Dean Wm. C. Shaw arrived last week from Chicago and held services at St. Matthews Episcopal church last Sunday for the first time. Sunday's services were used for the greater part in "getting acquainted", and among other things Dean Shaw remarked that he did not want his audience to think that he was making a sacrifice in coming from a larger field to a smaller, but that he was glad to make the change when it was suggested by Bishop Beecher, and that he was gratified to get into the missionary field. Dean Shaw has a ready, interesting flow of language, and his talks Sunday greatly impressed his hearers with his sincerity.

S. K. Warrick, former Alliance banker, stopped over in Alliance last Friday enroute to his home at Scottsbluff. He had been attending the "dry" convention at Lincoln and feels very optimistic over the prospects for next election.

When Baby Has the Croup
When a mother is awakened from sound sleep to find her child who has gone to bed apparently in the best of health struggling for breath, she is naturally alarmed. Yet if she can keep her presence of mind and give Chamberlain's Cough Remedy every ten minutes until vomiting is produced, quick relief will follow and the child will drop to sleep to awaken in the morning as well as ever. This remedy has been in use for many years with uniform success. Obtainable everywhere.

LOST BOYS ARE FOUND

Two Young Chaps Make Trip by Cart to Casper, Wyo., Where Father of One of Them Is Working

Arthur Whetstone and Chester Dyer, both sixteen years of age, left home Tuesday, September 28, and caused relatives much worry by not announcing their destination or stating that they were leaving. The two boys drove a black mare and rode in a two-wheel cart. The boys left at 1 o'clock in the afternoon and nothing was heard from them until a telegram was received Tuesday stating that they had arrived at Casper.

The boys each had a shot gun and plenty of shells and took groceries with them, so that they did not suffer from hunger and evidently enjoyed their lark. They will probably return to Alliance and re-enter school here.

CALIFORNIA IN BAD SHAPE

Dr. F. M. Knight Says Financial Conditions Worst He Has Seen

Dr. F. M. Knight, president of the Alliance National Bank, who with W. E. Sollinger, of Alliance, Mont., and L. L. Wright, of Billings, Mont., made a trip to the exposition at San Francisco, and who lately returned, is better content than ever to live in western Nebraska.

Being in the banking business, Dr. Knight took more than ordinary notice of financial conditions in the several states he visited, and he said that in no place did he see more business depression and stagnation than in California during the short time he was there.

"People in western Nebraska," said Dr. Knight, "are far better off than those along the west coast. Land values have flattened in California until some of the best farms and city property can be bought for a half and in some cases one-third of their real value. The people there are waiting for a re-adjustment of conditions, which they know must come sooner or later, but in the meantime only those that have plenty of money can hold out against the odds." "On dozens of corners of the city blocks,"

Dr. Knight continued, "can be seen signs announcing bankrupt sales, and in many cases these sales are being conducted in what was thought to be the strongest mercantile institutions in the West."

Dr. Knight says the only advantage California has over western Nebraska at this time is the balmy, equitable climate, which is a poor asset when there is no employment and little money in circulation. He is now back at his accustomed place in the Alliance National Bank, and is glad to acknowledge that he lives on the best part of the globe.
