HOGWALLOW NEWS

DUNK BOTTS, Regular Correspondent

(George Bingham)

Sidney Hocks became intoxicated Saturday evening and tried to drive his yoke of steers into the postoffice, but failed on account of the door being too narrow. There have been many other complaints recently on account of the narrowness of the door at the postoffice.

Atlas Peck has violated the confidence of several of his warmest friends and after this it will be a hard matter for him to get a drink of licker that is any account. He obtained a jug of Bat Smith's Moonlight Reel the other day under the pretense that he was going to use it in celebrating his annual birthday. But instead of that he took it home and put some asfoedita in it, and is using it for pneumonia medicine.

taken a turn for the worst' and he has decided he had better look after his religion. Sunday he went over and bragged on the Dog Hill preacher's sermon.

Several from this place will go to

Tickville next third Sunday to witness the unveiling of the town pump. The Bind Man of the Calf Ribs neighborhood was about to be talked into buying a heating stove from Slim Pickens the other day, but the trade was knocked in the head by one of Slim's enemies, who told the Blind Man that winter was over.

Cricket Hicks, who has been at work in the Calf Ribs community several weeks, has returned home with five dollars in cash. This will somewhat relieve the financial situation around Hogwallow, as money was beginning to get very scarce.

The examining trial of Raz Barlow charged with detaining the Mail Carrier by offering him a drink of licker, was set down for trial at Rye Straw yesterday, but was continued on account of lack of sufficient evidence to acquit the defendant. The Old Miser, who some time ago

The Old Miser, who some time ago buried his money in a mule collar, has dug it up and hid it in Gander Creek graveyard where he knows everybody is honest.

The town was in darkness last Friday night on account of Little Fidity Flinders having eaten the post master's supply of candles.

Tobe Moseley read an entire patent medicine advertisement through the other night before he realized what an awful risk a man runs by getting sick.

Poke Earley is making an ideal husband, contrary to the predictions made when he married again last year. He has cleaned off a nice place on the bank of the creek for her to do family washing, and in order to be ever near her, he has picked out a fishing place right across the stream.

Slim Pickens came to Hogwallow yesterday morning and after resting a while on the front porch, bought fifteen cents worth of bologna sausage. Cricket Hicks, an old friend came up and hesitated, but Slim did not recognize him until the sausage was all gone.

The Mail Carrier's watch has been left at Dock Hock's blacksmith shop where it is undergoing extensive repairs. Dock is fast gaining notoriety as a machinist.

Poke Eazley is spending the week at the postoffice watching the dirt-daubers build nests on the rafters. This is the only job of work Poke ever witnessed without suggesting a better way to do it.

Miss Hostetter Hocks has written to the "Advice to the Lovelone" department of a city paper asking for a recipe for the cure of sun-grins. Ellick Hellwanger says he would prescribe the eating of green gooseberries.

Of Interest to Prospective Entrymen Of peculiar interest to prospective nomestead entrymen on mineral land s the act of congress approved July 17, 1914. Heretofore where coal lands have been withdrawn by the government, it has been possible for agricultural entrymen to secure the surface of these lands with the reservation of the coal to the government, but in the case of lands withdrawn or classified as containing phosphates, nitrates, potash, oil, gas, or asphaltic minerals, such acquisition of title to the agricultural surface, with reservation of the minerals to the government, has not been possible. The new act extends to fands containing these other minerals essentially the same conditions as have hitherto applied to coal lands, and, as a result, large areas in the west withdrawn, particularly for phosphate and petroleum, will be subject to agricultural entry, with the reservation of mineral rights to the government. Many such areas have been designated under the Enlarged Homestead act, and the effect of this is to increase materially the area in the west subject to agricultural entry, without in any way jeopardizing the interests of the government in the minerals.

Every man who isn't prominent imagines he will be some day.
