

MARKET WEEK OPENS STRONG

Events on Program for First Three Days Draw the Crowds—Barbecue Biggest Event ever Held

FARM POPULATION EXPECTED

This is Market Week in Alliance. The first three days have passed into history with the program well filled with interesting events. The last three days, Thursday, Friday and Saturday are promised the best and many visitors are expected from out of town.

Monday, October 25th:

The program for the week opened Monday afternoon with an exhibition by the fire department. A large platform had been erected at the intersection of Third and Box Butte on which were placed cots with mattresses and blankets. The teams were required to "go to bed" covered with the blanket, and head on the pillow. At the signal of the bell Driver Pilkington started the chemical truck engine, the men jumped from their beds, pulled on overalls and boots, jumped to the truck, which ran a block. The team making the quickest hose connection, attaching the nozzle to the hose and the hose to the hydrant, with water through the hose, won the money.

Team number A was composed of P. M. Thomas, Tobe Gastineau, F. L. Strickland and C. H. Rocky. Thomas lost eleven seconds getting his feet into the boots, and the time was 1 minute, 7 2-5 seconds.

Team number B was composed of George Ellis, Leo Nicholai, Clarence Schafer and Charles Schafer. This team had good luck and had the water streaming from the nozzle in 59 seconds. Team C was composed of H. R. Snyder, G. Keiser, T. P. Rolfsen and W. L. Myers. Rolfsen misjudged the size of his feet, which refused to slide into his boots in com-

pany with a pair of number forty-four overalls (some of the boys accused him of dreaming of a fair lady but he strenuously denies it) and he lost fifteen seconds in getting to the truck. This team made the run and connection in 1 minute, 8 1-5 seconds.

The program Monday evening included a free public dance at the opera house. A good crowd attended and enjoyed the music and dancing. The dance closed promptly at midnight.

Tuesday, October 26th:

The barbecue given Tuesday afternoon was pronounced by all to be the biggest event of its kind ever held in Alliance. The monster steer which was donated by Charlie Tully for the occasion was the finest of the land. Harry Mollring, manager for the day, started to work Monday afternoon preparing the feast. He was assisted by the Alliance Cafe chef, a bronzed barbecue expert, from Texas, and a corps of assistants. The roast was placed over the coals at 1 o'clock Monday night and by 2 o'clock Tuesday afternoon it was in fine shape. A guard was necessary during the long hours of the night and early morning to keep away the hungry newspapermen and other unfortunates who were attracted by the savory odors of the roasting beef.

At 2 o'clock the huge Keeler-Courtesy garage building was packed full of eager, expectant people. Manager Harry and assistants, who included George Darling, Frank Abbe, Dr. W. J. Mahaffy, Lloyd Thomas, and others, cut and buttered hundreds and hundreds of sandwiches. Ladies were allowed to line up first, and from 1 o'clock until after 6, with scarcely a minute of rest, the big feast was on. Delicious Diamond A butter, fresh from the Alliance Creamery, made the sandwiches still better. At 5 o'clock the Burlington shop men came in a body and were all served. It was estimated that 1,500 people were served during the afternoon.

The Alliance band gave a free con-

LIVE STOCK PRICES AT KANSAS CITY

Monday Was Largest Run of Cattle Ever Received at the Kansas City Stock Yards

FEEDERS STEADY TO 15 HIGHER

(By J. A. Rickart, Correspondent)

Kansas City Stock Yards, Oct. 25.—Killing cattle sold strong to 25 higher last week, most gain on choice beef steers, stockers and feeders ranged from steady to 15 higher, cows and bulls steady to 20 lower. Heavy shipments arrived today, 45,000 cattle on the early estimate, and the official count will be close to that number, the heaviest run ever received here for a single day's market. A large percentage of the supply is stockers and feeders, and these kinds are selling weak to 15 lower, although there is a big outlet for yearlings and two, and for good feeders. The small percentage of killing grades resulted in steady prices for the best, 10 to 15 lower on some of the steers, cows steady to 10 lower. No strictly prime cattle are included, and steers of first quality are quotable up to \$10.30, medium to good fed steers \$8.40 to \$9.50. Best Kansas grass steers bring \$8.75, although the Kansas offerings are gradually getting into the fed column, and will be quoted as such exclusively within a short time. A fair number of middle weight Kansas steers at \$7 to \$7.75. Quarantine receipts are 15 cars, steers at \$6 to \$6.75. Every possible grade of stock cattle is here, and the demand comes from every quarter, hence is equally as diversified. Kansas and Missouri are the big buyers, Oklahoma taking a heavy number, Illinois and Iowa in sections where they have corn, buying more heavily than heretofore. Prices on stockers range today from \$5.50 for common off color steers to \$8.30 for high bred Panhandle white face year-

