## Round House Rumblings

Being a brief resume of the week's doings, jotted down by the hog-head while waiting in the Alliance round house for the O-2 to fire up, for the run to Seneca.

Fireman H. W. Berg is at present enjoying a brief respite from his duties, and is taking in the sights at Casper, Wyo. He will return about Wednesday of this week. Mr. Berg has been working on the high line for some time past, but will be out of Alliance when he goes back to work.

A. Barry, fireman, departed last Saturday for Lead, S. D., where he has taken a regular turn.

Engineer Jack Edwards laid off a few days last week. The presumption is that he was making garden.

C. J. Held, fireman, visited in Scottsbluff last week.

H. Timmell, road foreman, was gone most of last week, engaged in making a thorough detour of the west end of the division.

John Hitchcock, formerly employed as night caller at the round house, handed in his resignation Saturday. He had been transferred to machinist apprentice.

A. Schieb, boilermaker, was called to Denver the fore part of last week by a telegram announcing the serious illness of a relative. It is not at this time known just how long he will be away.

The Red Cross drive came to a triumphant close Saturday evening, and all concerned are very much enthused over the manner in which all employees responded to the call. J. G. Dole and J. B. Irwin were very active in the promotion of this worthy cause and their successful efforts are worthy of mention.

Round-house employees recently enjoyed cigars furnished by W. J. Connors, who was recently married and who is now absent on a honeymoon. His fellow workers are unanimous in offering congratulations, and wishing him unlimited happiness.

Commodore Black, who presides at the desk in the general foreman's office, is, we are told, a very necessary attribute to the Alliance base ball club. At any rate he has the reputation of being one of the main stays of the organization. He has participated in the games so far this season.

John Garris has been transferred from a boilermaker helper to fireman, and made his first trip the latter part of last week.

During the latter part of the past week a number of men have found it necessary to resign at the round house on account of belonging to Company G, which was called to leave Alliance Sunday night, June 24. Among those were Carl Anderson and John Phillips. Needless to say, the well wishes of many fellow workers accompany them.

C. O. Davenport returned last Friday from an extended trip over the eastern part of the division.

Fireman L. A. Smith was off last week, account of trouble with eyes caused by getting hot cinders in them. He reported for work again the fore part of the week.

W. H. Cooley and W. M. Holland are two new firemen that were added to the force last week. These men both register from Denver.

Master Mechanic J. G. Dole returned Saturday from a trip over the east end. He did considerable work in the interest of the Red Cross while gone.

A. M. Richmond, machinist helper, was called to Omaha last week by a telegram announcing the serious illness of a relative. He will return to Alliance as soon as possible.

John Lewis, electrician, received a message Saturday announcing the serious illness of a brother at St. Paul, Minn. He departed for that place at once.

Leon Alter, day caller at the round house, was off sick for a day or two

last week, and was temporarily replaced by Carl Sward.

R. Malek, carpenter foreman, returned the latter part of last week from Rochester, Minn., where he had been taking treatment from Mayo Brothers. He returns very much improved.

Engineer Johnnie McDonald has arrived here from Ravenna. He is now extra passenger engineer out of Alliance.

Fireman G. A. Ruth went back to work last week after a three months vacation. He is working on the Ellsworth turn-around.

Mrs. C. A. Hopkins departed Sunday for Hemingford, where she will spend a few days visiting friends and relatives.

F. E. Brown has been transferred to night clerk in General Foreman Irwin's office for the present at least. This move was occasioned by the resignation of one of the regular men.

Engineer W. A. Bennett is laying off at this time account of a tired feeling occasioned by too much of the late hard work.

Engineer Wolverton of the east local is off at this time owing to a sprain sustained to his left hip while at work one day the fore part of the week.

Mrs. J. G. Garland and little daughter arrived from Omaha the fore part of the week, and will make their home here in the future. Mr. Garland is employed as machinist in the round house.

H. Rennau, engineer on the east end, is laying off this week. He is being replaced by Engineer Johnnie Parsons.

"The Days of '49" which is one of the chief attractions of the carnival here this week, is the scene of merry rivalry on the part of some of our oldest and best engineers. Of course we wouldn't think of mentioning names but some of these same engineers always smile and

some of them never smile.

Mrs. J. E. Whaley and three daughters, Nina, Florence and Frances, are contemplating an extended trip which will take them to San Francisco and return. Mr. Whaley is employed as stationary fireman at the round house.

## LOCAL DELEGATES

### ATTEND CONVENTION

Alliance Sent Ten Delegates and Visitors to Convention of Alliance District of Epworth League

A delegation of ten from the First M. E. church of this city attended the convention of the Alliance district of Epworth Leagues held at Chadron, Wednesday, Thursday and Friday of last week. Alliance was represented at the convention by the following: Misses Marian Grebe, Ethel Graham, Mabel Ormsby, Wilma Mote, Ruth Nation, Hattie Renwald, Mrs. J. C. Thomas, J. C. Thomas, and Merritt Chaffee.

Twenty-two towns in the Alliance district were represented at the convention. Miss Mary Eatwell, first vice president of the district, presiding, the opening session having been held Wednesday evening. The address of welcome was made by Prof. S. L. Clements of Chadron. The response was made by Prof. I. H. Lander of Bayard.

Miss Marian Grebe of Alliance rendered a solo that was highly appreciated. The Chadron Journal in speaking of Miss Grebe's part in the program said: "Miss Marian Grebe then rendered a most beautiful solo, and at once won a place in the hearts of her hearers with her sweet voice. Here's hoping that we may hear more of it."

Friday morning the work of the convention started off with a 5-o'clock mountain-top prayer meeting, after which breakfast was prepared and served on the grounds. Rev. M. C. Smith, Crawford, delivered his lecture, "Rip Van Winkle," before the convention Thursday evening. "Man or Manikin" was a lecture delivered at the close of the convention Friday night by Rev. Baker of Scottsbluff.

Real Estate, Loans and Insurance. F. E. REDDISH, Reddish Block. 15-tf-6727

# JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and puri-

fying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

**Polarine MOTOR OILS**

**SMOOTH as SILK**

Perfectly lubricated, the motor spinning smoothly on

**Polarine**

THE STANDARD OIL FOR ALL MOTORS

eats up the miles without friction loss, carbonization or overheating. Every drop pure lubrication. Makes your car worth more.

Look for the Polarine sign—it means a reliable dealer who will give you what you ask for. Use Red Crown Gasoline, the power-full motor fuel.

## Live Stock Transit Insurance

Live stock men over the entire west are forming the habit of INSURING THEIR LIVE STOCK IN TRANSIT. They do it for safety, economy and quick returns.

### The Hartford Live Stock Transit Policy

protects shippers of live stock, and is the only company offering a broad policy easy to understand, clear in its terms, which gives absolute protection against loss from hazards of transportation—including suffocation, freezing, trampling, fire, collision, train wreck and every form of killing or injury while the animals are in the custody of the common carrier.

We are represented at all of the live stock markets in the United States and Canada, and locally by—
