

## JUNIOR NORMAL ATTENDANCE

List of Those in Attendance at Alliance Junior Normal and Teachers' Institute

Following is a list of those in attendance this year at the Alliance Junior Normal. Also a list of those attending the Teachers' Institute:

- Junior Normal Enrollment**
- Opal Burkholder, Alliance.  
Lydia Nwffler, Rushville.  
Grace Burkholder, Alliance.  
Pearle Weibling, Ellsworth.  
Neva Brenaman, Alliance.  
Verne F. Huckle, Hemingford.  
Emma J. Doyle, Alliance.  
Lizzie Harkins, Alliance.  
Mella Tucker, Redington.  
Ceelia Micek, Angora.  
Bita Tucker, Redington.  
Helen Putman, Alliance.  
Martha Hoffman, Marsland.  
Ceel Wilk'nson, Antioch.  
Nora McLean, Goodstreak.  
Irene B. McKee, Harrisburg.  
Jas. Graham, Alliance.  
Mame J. White, Alliance.  
Bertie Vernon, Alliance.  
Nettie Nation, Alliance.  
Lara Hawkins, Alliance.  
Irma Lotspeich, Alliance.  
Ida McBurney, Hemingford.  
Thelma Fitzpatrick, Alliance.  
Mayme Fitzgerald, Alliance.  
Maggie Fitzgerald, Alliance.  
Mae Brandt, Alliance.  
Hazel Sheldon, Marple.  
Ruth Montgomery, Alliance.  
Nell Tash, Alliance.  
Helen Rice, Alliance.  
Grace Carlson, Alliance.  
Izetta Renswold, Alliance.  
Margaret Myers, Alliance.  
Mary Cooley, Alliance.  
Lester Beck, Alliance.  
Ethel J. Graham, Alliance.  
Roy Grandstaff, Ellsworth.  
Tressa Vandervoort, Alliance.  
Mona M. Loomis, Moomau.  
Nellie Wells, Alliance.  
Anna Carter, Hemingford.  
Irene M. Bennett, Moomau.  
Alice M. Bauer, Alliance.  
Jos. Steggs, Spade.  
Ethel Dimond, Bingham.  
Josephine Hoffland, Alliance.  
Howard H. Bennett, Alliance.  
Allie V. Noe, Morrill.  
Guy Graham, Canton.  
Dorothy Dickenson, Chimney Rock.  
Carolina Dickenson, Chimney Rock.
- Stella Kiester, Hemingford.  
Edna Bowman, Alliance.  
Marie Gilleran, Alliance.  
Wm. Duhon, Marsland.  
Paul W. Thomas, Alliance.  
Helen Weatherwax, Lisco.  
Margaret Killeen, Hemingford.  
Della Brown, Hemingford.  
Elvira Engstrom, Elna.  
Hattie Gimes, Hemingford.  
Blanch Wiltsey, Hemingford.  
Eather Kinsley, Hemingford.  
Mrs. Addie Miller, Hemingford.  
Oscar Miller, Hemingford.  
Charlotte Mollring, Alliance.  
Aubrey Young, Alliance.  
Alice Grandstaff, Ellsworth.  
Abbie Daugherty, Bridgeport.  
Lillian Tensly, Redington.  
Lillian Twist, Bridgeport.  
ate Powell, Morrill.  
Catherine Walsh, Ickea.  
Beasie Shepherd, Alliance.  
Lottie Owens, Alliance.  
Alforetta La Mon, Alliance.  
Hazel Bowman, Alliance.  
Teresa O'Donnell, Alliance.  
Alma Rosenberger, Hemingford.  
Virginia Rosenberger, Hemingford.  
Lillian Wilkinson, Antioch.  
Jessie Taylor, Alliance.  
Veronica ennedly, Alliance.  
Winifred Hobbs, Alliance.  
Ela McTurry, Alliance.  
Ruth Bye, Alliance.  
Lettie Irion, Scottsbluff.  
Julia Frankle, Alliance.  
Lulu Sturgeon, Alliance.  
Jessie Hacker, Alliance.
- Institute Attendance**
- Madge Graham, Alliance.  
Ida Uhrig, Hemingford.  
Anna Kennedy, Alliance.  
Grace Johnston, Alliance.  
Ruth Glau, Alliance.  
Merle Welliver, Alliance.  
Sadie Hacker, Alliance.  
Genevieve Ford, Alliance.  
Mrs. H. K. Emery, Alliance.  
Ethel Johnston, Alliance.  
Nina E. Nation, Alliance.  
Louquessa Nye, Alliance.  
May Nation, Alliance.  
Mattie Workman, Alliance.  
Elizabeth Calkins, Ashby.  
Ruth M. Remick, Mullen.  
Miss Loomis  
Miss Bennett  
Miss Brenaman  
Mr. Clements  
Bita Carter  
Minnie Hacker

Our solicitor may call on you this week for your renewal subscription to the Herald. He has an extra big bargain to offer. We advise you in advance to give him your order.

