"IF THE SHOE FITS YOU— THEN WEAR IT"

The Gossip Say—

—By—
ADAM LIAR

When God finished making the reptiles, toads, lizards and all the other vile and low animals he had some awful substance left—an awful substance too vile to be used by God in making life. So the devil secured it, and straightway the devil shaped the substance into a tongue and placed it into the mouth of a human with instructions to use it maliciously in spreading gossip. Since that time this awful specimen of humanity has been breeding regularly until at the present time every city, town and village has some of the offspring, Alliance along with the rest.

Yes, Alliance has the gossip. My attention has been called in particular to one gossip in the form of a woman who persists in using her tongue in the usual vile manner. My informant tells me that in a number of instances her tongue has "got her in bad." He also says that he has new evidence against her, and unless she immediately closes her trap and discontinues her attempt to spread malicious lies with an attempt at defaming character she can expect one of two things—either a criminal libel suit, or a suit for damages for malicious slander. In view of the fact that she is worth a considerable amount in real property, a damage suit might be carried out with considerable success.

Apollo is said to be the first gentleman who ever struck a lyre. If he had only hit him a little harder we might not have so many magnificent liars at the present time.

The gink that worked in front of the three-legged-girl show at the carnival here last week came into the office Saturday night and bought a paper. His real purpose was to find a scrap. He found it. He started out by yelling at the man who was in the office, "What ya wanta pick on a poor widow woman with a daughter born with three legs and two bodies, who is trying to make a livin' for herself and four other children? What ya wanta mix her up with a lotta hoochey dancers and brods for? Ya talk about unpaved Box Butte avenue—why 'ure dirtier and lower than the bugs in the street. The people all over town are laughing at you. You're a fool. I knowed a fellow in Wisconsin who ran a paper where he talked like you did and they followed him with slow music. If I was a home guard I'd come down here and beat the brains out of you." But he didn't beat any brains out or in. Somehow he seemed to be under the impression that the air was purer outside, and beat it.

Talk about buying papers. I guess every man and woman con-

nected with that carnival outfit bought a paper. Some bought four or six. Gosh, they about cleaned out the edition at five cents each. Wonder if they'll have it framed or use it instead of tissue paper? One of them said he wasn't buying the paper to read, he was buying it—well, it was an old one he pulled there.

Monday morning I was crossing unpaved Box Butte avenue and happened to look down. I thought I had discovered where someone had been drilling for oil. Have you noticed those nice big holes all along the street where the five-foot ten-poles were driven? And tacks—Harry DuBuque picked up fifteen, and a dozen others got their share. Automobile owners are still donating to the garage men for new inner tubes as a result.

A local doctor says that he had an exceedingly long patient who said to him: "I say, doctor, are you going to put that plaster on my feet to draw the pain from my head?" "Yes, why?" replied the doctor. "Well," observed the long patient, "I'd rather have it where it is than drawn down through six feet and one inch of new territory."

Two women were talking at the postoffice. I heard one of them say, "Wouldn't you like to know if you are the first one that—ever loved?" To which the other replied, "No, I'd rather be certain that I'm the last one."

It happened at a local boarding house this week. One of the gentleman boarders suggested to the landlady that he wished she wouldn't make such affectionate pies. The landlady couldn't "get" him, and said, "Affectionate pies! Pray, what kind's that?" "Why this berry pie's so thin that the crusts are actually stuck on each other," he replied.

I'm still in the market for ideas. If you have a good one, shoot it along. It will be taken care of, you may be sure.

LIVE STOCK PRICES AT SOUTH OMAHA

Fat Cattle Slow --- Weak to 10c-15c; Lower

HOGS SELL A DIME HIGHER

Very Limited Receipts of Sheep and Lambs and a Slow, Uneven Market. Lamb Prices Show a Somewhat Lower Tendency, While Aged Sheep Are Quotably Steady.

Union Stock Yards, South Omaha, July 3, 1917.—Cattle receipts were fairly liberal for the opening day of the week, about 5,300 head, and nearly a third of these were Pacific coast grassers. The market was slow, weak to 10c-15c lower than the close of last week, best heavy heaves bringing \$13.10 and best of the yearlings \$12.85. Grass cattle were dull and decidedly lower and so were cows and heifers. Business in stock cattle and feeding steers was light and the trend of values down.

