WILL SPEAK IN COUNTY

A. E. Anderson, in Charge of Farm Demonstrator Work for Government, to Speak Here

To the farmer and land owner: The farmers in Box Butte county haven't a man to represent them, we have been talking and talking about organization but that is all we have done. We have let our sister counties in this part of the state pass us and while they are organized and getting the benefit of it we are divided and paying dearly for it.

We need a man to act as our agent—one who will call meetings, find a good market for our products and who will secure government help for us. This can be secured if we co-operate with the government in the Farm Demonstrator movement.

Our boys and girls should have the same advantage as some of the other counties, and the way to bring this about is to decide to co-operate together.

The U. S. government is willing to help us if we are willing to help ourselves and in order that we may know more about this work A. E. Anderson, who has charge of the Farm Demonstrator work for the U. S. government in Nebraska, will speak at the following school houses and it is hoped that every farmer will be present and phone his neighbors also. If you stay away it will mean that you do not believe in the farmers organizing and if Mr. Anderson does not receive sufficient encouragement he will go to the counties that show the progressive spirit.

The meetings will be held as follows:

School district No. 124, Wednesday, Nov. 11, 3 p. m. E. M. Gregg, chairman.

School district No. 5, Wednesday, Nov. 11, 7:30 p. m. T. J. Lawrence, chairman.

School district No. 51, Thursday, Nov. 12, 3 p. m. H. C. Hansen, chairman.

School district No. 9, Thursday, Nov. 12, 7:30 p. m. Wm. Vogel, chairman.

School district No. 12, Friday, Nov. 13, 3 p. m. Chas. Benjamin, chairman.

City Hall, Alliance, big mass meeting Saturday, 2 p. m. L. J. Schill, chairman.

Additional Committee: W. E. Spencer, Jack Miller, W. D. Fisher, J. A. Keegan, Art Grove, S. L. Himes, Robert Clark, C. W. Sisley.

No county ever went ahead without men to push it ahead. On which side of the line do you stand? Your presence at these meetings will help decide this matter. Come out and bring your family. Ladies especially invited.

Something to Remember

Regardless of the advantage which has come to the plains region thru the introduction of dry farming methods, forage crops are much more certain to mature than grain crops and are valuable only where there is live stock available to consume them. Kafir, feterita, cant, and other sorghums are valuable in proportion as they can be utilized locally for live stock. The grains which are most normally grown, aside from wheat, are most profitable if consumed locally, as markets are likely to be uncertain and freight rates high.—Dean E. A. Burnett, College of Agriculture.

Germany is now said to be a little worried over the war. Why not? Every nation on the globe is considerably worried.

Notice to Creditors

State of Nebraska, Box Butte County, ss.

In the Matter of the Estate of Henry Shimick, Deceased.
I, L. A. Berry, County Judge of Box Butte county, Nebraska, hereby notify all persons having claims and demands against the estate of Henry Shimick that I have set and appointed the 1st day of June, 1915, at 10 o'clock in the forenoon, at the County Court room in Alliance, for the examination of all claims against the estate of said decedent with a view to their allowance and payment.

All persons interested as creditors of the estate will present their claims to me at said time, or show cause for not so doing, and in case any claims are not so presented by said time they shall be forever barred.

This notice shall be served by publication thereof for four consecutive weeks in the Alliance Herald, a newspaper published in Alliance, prior to the day of hearing.

Given under my hand and the seal of said court this 2nd day of November, 1914.

L. A. BERRY, County Judge.

Dum Dum Bullets

Persons who have been reading each day of the progress of the great war in Europe have observed that the Germans are accusing their enemies of using dum dum bullets, while a like accusation has been brought against the Kaiser's men by the English, French and Belgians. The German emperor some time ago sent a communication to President Wilson protesting in the name of humanity against the alleged use of the dum dum bullets by Germany's foes. He even went so far as to say that the French government was manufacturing countless thousands of these bullets by means of machinery especially designed for that purpose.

Comparatively few really know what the dum dum bullet is. The dum dum, named after Dum Dum in India, where bullets are made for the Indian army and where this particular kind seems first to have been used, are of two kinds. The one most commonly used is the soft nosed, or mushroom bullet; the other is hol-

lowed to its point end. In either case the object sought is to make the lead missile spread or fly into fragments when it strikes the human body, making a jagged and fearful wound and usually causing death. One wound made by such a bullet usually costs the victim his life, whereas soldiers in the present war have been known to receive nearly a dozen wounds from high powered rifles and to survive their injuries because the bullets were fired with such terrific speed that they cut only a very small and perfect round wound.

BAZAAR

The ladies of Holy Rosary church will hold a bazaar in the Gadsby Hall on November 17, 18 and 19, from 11:30 a. m. to 1:30 p. m. and from 5:30 to 7:30 p. m. A cafeteria lunch will be served. 47-35-4179
