

DIES ON TRAIN

Body Taken off Here—Sent to Home in Buffalo, Wyoming

While enroute to his home at Buffalo, Wyoming, on No. 41 last Friday morning, John Georgen suffered a hemorrhage of the lungs and died between Hyannis and Whitman.

Georgen, accompanied by his brother-in-law, Glenn E. Barber, had been to Rochester, Minnesota, to a noted medical institution, going there about ten days ago to find if they could give him any relief for tuberculosis. They advised Barber to get the patient to his home as fast as possible, as he could live but a short time. As the circumstances later showed, the start was not made soon enough.

Both Georgen and Barber have lived in Buffalo a number of years. The dead man was about 26 years old, and leaves a young wife, together with other relatives, to mourn his death. The body was taken off here and sent to the Darling undertaking parlors where it was prepared for shipment, and was sent on to Buffalo Friday evening.

HELP WANTED IN ALLIANCE

And Furnished by the Help of Alliance People

Those who suffer with kidney back ache, urinary ills or any little kidney or bladder disorder, want kidney help. Who can better advise than some Alliance resident, who has also suffered, but has had relief. Alliance people recommend Doan's Kidney Pills. Here's one case and there are many others.

Mrs. Robert Bicknell, 504 Big Horn Ave., Alliance, says: "I have known of the merit of Doan's Kidney Pills for over three years. I first used them in Pleasantown, Iowa. For years I had kidney complaint and was unable to find permanent benefit until I began using Doan's Kidney Pills. They removed the pain in my loins and also strengthened my back. WILL FARM IN BOX BUTE

Successful Business Man of Rockford, Illinois, Buys Land Here

J. S. Rhein of Rockford, Ill., has purchased 480 acres of fine land west of C. L. Hashman's place, about ten miles from Alliance, the sale of the land being made by Acheson Brothers, real estate agents.

Mr. Rhein is a successful business man, having recently been connected with a wholesale implement house in Illinois. After looking the ground over and making careful investigation he decided to remove to western Nebraska. He will make some improvements on his farm, and summer fallow this year but will not plant much to crops until next year, when he will be better acquainted with the country and conditions here. His family arrived the first of this week. They will make their home in Alliance.

Sheridan Also Wants One

A petition for a franchise to establish a central heating plant, selling steam to the business houses and residences of Sheridan, was received by the city council this week from R. A. Keenan. The terms of an ordinance granting such a franchise for a term

of 25 years are being considered by the commissioners. If the franchise is granted, it is said, a company capitalized at half a million dollars will be organized and preparations made at once for rebuilding the plant and installing the pipes and radiation.

Central heating plants have already been installed in several cities in this region, notably Casper, Billings, Laramie and Cheyenne, and have proved quite satisfactory. The cost of heat generally being no greater than from private heating plants and the property owners being relieved from the dirt, smoke and janitor service incident to keeping a furnace running during the winter months.—Post.

With Alliance Electrical Works

Since severing his connection with the Alliance Times, C. E. Maynard has accepted a position with the Alliance Electrical Works, the growing business of which makes a demand for his service. Charles Schafer, the manager, informs The Herald that since the reduction in electric light rates there has been a marked increase in the demand for electrical goods and for wiring.

Treatment of Potatoes for Dry Rot

Dry rot is causing a great deal of damage to potato growers in Nebraska. If the stem end of a diseased potato is shaved off, brown thread-like strands may be seen extending into the potato. This disease which causes rot grows while the potatoes are in storage. When this diseased seed is planted, the new potatoes in the field become diseased. Much of

this may be prevented by cutting off the stem end of the potato, being sure to remove all the discolored part and throwing it away, then dipping the seed in a solution of formalin, 1 pint to 30 gallons of water, or corrosive sublimate, 1 part to 1,000 parts of water. Place the potatoes in a gunny sack and submerge them and leave them in the solution for two hours. When removed from the solution, spread on a platform to dry, then cut and plant. After being treated, potatoes should not be placed in anything which has contained untreated potatoes before.—Extension Bulletin 16, Agricultural Experiment Station of Nebraska.

RETURN FROM SPOKANE, WASH.

Mr. and Mrs. I. W. Herman and Two Children Back to Alliance

After spending the winter quite pleasantly in Spokane, Washington, Mr. and Mrs. I. W. Herman and two children, boy and girl, returned to Alliance last week, arriving Saturday on 44 from the west. They left Alliance in December, going to Spokane where they rented rooms for the winter. The boy and girl attended school while Mr. and Mrs. Herman visited relatives and other friends and looked over the country and enjoyed the opportunity for rest and recreation.

Mr. Herman thinks Spokane a great city and eastern Washington a pleasant country. It is not much of a farming country there in his opinion, but there is quite an amount of fruit grown there, and lumbering and manufacturing give employment to many people. He and his family seemed delighted to get back to Alliance and greet their many friends in this city.

Some of the world's most respectable nations are now running amuck.

OLD HICKORY CHIPS

Every time a Dardanelles fort trembles the teeth of the wheat bulls chatter.

Unless the Germans recapture Przemysl we can't see why the town should ever be referred to again.

To be or not to be is the fashionable debate today. Can last spring's bonnet be worked over or not?

Anybody who has broken the cork-screw off in the cork without extracting the latter, will understand the feelings of the allied sailormen in the Dardanelles.

Whole Family Benefited By Wonderful Remedy

There are many little things to annoy us, under present conditions of life. The hurry, hard work, noise and strain all tell on us and tend to provoke nervousness and irritability. We are frequently so worn out we can neither eat, sleep nor work with any comfort. We are out of line with ourselves and others as well.

A good thing to do under such circumstances is to take something like

Dr. Miles' Anti-Pain Pills

to relieve the strain on the nerves. Mrs. J. B. Hartsfield, 82 Plum St., Atlanta Ga., writes:

"I have on several occasions been vastly relieved by the use of your medicine, especially the Anti-Pain Pills, which I keep constantly on hand for the use of myself, husband and two sons. Nothing in the world equals them as a headache remedy. Often I am enabled by the use of one or two of the Pills to continue my housework when otherwise I would be in bed. My husband joins me in my praise of the Anti-Pain Pills and Nerve."

Dr. Miles' Anti-Pain Pills

are relied upon to relieve pain, nervousness and irritability in thousands of households. Of proven merit after twenty years' use, you can have no reason for being longer without them.

At all Druggists, 25 doses 25 cents. MILES MEDICAL CO., Elkhart, Ind.

EYE DON'TS

Don't buy glasses as you would a new hat; they should be fitted by a graduate optometrist. Don't wear glasses intended for other people; they were probably fitted for troubles other than yours.
