The departure of the cook or the maid does not prostrate the lady who knows the efficiency of the want ads.

And want ad-reading servants are of the desirable class.

Seldom does a "girl wanted" ad run its full time until a "Stop-girl supplied" order is received.

## With the Approach of Fall Weather Attention is called to the Stove Question

With the market open to us, to select almost anything we might like in the way of Stoves and Ranges, we have arrived at the conclusion that the interest of our customers could be best served through the line of "Buck's" stoves and ranges, which has been constantly growing in favor since 1846. The "Buck's" Trade Mark, which we show herewith, is a guarantee of quality. "Buck's" line covers almost anything the human mind can conceive of: Cooking stoves and ranges, base burners, ventilators, hot blasts, oak stoves, in fact a complete line of all kinds of stoves and ranges for all kinds of fuel, suited to every room in the house, and at prices which are so low, when quality is considered, that any selection from this line will be found to be the best value that can possibly be had, for the price asked.

### Buck's Hot Blast Heater

for soft and hard coal and wood, are first in ECONOMY, DURABILITY, CONVENIENCE and APPEARANCE. They will produce hard coal results with soft coal. Combustion takes place in a circle, burning from the outer edge to the center, causing the stove to radiate heat as soon as the fire is started. Requires attention only three times in twenty-four hours. A steady, even heat day and night. Will keep fire forty-eight hours. It is the most durable soft coal stove ever made. Can never puff; has safety draft in base of feed door which also ventilates, mica. The grate is self-cleaning, grinds up and drops into pan all foreign matter in soft coal. Fire pot never cracks or burns out; it is everlasting. It is well proportioned, handsome in design and beautifully finished. An ornament to any parlor or sitting room. They are by far the best fitted and most easily controlled soft coal heating machines in America.

### Buck's Oak Stoves

are Oak Stove Specialties because of their striking and unusual appearance and special features. It is the MOST DURABLE Oak Stove ever made. They are specialties because they contain "Buck's" original cone-shaped, easy-cleaning grate, and cast protecting plates over edges of steel body (inside of door frame), which keeps it everlastingly air-tight. They are clean and convenient in operation, on account of combination air-tight shaker and draft door and extra deep ash pit. Large bailed pan, will hold all ashes stove can make in twenty-four hours. Every joint in the stove is perfectly air-tight. Well proportioned, handsome in design and beautifully finished.
