LEGAL NOTICE
IN BOX BUTTE COUNTY COURT, NEBRASKA.
IN THE MATTER OF THE ESTATE OF EMOGENE E. WILSON, DECEASED.

To all persons interested in said estate, both creditors and heirs:
Take notice: That on the 12th day of June, A. D. 1917, Eva F. Vandewalker filed her petition in writing with said county court praying a determination of the time of death of said deceased; names of her heirs, degree of kinship and right of succession to her real estate.
That said Emogene F. Wilson died April 16, 1908, and at the time of her death was a resident of Box Butte County, Nebraska, and was seized of the following described real estate, to-wit: An undivided one-half interest in the northwest quarter of Section Twenty-one (21), Township Twenty-seven (27), north range forty-seven (47) west of the 6th Principal Meridian, in Nebraska, and that said Eva F. Vandewalker is the sole owner of said real estate, and said petition will be heard at the County Court room in said county on the 24th day of July, A. D. 1917, at 1 o'clock p. m.

IT IS FURTHER ORDERED that notice of said hearing be given to all persons interested in said estate by publication of this order in the Alliance Herald, of Alliance, Nebraska, for three successive weeks prior thereto.
Dated this 12th day of June, A. D. 1917.
IRA E. TASH,
County Judge.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.
Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of Limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Nebraska State Volunteer Firemen's Association

President—Harry J. Hauser, Fremont.
First Vice President—John W. Guthrie, Alliance.
Second Vice President—Wm. P. McCune, Norfolk.

Edited by Lloyd C. Thomas, State Publicity Chairman.
CONTRIBUTIONS TO THIS DEPARTMENT ARE ALWAYS WELCOMED
Address envelope to: State Publicity Chairman Firemen's Ass'n, The Alliance Herald, Alliance, Nebraska

CONSERVATION ASSOCIATION OF NEBRASKA

The Conservation Association of Nebraska was formed at a meeting held at Lincoln June 27, attended by the Lieutenant Governor, the Insurance Commissioner, the State Fire Marshal, and representatives of the State Council of Defense and the leading commercial organizations. Its purpose is to protect the food supplies of the state against the hazards of fire and explosion, which have been greatly increased by war conditions, in harmony with the proclamation of President Wilson and the recommendations of the Council of National Defense.

The fire insurance companies, which have a large staff of expert inspectors and field men trained in the investigation of such hazards, have freely offered their services for any duty which will assist the state and national governments, and these have been officially accepted. They will district the state and inspect all grain elevators, flour mills, packing plants and other places where food supplies are accumulated. They are working with official authority, and will urge all property owners, as a patriotic duty, to make the changes recommended and to remove the preventable hazards discovered. Their reports are made to the State Fire Marshal, who will follow them up and see that the improvements are made.

The Executive Committee of the Conservation Association of Nebraska is made up as follows: W. C. Lyle, Chairman; E. S. Freeman, Charles R. McCotter, John J. Zimmer, W. S. Harding, Charles U. Hendrickson, C. G. Robertson and W. H. Ahmanson.

President Wilson, in his recent appeal to the public, said: "This is the time for America to correct her unpardonable fault of wastefulness and extravagance." The preventable fire waste of the country is one of its most "unpardonable faults." Two hundred million dollars have been going up in smoke each year, and most of this loss could easily have been prevented by the exercises of reasonable precautions. Much of the property destroyed was grain, foodstuffs and supplies of which the country and its allies are now in serious need. The citizens who cannot go to the front can show his patriotism by doing everything possible to reduce the fire waste, and thus conserve the national resources.

FIRE WASTE AND FOOD SHORTAGE

Fire prevention work is an important factor in the campaign for the conservation of the food supplies of the country. Reduction of the preventable fire waste should be regarded by every citizen as a patriotic duty. The editor of the Nashville Tennessean and American, discussing this, said:

All of us, when we consider fires, fall into the worst of fallacies. It is the common practice with newspapers, when reporting fires, to say, for instance, "The loss was \$1,000, fully covered by insurance." Now, no fire loss can be fully, or even partially, covered by insurance. Loss by fire is complete loss, and the fact that the owner of the property gets from some insurance company a sum of money equal to the value of the destroyed property does not change it. The only difference between an insured loss and an uninsured loss is that in the one case the loss is distributed among all the people or a great number of people, while in the other case the loss is borne wholly by one man or by a little group of men. The economic loss is exactly the same, whether the property is insured or not.

