Alliance Man Will Make Interesting Trip This Summer—To Furnish Articles for Herald Readers

At New York Mr. Spon will take one of the large Panama-Pacific line passenger steamships for the Panama canal. He will go either on the Kronland, which has a displacement of 22,000 tons, length of 580 feet and breadth of 60 feet, or the Finland, another ship of the same size. The trip through the Panama canal will be made, stops will be made at San Diego and Los Angeles and then the finish of the steamer trip will come at San Francisco, where Mr. Spon will spend several weeks viewing the big Panama-Pacific International Exposition.

The return trip will probably be

made through the northwest, stops being made at Seattle, Portland, Vancouver, Billings and other north-western points.

As a representative of The Herald Mr. Spon will send a full account of his trip, contributing an article each week for our readers. At San Francisco his headquarters will be at the Press Building in the exposition grounds. His account of the trip and of the exposition will be of much interest.

## Snow Very Deep

J. C. McCorkle, the land man, who has the contract for two of Uncle Sam's star mail routes, each one covering fifty miles, states that the snow in the country is still very deep despite the warm weather of the last few days. There is very little travel in the country and what is done is on horseback. Roads are not broken and the snow is from twenty to thirty inches deep in many places.

**Mrs. McClain's Experience With Croup.**

"When my boy, Ray, was small he was subject to croup, and I was always alarmed at such times. Chamberlain's Cough Remedy proved far better than any other for this trouble. It always relieved him quickly. I am never without it in the house for I know it is a positive cure for croup," writes Mrs. W. R. McClain, Blairsville, Pa. For sale by all dealers.—Advertisement.