Quotations on cattle—Good to choice heaves, \$12.25-13.25; fair to good heaves, \$11.50-12.25; common to fair heaves, \$9.75-11.50; good to choice yearlings, \$12.00-13.00; fair to good yearlings, \$11.00-11.75; common to fair yearlings, \$9.50-10.75; good to choice heifers, \$10.00-11.00; good to choice cows, \$8.50-9.50; fair to good cows, \$7.50-8.50; canners and cutters, \$5.00-7.50; veal calves, \$10.00-13.50; beef bulls, \$8.50-10.00; hologna bulls, \$5.50-8.00; good to choice feeders, \$8.75-9.50; fair to good feeders, \$7.75-8.50; good to choice stockers, \$8.50-9.50; fair to good stockers, \$7.50-8.50; common to fair grades, \$6.75-7.50; stock heifers, \$8.00-9.50; stock cows, \$7.00-9.00; stock calves, \$7.50-9.50.

A 10c Advance On Hogs.
The run of hogs was comparatively light, about 4,900 head, and with a vigorous demand from both packers and shippers the market was active and fully a dime higher than Saturday. Tops brought \$15.25 and the bulk of the trading was around \$14.80-15.10. On the previous Monday the top was \$15.00 and the bulk of the trading around \$14.80-15.30.

Lower Market for Lambs.
Although supplies of sheep and lambs were light for the opening day of the week, about 2,000 head, the packers were apparently not anxious for them and the trend of values was lower. Best native lambs sold at \$17.00-17.10. Aged sheep were scarce and generally steady.

Quotations on sheep and lambs: Lambs, shorn, heavy, \$13.25-14.00; lambs, shorn, heavy, \$12.50-13.50; spring lambs, \$15.50-17.10; spring lambs, culls, \$12.00-15.00; lambs, feed, \$11.00-15.25; yearlings, shorn, \$11.00-12.00; weathers, shorn, \$10.00-10.75; ewes, shorn, \$8.50-9.50; ewes, culls, shorn, \$6.50-7.50.

Heroism Extraordinary.
"It's a brave man who always takes his wife's advice," says the Albany Knickerbocker Press, but for downright desperate heroism give us the man who refuses to follow it.

NEW WOMAN COUNTY AGENT
Madison county is to have a woman county agent, the second in Nebraska. A County Homemakers' Association with a membership of more than 200 country women has been formed to assume local direction of the county agent's work. The enterprise is a co-operative arrangement between the United States de-

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

partment of agriculture, the Agricultural Extension Service of the University of Nebraska, and the Homemakers' Association. Funds for the support of the work are provided by the government and the local association. Miss Louise Meredith, of the home economics extension service of the university, has been appointed county agent. She began work July 1.

ROGUEING OUT OATS AND WHEAT

Where barley is present in oats, it may prove practical to "rogue out" barley plants from a few acres of the field so as to secure a barley-free plot as a source of seed next year. However, if there is too much barley in the field, it may be desirable to purchase barley-free seed, as the cost of removing the barley plants will be too great. Rye should also be removed from a few acres of wheat in the same way, as it has been found that the market discriminates against wheat that contains more than 1/2 per cent of rye. Recently, when samples of mixed grains were submitted to Minneapolis millers, wheat containing 1 per cent of rye was discounted 1 to 5 cents a bushel. Millers usually refuse to buy wheat that contains more than 1 per cent of rye.

Mr. Business Man, on your next trip take along some artistically printed business cards. The expense is light and they are business getters. The Herald's job printing department will turn them out promptly. Phone 340 and we will call.

PRODUCE A THANKS-GIVING CHICKEN

There is still time to produce a four-pound roaster for Thanksgiving, according to poultry husbandry specialists at the Nebraska University Farm, who are urging increased production of poultry to meet the world's demand for meat. Should every farmer of the state (there are 130,000 farmers in Nebraska, who produce 90 per cent of the poultry output for Nebraska) set one more hen with 15 eggs, hatch 10 healthy chicks, and raise 8 of them, the aggregate production would be more than a million chickens weighing four million pounds, or nearly one four-pound chicken for every man, woman and child in Nebraska.

Calling cards for the ladies are printed promptly and neatly at The Herald office. The prices are reasonable. Phone 340 for samples and prices, or call at the office.

The Bell Telephone Policy

We endeavor to conduct our dealings with the public, our employees and our investors along the lines of this policy:

1. To furnish courteous, efficient, and dependable telephone service.
2. To tell the public the truth about our business.
3. To be conservative and economical in the management of our affairs.
4. To pay our employees good wages.
5. To earn for our security holders a reasonable return on their investment.

We believe that such success as we have had is because our business has been conducted along these lines.
