

TOO BUSY TO WRITE

Live Wires Representing a Live Market at Stockmen's Convention

An editorial in the Sioux City Live Stock Record of June 21, published during the time of the stockmen's convention at Alliance, said:

The fact that no news is being received as yet from the booster bunch at Alliance gives rise to a justifiable suspicion that they are too busy to write. And, if you have your betting clothes on, it won't be bad policy to buy a ticket reading that Alliance knows there's a stock yards at Sioux City.

Right you are, Mr. Editor. The delegation from the Sioux City live stock market made a fine impression

among the ranchmen and others whom they met while attending the convention in Alliance. The idea prevails that they were a bunch of good fellows, live wires all of them, and representing a live market for live stock.

Nebraska editors are planning on having a great time next month, for on August 7 they will leave Grand Island on a special train composed entirely of newspaper workers and for five days will see western Nebraska. The affair will be the annual meeting of the Nebraska Press Association, and the trip will be of pleasure and profit for those who make it. The train will be composed entirely

of pullmans and will be at the entire disposal of the editors. A line of extraordinary entertainment will be afforded by the towns to be visited, and the editors will carry their own uniformed band, glee club, minstrel troupe and other features.

Eclipse of the Moon

Many watched the eclipse of the moon Friday evening. The sky was clear and the eclipse could be plainly seen. It began about 9 o'clock, reached its maximum about 10:30, and was entirely over about midnight. Only a portion of the moon's face was obscured by the shadow. The warm summer evening brought

many people out on the streets to watch the eclipse.

So It Goes.

Many of our blessings pale when our neighbor gets an automobile.—
Kansas City Journal.

To Clean Hair Brushes.

To clean hair brushes take a cupful of cornmeal and fill the brush, rubbing gently with the hand. As it absorbs the grease and dirt shake it out and use fresh meal till the brush is cleaned thoroughly. This is better than ammonia, as there is no water to injure or loosen the back of the brush.
