DO YOU KNOW?

THAT WEDNESDAY, "ROUGH DRY" DAY, IS GETTING TO BE OUR BUSIEST DAY?

Some of your neighbors know because our wagons now gather it from every part of this city. The only reason we keep on getting it is because people are well.

Pleased With Our Work

We can do the hard disagreeable part of your laundry work better than you can, of course, but do you know that, taking everything into consideration, we can do it even cheaper than you can have it done at home? ONLY 4c PER POUND.

Surprises you, doesn't it? Don't stop there—make us prove it. Wagons call for this work on Mondays and Tuesdays. Call 160 and tell us which day to stop.

A MAIN LINE THRO' CENTRAL WYOMING

On October 18th the Burlington will inaugurate through passenger train service between Denver and Billings over the new main line through the Big Horn Basin—through Cheyenne, Orin Junction, Casper and Thermopole. The establishment of through train service over this new main line of railroad is historic. It closes one of the last great breaks in the transportation system of the country, and offers for the first time to the social, commercial and agricultural activities of Wyoming and of the Middle West, direct means for intercourse and the exchange of commodities between Northern and Southern Wyoming—between the rich farming, live stock, coal and oil regions of the Big Horn Basin, in the North, and Cheyenne, the State Capital, and Denver, the Metropolis of the Rockies, on the South. The opening of this new line should prove a great stimulus to every farmer, stock-raiser, and business man in Central and Northern Wyoming.

NORTHBOUND, the new train will leave Denver at 4:00 P. M. and arrive Billings, 6:20 the next afternoon; SOUTHBOUND, leave Billings 7:30 A. M. and arrive Denver, 12:05 the next noon. It will carry a cafe-parlor car in each direction for the daylight trip between Billings and Casper, and standard sleepers for the night trip between Casper and Denver.

Let me send you booklets descriptive of this new country, or answer your specific inquiries about opportunities for the farmer and business man.

"Anything in Hardware"
Newberry's Hardware Co.

A town of 4,000 inhabitants in Peru has been wiped out by an earthquake, but very few newspapers found room for an item about it on the front page.

Now that William Waldorf Astor has given \$100,000 to the English Red Cross, maybe he will get into the nobility. War is a powerful lever.

An exchange remarks that Cole Blease of S. C. has been added to the country's rather small collection of great ruins. He is a ruin, all right, but he is not great.