ATTENTION, READERS:
Readers of this paper are urged to remember that there is more than one section and to look for each section when reading the paper. You will miss important news articles and advertisements if you do not read each section.

lings. The hog market shows returning strength, sales 5 to 10 higher today, the order buying features of the market being operative, hogs for shipment selling at \$7.30 to \$7.50. Packers did not exhibit any enthusiasm, though paying slightly stronger prices, largely \$7.10 to \$7.30. Receipts are 7000. Future prices will depend on volume of the supply, as packers will not be able to hold prices down without the support of continued liberal runs, although temporarily successful in their raid last week. Sheep and lambs closed last week slightly lower, largely due to lack of quality in the offerings. Today the supply is \$200, and prices are 10 to 15 higher, top lambs \$8.75. Strength underlies the market, because of the big falling off in receipts since the middle of the month. Scarcity insures a high market for a month or two ahead, in the opinion of dealers here. Yearlings sell at \$6.50 to \$7.25, fat ewes \$5.40 to \$6, feeding lambs \$7.90 to \$8.25, feeding yearlings \$6.65 to \$7, feeding ewes around \$5, breeding ewes \$5.50 to \$7.25.

New Telephone Line
Construction work was started this week on the new telephone line which runs from Alliance to Antioch, connecting with most of the ranches between. The company is known as the Antioch Telephone company, and has been organized for some time. The Alliance exchange will do the switching, the new line being connected here. Many new subscribers are pledged a little later, and the line is being built for permanency. There will be fourteen subscribers at the present time.

ALLIANCE HIGH BEAT CHADRON

Took the Opening Football Game of the Season at the Fair Grounds Last Friday Afternoon

SCORE THIRTEEN TO SEVEN

The Chadron football team was defeated by Alliance Friday afternoon at the fairgrounds by a score of 13 to 7, the game being literally won by two good forward passes.

Chadron played a series of line bucks throughout the game, and generally gained about three to five yards each time. The Alliance ends were almost invincible, and Chadron's end runs failed most of the time before they got started. Chadron crossed the Alliance goal on a fake pass during the first five minutes of the first period. They kicked goal, but could not pull off the same stunt during the remainder of the game.

The Chadron team outweighed the local boys several pounds to the man, and it looked before the game started that Alliance would be defeated by the almost overwhelming weight of their adversaries. Also the visitors were most all old players while this was the first game for Alliance. The spectators went "up in the air" when the Alliance boys held their heavy opponents down throughout the game, and during the latter part of the game they held Chadron for downs on the three-yard line and stopped their scoring on the straight line plunges, when the score would have been tied by a touchdown. The Alliance line proved equal to the task and held fast.

The boys have been practicing every evening for tomorrow's game with Sidney, and this promises to be even a better game than last Friday's. The local fans turned out in goodly numbers at the last game

and judging from the enthusiasm now shown, Friday's attendance will be as good or better.

Held Successful Sale

A. W. Tyler came over from Lakeside Wednesday in his Buick car to look after business matters and visit with friends. Mr. Tyler held a big sale of Holstein cattle at his place near Lakeside Saturday, and it was one of the best attended that has ever been held in this part of the country. Everything that was offered brought a good price.

Mr. Tyler recently took the sub-agency for the Buick machine at Lakeside, and reports the business as starting out well. He is a Buick enthusiast, and, like many others, thinks the Buick is about the best machine made. The Lakeside territory is under the supervision of F. R. Hartranft, of Crawford.

A Splendid Entertainment

The entertainment given by the pupils at the Central school was one of the best school programs that has ever been rendered here. There was a large crowd in attendance, bringing the proceeds up to a nice size. The receipts of this entertainment is to be used in paying for the playground equipment at the Central school. Each number on the program was cleverly handled.

WEATHER FORECAST
Issued by the U. S. Weather Bureau, Washington, D. C., for the week beginning Wednesday, October 27, 1915:
There will be rain Wednesday or Thursday in the Northwest, extending Thursday night and Friday into the central Plains states and the Upper Mississippi Valley, probably followed by fair weather Sunday. Temperatures will rise early in the week and should again fall Friday or Saturday, but no unusually low temperatures are expected.