## LATEST NEWS OF U. S. LAND OFFICE

Hundreds of Thousands of Acres of Land Are Being Restored to Entry by Sec. Lane

The following paragraphs show action taken by Secretary Lane during the past few weeks in designating public lands under the enlarged homestead act and in restoring withdrawn lands. Additional information may be obtained by those interested from the United States Geological Survey or from the proper local land office.

**Enlarged Homestead Designations**  
Secretary Lane recently designated under this act nearly 300,000 acres in California. This action was requested by thirty-five residents of the localities affected. The lands designated are quite widely distributed over the more arid portions of the state.

A designation under the enlarged homestead act, recently approved by Secretary Lane, increases the area open under this law in Oregon by 284,000 acres. The lands affected by this order are in large part located in the Deschutes and John Day river basins, although there are scattered areas in other portions of the state.

**Restoration from Withdrawal**  
Secretary Lane has recommended to the president the restoration of 129,601 acres of withdrawn land in Montana. 47,063 acres of the land is in the ceded portion of the Crow Indian reservation and was examined last year by the Geological Survey and has been classified as coal land at prices ranging from \$20 to \$118 per acre. The coal, which is of the subbituminous variety, occurs in numerous beds from 1 1/2 feet to 15 feet in thickness. The remainder, which comprises over 82,500 acres of noncoal lands in widely separated parts of the state, has been examined by the Field Service of the General Land Office.

Secretary Lane has recommended to the president the restoration of over 43,000 acres in western Wyoming. These lands were withdrawn in 1906 because numerous reports of coal and early geological mapping indicated that the coals mined at Kemmerer, Evanston, and other points in the southwestern part of the state might be present here. The Geological Survey has examined some of the region in a preliminary way, and has found that a large part of the withdrawn area contains no valuable deposits of coal. The restoration of these lands reduces the area included in coal withdrawal in Wyoming to less than three million acres.

290,000 acres of lands in Glenrock Big Muddy coal field in eastern Wyoming have been restored to entry by the president on the recommendation of Secretary Lane. In pursuance of its announced policy of classifying withdrawn areas as rapidly as possible the Department through the Geological Survey, examined this area during the summer of 1913. As a result of this examination 30,000 acres have been determined to contain coal and are restored to entry under the coal land laws at prices fixed in accordance with the quality and quantity of the coal present. The surface of these lands may be acquired under the agricultural land laws with a reservation of the mineral rights to the government. The remaining lands included in the order, amounting to over a quarter of a million acres, have been classified as noncoal and are restored to general entry without restriction.

50,000 acres of lands in Utah, which heretofore have been included in coal land withdrawals, have been restored to entry by the president on the recommendation of Secretary Lane, following the classification of these lands by the Geological Survey. As a result of this classification, 15,000 acres have been determined to contain no coal while about 33,500 acres have been determined to contain valuable coal deposits. These lands lie chiefly in the Book Cliffs field, while a smaller area lies farther south in the Colob field. The noncoal lands may be obtained under the nonmineral land laws without restriction, while the areas that contain coal are purchasable under the coal land laws or their surface may be acquired under the agricultural land laws.

The president, on the recommendation of Secretary Lane, has just approved an order restoring to entry over 250,000 acres of lands heretofore withdrawn in the Ekalaka coal field of eastern Montana. This restoration follows a classification of these withdrawn lands by the U. S. Geological Survey. As a result of this classification over 210,000 acres were determined to contain no coal, and are, therefore, restored as noncoal lands, while slightly less than

43,000 acres are classified as coal lands and are priced in accordance with departmental regulations. The noncoal lands are available for entry under all of the nonmineral land laws while the coal lands may be purchased at the classified prices under the coal land law or entry may be made under the homestead and related laws with the reservation of the mineral rights to the government.

53,000 acres of withdrawn land in northwestern Idaho have been restored to entry by the president, on the recommendation of Secretary Lane. The land was withdrawn in 1910, because numerous reports from various sources indicated that deposits of lignite might be found here on Clearwater river and Orofino creek. Government geologists who had made examinations in this region in 1910 for other purposes reported incidentally that there were indications of the presence of lignite and many later reports were received from other sources that valuable deposits existed. Last summer a member of the Geological Survey visited the area and found that the lignite here is of little extent and of no commercial value. The withdrawn land has been classified as noncoal and the erasure of the withdrawal by the president restores the land to all forms of non-mineral entry as before the withdrawal.

