The Marlin 12-16-20 Gauge Hammerless "Pump" Guns
Six Quick Shots!
The Safest Breech-Loading Gun Built!
The Marlin hammerless repeating shotgun is a fine-appearing, beautifully-balanced gun, without any objectionable humps or bumps or holes on top for gas to blow out through or water to get in; can't freeze up with rain, snow or sleet; its solid steel breech (not a shell of wood) permits a thoroughly symmetrical gun without sacrificing strength or safety; it is the safest breech-loading shotgun ever built. Six shots in 12 and 16 gauge; five in 20 gauge.
It is Hammerless with Solid Steel Breech (inside as well as out)—Solid Top—Side Ejection—Matted Barrel (which costs \$1.00 extra on other guns)—Press Button Cartridge Release—(to remove loaded cartridges quickly from magazine without working through action) Double Extractors—Take-Down Feature—Trigger and Hammer Safety. Handles rapidly; guaranteed in shooting ability; price standard Grade "A" 12-gauge gun, \$22.00; 16- or 20-gauge, \$24.00.
Send 3 stamps postage for big catalog describing all Marlin repeating shotguns (hammer and hammerless), all Marlin repeating rifles, etc. Do it now!
The Marlin Firearms Co., 42 Willow Street, New Haven, Conn.

If you shoot a rifle, pistol or shotgun, you should have a copy of the Ideal Hand Book—160 pages of useful information for shooters. It tells all about powders, bullets, primers and reloading tools for all standard rifle, pistol and shotgun ammunition; how to measure powders accurately; shows you how to cut your ammunition expense in half and do more and better shooting. This book is free to any shooter who will send three stamps postage to The Marlin Firearms Co., 42 Willow St., New Haven, Conn.

The New 20-Year Payment Law For Government Irrigated Farms

The settler pays only a small sum down, no construction charge for five years, the rest after that with no interest. This is the time to advise your friends back East of these new conditions under which they may homestead Government irrigated lands in the Big Horn Basin or the North Platte Valley and get a perpetual Government water right, almost as a gift. Tell them about the Burlington's new Central Wyoming main-line through the heart of these regions, the coming increased land values to those who get started early. Tell them of the ample water supply, of the rich soil, the alfalfa, livestock and oil industries.
Or, remind them of the Carey Act and private irrigated lands and the favorable terms which a practical farmer or bona fide purchaser may obtain.

Suggest to them to write me for Big Horn Basin and North Platte Valley literature, and the addresses of reliable land agents in these localities.
