WHY MEN CHEW TOBACCO

It's the Only Way That Real Tobacco Hunger Can Be Entirely Satisfied

"OLD KENTUCKY" IDEAL CHEW.

Since tobacco was first introduced to civilization, nobody has ever discovered so supremely satisfactory a way to get all the flavor and enjoyment out of it as chewing it. And no other form of chew can give you the hearty, wholesome, juicy flavor that you get from a delicious high-grade plug tobacco like Old Kentucky.

The secret of the greatest chewing satisfaction lies in the selection of your chew. Among plug tobaccos the brand that gets the most enthusiastic endorsement is undoubtedly Old Kentucky. The reason for this is not hard to find.

Old Kentucky is made exclusively of ripe Kentucky Burley—the most richly flavored chewing tobacco that grows. Still more, only the very choicest of all the Burley leaf is used for Old Kentucky.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter and is pressed into plugs so slowly that not a drop of juice or an atom of flavor escapes. Moreover, Old Kentucky is made under the most rigid, cleanly and sanitary conditions.

The result is a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco than Old Kentucky.

Try a 10c pocket plug to-day.

QUEER QUIRKS OF NEWS

Chicago, Ill.—H. J. Callahan testified in court that dead cockroaches had been used as a meal ticket in various first-class restaurants during the last seven months. "I carry a supply with me," said Callahan. "When I finish eating, I would throw one on the plate, call the proprietor, look at him disgustedly and walk out, without settling the bill. I never failed."

Paris, France.—A young woman of Paris recently married a dead man. Since the war, marriage by proxy has become the custom. On November 17 the young woman was married by proxy to Sergeant Joseph Conduche. On December 1, she was informed officially that Sergeant Conduche had been killed at Souchez on September 28. The woman will get a widow's pension.

Portland, Ore.—Albert Hailien, 85, willed the disposition of \$250 and died. Only \$240 could be found, until it was discovered he had swallowed a ten dollar gold piece while delirious. The money was taken from his stomach and disposed of according to his will.

Kansas City, Mo.—Have scientists succeeded in prolonging the span of human life? Dr. C. G. A. Davis, who has been investigating, says that 25 states contain 672 persons over 90 years old. Of these 135 have reached or passed the century mark. One, Mrs. L. E. Killcrease of Pine Hills, Tex., is 138 years old. Her daughter is nearly 100 years old.

Toronto, Can.—A private who returned invalided from the French front underwent a novel operation which, it is believed, will prove successful. Part of his jaw had been shot away, and surgeons replaced the jaw bone with a portion of the man's own rib.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PERU NORMAL NOTES

Registration for the second semester began Friday. By Saturday evening all seniors had been registered. Some changes in the plan of registering have greatly facilitated matters. Printed programs have been placed in the hands of the students, and the registration of the different classes is being handled for the first time by permanent committees of the faculty. The remaining classes will be registered next Friday and Saturday. The second semester opens January 24.

A fifty-cent registration fee is required of each Normal student to be used for the support of a school nurse. Faculty members and high school students who wish to take advantage of this plan must pay the fifty cents at the beginning of the semester. The Shaw cottage has been secured by the state board for the hospital and occupancy of the nurse. A permanent committee has been appointed to have charge of the finances and management of the health hall. The committee consists of Miss Rose Clarke, chairman; Prof. Beck, secretary-treasurer; Dean Mattie Cook Ellis, and Miss Frances Tuthill, all from the faculty; Joshua Adee, of the post graduate class, and Miss Telva Dressler, of the senior class.

Miss Mattie Cook Ellis, dean of women and head of the department of history, spoke before the Fairbury Peru Club Saturday evening.

The second semester sees a number of changes of a permanent character in the program. The chapel hour which has heretofore, except during summer schools, been at 8:40, will hereafter come at 11:35. Each science subject is scheduled for a double period which is supposed to take care of both the class work and the laboratory work in that line.

Pres. Hayes has received word from Washington, D. C., that Peru may soon expect a visit from Harold W. Focht, national specialist in rural school practice. He will hold conferences with school board officials, county superintendents, and rural school teachers with a view to more efficient rural school administration in southeastern Nebraska. The date of his arrival will be announced later.

The Y. M. C. A. Gospel team from the Normal this year was composed of Louis Chard, of Brock; Harry Amende, of Syracuse; Roy Hull, of Murray; Harry Pitman, of Dunbar; Fred Jederman, of Bertrand; and Russell Darling, of Lyons. The boys held their meetings this year at Union, being there from December 29 to January 3. Their endeavor was to get among the young fellows of the town and influence them to higher ideals of living. They played basket ball, gave programs, and carried on meetings at which they each gave short talks on the Christian life and its appeal to men. The boys report a very fine time, and say that their entertainment at the hands of the Union people could not have been better. The people of the town expressed themselves as well pleased with the results of the meetings. It is such enterprises as this that make the Y. M. C. A. a living force.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Saved over a Mile a Day

The rearrangement of the barns and yards on one Nebraska farm has been able to save the operator 1.75 miles walk between the house and barn each day without increasing the labor of doing other work about the yards and without bringing the barn too close to the house. The Agricultural Engineering department of the College of Agriculture which suggested the rearrangements has made similar savings on other farms in Nebraska, plans of which are on file in the office of that department. A list of these plans, together with a brief description, may be obtained upon request.

Improving Vegetable Flavor

The flavor of canned vegetables will be considerably improved, the College of Agriculture says, if they are emptied from the container as soon as opened and let stand exposed to air an hour before cooking.
