SEIDELL'S SEMI-ANNUAL REPORT

Excellent Report for Last Six Months Made by Farm Demonstrator and Farm Association

PLENTY OF FUNDS FOR YEAR

The following is the semi-annual report of F. M. Seidell, county agricultural agent, U. S. Department of Agriculture, and of W. F. Patterson, treasurer of the Box Butte County Farmers' Association, from March 1 to September 1, 1915. This report was prepared for the regular semi-

A New Roof

must be put on the house or barn this spring. The old shingles cannot withstand the sun and storm another season.

If this job is not to be done over again for at least ten years you better use OUR

Shingles

They are good for that length of time, anyway, and perhaps longer. At a lower price we can sell you shingles not quite so good.

Lumber, too, for repairs about the place.

annual meeting of the directors of the Box Butte County Farmers' Association, and is published for the information of the members of the association, to the interest of the business men who are supporting this work, and to the others who may not know regarding the objects and progress of this work.

The following is a list of the co-operators in the crop demonstration work secured to date, and other lines of work already started:

Potato disease demonstration plots, 11
Potatoes, northern vs home grown 21
Corn, imported vs home grown 9
Oat smut demonstration fields 16
Feterita cooperators 33
Alfalfa, inoculated vs uninoculated 11
Sweet clover demonstration fields 7
Silo cooperators of Box Butte county 19
Sudan grass cooperators 6
Boys' and girls' club contestants 39
Farm records taken 27
Farmers started in keeping farm books 4
Business done thru Farmers' Exchange \$655
Newspaper articles prepared 30
Extension specialists cooperated with 6
Phone inquiries 103
Office visitors 534
Farms visited 365
Letters written 1725
Circular letters written 2645
Meetings held or addressed 35
Attendance at meetings 749
Miles traveled by auto 3550
Miles traveled by rail 40

A campaign against the potato diseases of Box Butte county, and a campaign for more silos was made. Boys' and girls' club work was established for the first time, this year. The Farm Record Survey work has been started and when complete will present something that will be exact and of great interest and material benefit to the successful farmer of Box Butte county. A county wide oat smut survey has been made, the results of which will be given from

NOTICE

of Executor's Sale of Real Estate IN THE DISTRICT COURT OF BUTLER COUNTY, NEBRASKA.

In the Matter of the Application of

Edwin S. Wunderlich, as sole executor of the Estate of Jacob C. Wunderlich, deceased, for license to sell real estate.

NOTICE is hereby given that under a license granted to me by the District Court of Butler County, Nebraska, on the 16th day of February, 1915, same being one of the days of the regular February, 1915, term of said court, I will, pursuant to said order, on the 9th day of October, 1915, at the West Front door of the Court House in Alliance, Box Butte county, Nebraska, at the hour of two o'clock in the afternoon of said day, sell at public sale, subject to existing encumbrances, to the highest bidder for cash, the following described Real Estate owned by said estate, to-wit:

The South East Quarter (¼) of Section Twenty One (21) Township Twenty Eight (28) North of Range Forty Seven (47) West of the 6th P. M. in Box Butte County, Nebraska; The North East Quarter (¼) of Section Twenty Eight (28) North of Range Forty Seven (47) West of the 6th P. M. in Box Butte County, Nebraska.

The North West Quarter (¼) of Section Three (3), Township Twenty Seven (27) North of Range Forty Seven (47), West of the 6th P. M. in Box Butte County, Nebraska. Notice is also given that said sale will be held open one hour, that is to say, from two o'clock in the afternoon to three o'clock in the afternoon of said day.

EDWIN S. WUNDERLICH, Executor of the Estate of Jacob C. Wunderlich, deceased.
41-41-644-6011

time to time. A junior agricultural observation tour was made for the boys of the county. A farmers' exchange has been established by the association. The association has given support to different things, tending to make Box Butte county a better place to live, and wishes to acknowledge the support and cooperation it has received from farmer co-operators and business men who have shown an interest in the work. A week of farmers' institutes is to be held thruout the county, the week of October 25 to 30. A live stock and forage campaign is also planned for the fall. The results of demonstrations are to be secured and distributed to the farmers along with many other things of interest and value.

