**New Lumber Shed**  
The foundation is being laid this week for a new lumber shed which will be built by the Forest lumber company on their yard, on the south side. The new shed will be 36x100 feet, and will be built according to the latest and best plans, making it very convenient of access and for getting lumber in and out in a hurry. It will be double-decked, with the roof extending far out over each side. Nine rows of concrete will be used for the foundation, extending from end to end. The business of the Forest has been steadily increasing for the past year until such an addition to the storage capacity was imperative. Manager Hellman says the work on the building will be commenced the latter part of this week or the first of next week. A six-foot fence will also be built entirely around the yard shortly.
