chapel Friday morning, after a short talk, Coach Beeler presented Frank Cooley with the beautiful loving cup which he had won in the cross-country run on Wednesday afternoon. The cup was awarded as a prize to the winner of the race, by Mr. Staarup, our enterprising jeweler.

The Alice Freeman Palmer society held a meeting Friday afternoon at 1 o'clock in the music studio. After a session of business in which plans were made for several delightful events which are soon to take place, a reading entitled "The Knights of the Three Cornered Table" was given

by Miss DeLisle Maika, which was greatly enjoyed.

Charles Loewenthal ran one of the pluckiest races in the long distance course ever seen in these parts. He had not trained for the course, and started out merely as a companion for the fellows who were in training. In spite of an inconvenience which would have quite daunted a less courageous sprinter, he ran the entire course and came in only a few yards behind the winner. Both Mr. Cooley and George Loewenthal have in practice beaten Frank's record, excellent as it is.

President and Mrs. Sparks entertained the class of 1914 Thursday evening. The rooms were decorated

with beautiful bouquets of roses and carnations. The evening was spent playing progressive Double Somerset, after which delicious refreshments were served. All were delighted with the hospitality of their host and hostess and regretted the close of so delightful an evening.

Members of the class of 1912, for the most part, continue teaching in the very good positions which they held last year or the year before. The Misses Bessie Fisher, Catherine Hennessey and Blanche Lewis have been reelected to their positions in the public schools of Chadron. Miss Kathleen Morgan resigned her position at Hastings to accept the position in the grammar room here. Miss Emily Grewe will remain at Gordon, where she teaches science. Mr. David Daboll will attend college next year.

From the class of 1913, Misses Cleo Scott and Gertrude Lutz retain their positions at Madison, Miss Pauline Scott at Minatare, Miss Carrie Allbery at Sturgis, S. D., where she teaches in the high school, Miss Grace Allbery at Prescott, Oregon. Miss Caroline Cilek has resigned at Sutherland to prepare at the university for high school work, and Miss Idamay Baker has decided to take up work at the university.

Those from the class of 1914 who intend to teach have nearly all secured positions. Mr. Charles Loewenthal is to be principal of the high school at Ogalalla, Miss Hazel McColister and Miss Bertha Braddock will teach in the grades at Gordon. Miss Marcia Lenington has a position in the public schools here. The majority of the class intend to continue their studies either here or elsewhere.

The cross country run was even a greater success than had been anticipated. The prize awarded to the winner was a handsome silver loving cup awarded by Mr. Starrup. Wednesday afternoon at 4 o'clock the boys wishing to take part were lined up at the termination of the walk at the east end of the campus, and at a pistol shot fired by Coach Beeler, started on their four mile run. The following are the names of the contestants: Frank Cooley, Charles Loewenthal, George Loewenthal, Rex Coffee, Lester Gibson, and Warren Eversull. Quite a crowd had gathered to see the race, and all waited eagerly to witness the result of the run. Frank Cooley came in first,

REO THE FIFTH

Reo the fifth attained its distinction by being a better built car than most makers think necessary. Care and caution are carried to extremes. Materials are bought under specifications, determined by twenty years of experience.

The steel is all made to formula. The gears are tested in a crushing machine to stand 75,000 pounds per tooth. The springs are tested in a machine which subjects them to thousands of bendings.

Each driving part must stand the tests of 50 per cent over-capacity. The builder fixes this as a margin of safety in the cars he makes.

Reo the Fifth, 1914 model is an honest and enduring car. This honesty and endurance is most apparent in the hidden parts—in the steel, the bearing, the gears and the forging.—190 drop forgings are used in the construction of Reo the Fifth.

The accessibility of the various parts of the engine is a feature of Reo the Fifth, that is worthy of consideration. This feature is one that will save hours of time in making engine adjustments.

A centrifugal pump gives a positive circulation and insures proper cooling.

The brakes of Reo the Fifth are extra efficient for safety's sake. They are the double acting, wrapping type. Both are operated by foot pedals so there are no brake levers in the way of the driver.

Reo the Fifth is electrically lighted throughout.

The design of the body is in accord with the latest mode. It is low-hung and racy. It has the gondola back. The upholstery is deep and soft. You will not find a handsomer car than the 1914 Reo the Fifth.

Reo the Fifth, five passenger touring car, fully equipped in every particular, will be sold at \$1250 f. o. b. Alliance, a reduction of \$220 on last year's price.

Phone 118 for demonstration.

THE BRITT GARAGE

ALLIANCE, NEBRASKA

My Business

HAS increased rapidly during the thirteen years since I started in Alliance. My stock of high grade groceries is one of the largest in western Nebraska. Square dealing and prompt and careful service has given me a list of customers who stay year after year.

I make a specialty of supplying ranchmen and farmers. Can fill any order given on short notice.

When in Alliance you are invited to call and get acquainted.

A. D. Rogers