Crop demonstration requires the greater part of the time in this year's work. Especial emphasis has been placed in potato demonstrations. In this work a comparison is being made of dry rot infected, and clean seed, treated and untreated potatoes, whole and cut, and northern and home grown seed potatoes on the bushel per acre basis. A high yielding northern variety of corn is being compared to the native corn on the basis of forage and yield of grain per acre. The success of Feterita and Sudan as producers of forage in other places has caused a great deal of interest among Box Butte farmers, and warranted a trial of the same under our conditions. One important part of forage crop demonstrations are the comparison of inoculated and uninoculated alfalfa, and the determination of the adaptability and value of sweet clover as a pasture and hay crop. Most silo owners are co-operating in determining the value of the silo under our conditions. In oat smut demonstrations a part was treated for smut and a part left untreated to compare as to yield per acre and percentage of smut. Members have been secured in the boys' and girls' club work in the potato, pig, garden, sewing and cooking clubs.

W. F. Patterson's semi-annual report made to August 27, 1915, shows that up to that date \$947 had been collected from the subscribers, with a cash expenditure of \$885.16. This left a balance of cash on hand amounting to \$61.84.

Total subscriptions \$1,850
Expenses to Extension workers, salaries, typewriter, telephone, and other office equipment, automobile, etc., to Sept. 1, 1915 \$922.11
Funds to cover the work for the remainder of the year, including the Ford company's refund, is \$977.89

An investment in a lot in FAIRVIEW Addition beats government bonds all to pieces; it beats railroad stock; is better than bank stock, for, no matter what happens, you can't keep Alliance down. Alliance will always be THE City of Western Nebraska. Its growth is steady, yet fast; its enterprise is unchallenged—the more it broadens out, the higher the price of lots in FAIRVIEW Addition becomes, because, it is the most desirable and "choicy" location in the entire city, besides having the advantage of being so closely adjacent to the business section—Any Banker in the city; any business man who is worthy of the name, will tell you, we are sure, that a lot in FAIRVIEW Addition is as good an investment as you can possibly find—just ask them and see.

"SEED CORN WEEK."

The Last Week in September or the First Week in October Should Be Set Aside as Seed Corn Week in the Corn Belt.

We have "Arbor Day." Would it not also be well to have a "Seed Corn Day?" A day when everyone should begin the harvesting and storing of his seed for the following spring. We laugh at our grandfathers for planting their potatoes and sowing their grain "in the moon," that is, in certain phases of the moon. The value of this practice lay, not in the fact as supposed by many that the moon exercised any influence on the crop, but in the having of a definite time and plan for the doing of various things on the farm.

If the harvesting of seed corn, like the feeding of stock, came every day, it would be attended to on time, but it is nothing more nor less than human that the work which comes only occasionally or once a year, as in the case of the harvesting of seed corn should be put off or neglected altogether, unless there is a definite time and plan for the work.

1915 A BAD YEAR.

Indications point to trouble in the corn belt this year. 1915 is an abnormal year. Excessive moisture and cool weather has retarded the growth of corn, especially in the northern states. Corn will be late in maturing and there will be a tendency to gather seed corn late. Watch this. Don't wait too long. Don't wait till frost beats you to it. Frost bitten corn will not grow. Gather your seed corn before frost comes. Store it where it will dry out and not freeze or mold. Don't forget that next year's corn crop will depend on the seed you gather this fall.

Pick Your Seed Corn Early.

A sack with the mouth held open by a keg hoop and strung over the shoulders by a rope or strap is very convenient in gathering seed in the fall. The corn may be piled on the ground at the end of the rows or in the middle of the field and gathered up in a wagon or sled made for that purpose. Corn should not be left on the ground overnight or piled up in bins or cribs. In this condition it may mold or freeze.
