Hand made from best material. Outlast any factory made goods. Call and see. Harness repairing by experienced harness maker. J. M. COVERT At M. D. Nichols' stand, Alliance

# RUMELY

Power Farming Machinery

### Right on Your Own Farm

The OilPull Tractor will cut the drudgery of farm

work and reduce farm costs, for the simple reason that the OilPull is a year 'round proposition. It saves money plowing, harvesting, threshing, hauling, drilling and at other power jobs.

15-30 and 30-60 Horsepower

The OilPull burns cheap kerosene or distillate at all loads, at any kind of work. It is throttle governed—there is no fuel waste, the power is steady and uniform.

The OilPull is oil-cooled—no danger of radiator freezing. It is easy to operate—any intelligent person can run it after a little instruction. The 15-30 has two speeds for road work.

### STATE EXPENSES FOR FIRST QUARTER, 1916

Quarterly Report of State Auditor William H. Smith Shows Expenses \$1,421,841.85

Lincoln, Nebr., April 25—State Auditor Wm. H. Smith has just issued his first quarterly report of state expenditures for the present year beginning with January 1. The report shows that the state expenses for the past three months amounted to \$1,421,841.85. This total includes \$454,411 of school apportionment made in January. Without this disbursement from the state treasury, which is only indirectly a part of state expenditures, this amount including bond interest, game and fish licenses, interest and leases on school lands and miscellaneous licenses, the expense of conducting the state's affairs, including the state university and other educational institutions, will be less by \$145,000 than the previous quarter, or a total of \$986,773, as against \$1,107,220 for the three months preceding. During the quarter just closed the university expended \$339,468.81; the four state normals, \$85,637.66; while the board of commissioners for the fifteen state institutions spent \$350,481.32, including \$33,122.07 for permanent improvements. The balance of \$221,196.79, which does not include the school apportionment, comprises all other state expense, both cash and general fund.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give one hundred dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c. F. J. Cheney & Co., Toledo, O. Adv.—April

### 15,275 POUNDS COFFEE IN THREE MONTHS FOR STATE

Lincoln, Nebr., April 22—The board of commissioners saved about \$1,000 on the coffee bill for the fifteen state institutions last week. Every three months the board buys something like 15,275 pounds of this article on competitive bids. Heretofore they have paid 25c per pound, and have divided the purchase among several bidders. However a bid was submitted at a price of 18 1/2 cents on a sample of coffee which the board considered, after giving it a thorough test, was as good as any they had paid 25 cents for in the past, and as a result one firm will get the entire allotment this time.

### DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Potato Improvement Campaign A five weeks' campaign to improve the potato industry in western Nebraska was launched April 17 in Box Butte, Dawes, Kimball and Sheridan counties under the direction of the county agricultural agents. Illustrated lectures, seed treating demonstrations for the control of diseases, and the establishment of potato improvement demonstration plots will be included in the campaign.

The six steps in potato improvement as outlined by the agents are: 1. Use pure, standard varieties for seed. 2. Select seed free from disease. 3. Treat seed potatoes to control and eradicate disease. 4. Use proper cultural methods: practice rotation. 5. Grade for market. 6. Store in disinfected cellars with proper ventilation and temperature.

### GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

### ATTEMPT TO ERADICATE DISEASE AMONG HORSES

Lincoln, Nebr., April 25—The Live Stock Sanitary Board is preparing to make another vigorous assault on the disease known as dourine among horses. The quarantine in the northwestern part of the state was lifted some time ago, and at that time it was thought that the disease had been practically eliminated, but there are indications that it is still prevalent to some extent in isolated parts of the state. A supreme effort will be made this summer to thoroughly eradicate it altogether.

### Registered Hereford Bulls

Three two years old; three yearlings. These are good bulls in good condition and priced very reasonable for immediate sale. Come and see them.

FRED E. THOMPSON One and one-half miles east of Tord, Nebraska. 19-4t-6856

### Boys' Potato School

Members of the state boys' potato club will be eligible to attend the boys' potato school which will be held annually in the northwestern part of the state, beginning next spring. The school will last four days. Instruction will be furnished by the College of Agriculture, and will include lectures, laboratory work, and inspection trips to potato fields and storage cellars. Only members who have successfully completed the season's work and made proper final report may attend. Several counties are offering free trips, including board and lodging for two or more boys who rank high in their county club. Membership in this club is open to any boy in the state between the ages of 10 and 18 who will raise not less than an eighth of an acre of potatoes of his own. Application for membership may be sent to the Potato Club, Agricultural College, Lincoln. No application will be accepted after May 1.

Safe Medicine for Children "Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, colds and croup. Obtainable everywhere. Adv.—April

Agricultural Engineering Building It is expected that the contract will soon be let for the new agricultural engineering building to be erected this year at the University Farm. The main wing will consist of two stories and a basement 76 by 180 feet, the rear wing, of one story, being 84 by 140 feet. Besides the regular class rooms and offices, the new building will contain carpentry and forge shops, drafting rooms, and laboratories for experimental and research work.

The basement will be fitted up for testing the draft of wagons, plows, and other machinery by actual use. The basement will also contain five wells 56 feet deep for testing farm pumping plants of any lift and height of tank. An autoobile laboratory and a steam engine testing plant will be other prominent features of the building. The equipment will be so arranged that tractors may be run on drums at full speed.

Spring Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere. Adv.—April

### Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

● If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, heaviness behind a certain amount of indigestible material, acid stomach or constipation, should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