### ADVENTURES IN THE NEWSPAPER GAME

A New Series of Articles Written for The Herald by the Ex-reporter—Number One

**The Baby Scoop**  
At the age of sixteen, I had about used up all the nine lives which all cats and kids are said to possess, so that after being laid up with a broken rib, for a couple of months, my father decided if he wanted to have any son left, the only way to keep him would be to put him to work during the summer vacation, where he would be out of mischief.

Thus it was that on one bright summer morning, I found myself located in the snug berth of cabin boy aboard the 60 foot steam yacht, "Sweet Marie", Howard, master.

That noon the captain's gig came alongside with Captain Howard and a stranger in it, who I learned later was Bill Stearns, considered the greatest marine reporter in the country (of course I am faking all names).

He cruised around with us for two weeks and during that time seemed to take a great liking to me, so that when he left us at a little town upon the Maine coast, he made me promise to come and see him the next time I was in the Big City.

About a month later while at anchor at the Big City I heard a couple of deck hands talking about the races for an important honor that were to take place the next day.

From what I overheard I learned that the captain of the "Mermaid", which was expected to win, had been bought to lose the race to her competitor the "Merman", the odds being six to one.

I immediately notified Bill Stearns who wrote the story and looked up the proof.

You can imagine the size of my head when I got a letter of congratulation from the editor of a well-known press association with a check for \$47.50 enclosed, as my share of the profits.

### SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, and you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, and other disorders come from sluggish kidneys.

The moment you feel a dull ache in the loins or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act free. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

But occasions like this do not happen very often, and I just had a piece of what Bill calls "fool luck."

### FOUND AND TAKEN UP

I have taken up, at my place in Alliance, Nebraska, the following head of stock:

- 1 bay two year old colt, Shire bred.
- 1 three year old colt, Shire bred.
- 1 light bay mare with light mane and tail.
- 1 gray mare with foretop clipped.
- 1 bay saddle mare. Looks like an Indian pony.
- 1 dark bay mare.
- 1 bay horse with foretop clipped.
- 1 brown horse with foretop clipped and three wire scratches across breast.

Owner can have the above by proving ownership to my satisfaction, paying for this advertisement and the other costs allowed by law. There are no brands on the horses. Phone 223.

O. S. BRUSH, Alliance, Nebr. 291f3654

PAPER ICE BLANKETS—Hamilton's.

### ATTENTION, ELKS

In July the national Elks' convention will be held in Denver. Many of The Herald readers who are Elks are planning to attend this convention. Those who do so will want to take with them emblem cards with their name printed or engraved thereon. The Herald is equipped to furnish these on short notice. The prices are very reasonable. Different styles

can be furnished. Phone 340 or call at The Herald office and see the samples.

HERALD PUBLISHING COMPANY. 291f

### Get Together Saturdays

Farmers in Gage county have started the custom of gathering together each week to discuss current farm problems either at the office of their farm demonstrator or at the home of some member of the county farm management association. Some time topic is discussed by the demonstrator, followed by a discussion on the part of the farmers. Such meetings are being encouraged by the Nebraska College of Agriculture, and any assistance that may be given is furnished.

### FOR SALE—SURREY

Two-seated surrey for sale. First-class condition. Inquire of Walter Buechsenstein. 301f3719

# When you see the name of George Washington

you are reminded of the cherry tree and hatchet incident.

G. W. was once a surveyor. John P. Hazard is a surveyor. J. P. also sometimes tells the truth. In the pioneer days he told the people that the southeast corner of Box Butte county was at a point locally known as "badger hole." In 1898, some other surveyors and lawyers made the court believe said corner was located in a "pocket" about three-fourths of a mile away—and it was so ordered.

The government surveyors, after making a thorough examination and re-tracing of the old lines, have re-located said corner at the same old "badger hole" and say they have no doubt about its being correct.

This is an advertisement and the point is, if you have a surveying problem with a knot in it—better send for the old "ex" (and candidate for) county surveyor

## J. P. HAZARD

Alliance, Nebraska

## Cooking With Pleasure

You can make, cooking a pleasure during the hot summer months by using a QUICK MEAL GASOLINE or OIL STOVE, and the saving on fuel is worth your consideration. There is a size for every requirement. Prices from \$3.50 to \$36.

NEWBERRY'S HARDWARE CO.
