The World Series

Boston vs Philadelphia for the world's highest honors in baseball. The leading teams in their respective leagues clash Friday in the opening game at Shibe Park, Philadelphia. The one great question that confronts the fan is—who will be returned the winner. To the majority the Athletics are given the preference by a wide margin. They have proven by their past records to be one of the greatest ball machines ever assembled, carrying off three world's series in the past four years. They are now facing a team in the coming series that has just established one of the greatest records ever known in the national pastime—baseball.

On July 5th Stalling's Braves had played 66 games, had lost 40 and won 26, giving them a percentage standing of .394 against the leaders—New York, whose standing was .625, a difference of 231 points between the tailenders and the leaders. In two months following they played 50 games, winning 39 and losing only 11, thereby overtaking and passing the leaders—this has proven to have been one of the greatest feats in baseball.

The standing of the teams on July 5th was like this:

Club	W.	L.	Pct.
New York	40	24	.625
Chicago	40	32	.556
St. Louis	37	36	.507
Cincinnati	35	36	.493
Brooklyn	31	33	.484
Pittsburg	31	31	.479
Philadelphia	30	34	.469
Boston	26	40	.394

Sixty days later, September 5, the standing was like this:

Club	W.	L.	Pct.
Boston	65	51	.560
New York	63	51	.553
St. Louis	64	58	.525
Chicago	63	58	.521
Brooklyn	54	62	.466
Cincinnati	55	64	.462
Philadelphia	53	63	.457
Pittsburg	53	63	.457

Such a record cannot be overlooked in going into the present series. Stalling used in this race for the National League pennant three pitchers, Rudolph, James and Tyler. What they will be able to accomplish against the hard hitting Athletics remains to be seen as the first two games are scheduled in Philadelphia.

I look for an even break. The Athletics to take the first and the Braves the second, with Plank and Schang and Tyler and Gowdy to start the opening game in the series. I look for a hard and long drawn out fight and I pick Boston to win.

Although potato harvest has been in progress for almost two weeks, there is no commercial demand as yet, and very few are being hauled to town. No foreign buyers have been in Hemingford yet this fall, and it is not known at this time just what the spud market will be. From some cause, potatoes are not quite as ripe as is usual at this time of year, and this may be the reason for the inactivity of the market.