Here, to illustrate, is a warehouse in which is stored enough flour to meet the bread needs of a thousand people for thirty days. The warehouse, with its contents, burns and the owner collects the value of it from the insurance companies. The money of all the policyholders went to reimburse this one policyholder and the supply of flour has been reduced by a quantity that would have fed a thousand people for a month. That thousand people must draw upon the supplies of flour of others for its bread ration for that month. The price of flour to all consumers goes up and the general public pays the value of the fire loss in increased cost of bread. The man who owned the flour pays like all the others.

If the general public could be brought to look at fires in that light, there would unquestionably be fewer fires. A carelessness would be developed in the public that would give effect to the work of fire prevention agencies.

The public may be brought, of necessity, to that view in a short while. It were well that the public bring itself voluntarily to that view a little in advance of being forced to it.

For the first time in its history, the United States faces a food shortage that approaches famine. Every sack of flour, every bushel of wheat, every barrel of corn, every dozen of eggs, and every pound of butter that goes up in smoke is just that much taken, not from the surplus that can be spared, but from a meager supply, every ounce of which will be needed to prevent hunger, perhaps even to prevent starvation.

Looking squarely into the face of that situation, the United States can no longer afford to be the most destructive country in the world in regard to fires. Of that necessity, the United States will have to cut down its fire losses to the line of fires that really cannot be prevented. That would mean a sixty per cent reduction in fire waste in the United States, since it has been demonstrated that at least three out of five fires are preventable. And sixty per cent of the food, fabrics and lumber destroyed in the United States annually by fire would go a long way toward making good the shortage that exists in all those commodities.

IN ALLIANCE Twelve Years Ago

(Editor's Note—The following items are among those which appeared in the Alliance Herald of the issue of Thursday, July 13, 1905—twelve years ago.)

Potato Growers Will Organize
At a meeting of potato producers held at the West school house, north of Alliance last Saturday a temporary organization was perfected by electing Albert Hadley president and John Lawrence secretary. The purpose of the association is to look to the protection of their interests and all growers are invited to join same. A committee of two—A. Hadley and Wm. Matzat—was appointed to confer with the farmers near Hemingford next Saturday and a general meeting is called to take place in Alliance July 22.

Broncho Lake Resort
Mayor Buechsensten and Wm. James and their families enjoyed the pleasure of a summer resort last evening at Broncho Lake, where they

Organize Daughters of Isabella
The regular meeting of the local court of the Knights of Columbus was held at their hall last night. After the meeting a social was held in which quite a number of the Catholic ladies participated. An interesting program of music and declamations was given and the subject of organizing a court of the Daughters of Isabella discussed. This matter has been considered for some time and since the meeting held last evening it looks as if Alliance would have the distinction of being the first city west of the Missouri river to institute such an organization. The daughters of Isabella is similar to that of the K. C.'s and is purely religious in character.

The Meter System
A movement is on foot to place the water system of this city on a meter basis. This matter has been under consideration for some time by the city authorities and will be brought up at a special or the next regular meeting of the city council. This new system will result in a decided saving to those paying for city water.

Local Paragraphs
Miss May McDermott will be married to Mr. Fred Ayers on July 18, in this city. They are among our most popular young people.

Mrs. J. J. Donohue, wife of Chief-of-police Donohue of Omaha, accompanied by her daughter, Miss Alice, arrived today on 41 to visit with Mrs. Donohue's sister Mrs. W. J. Conners.

F. E. Holsten and son paid Denver a visit this week.

A. T. Lunn and family visited at Crawford Sunday.

Railroad Notes
A Gregory operator will be returned to Alliance to work nights. He has been relieving O. W. Low at Newcastle for the past six weeks.

H. P. Toobe has entered the service as operator and will relieve W. D. McIntyre of Crawford.

J. R. Phelan and wife went to Chicago Sunday morning. Mr. Phelan was called there to attend a meeting

of the operating ones.
Conductor W. E. Zollinger left for Chicago and other points in Illinois to visit his children. He expects to be gone a couple of weeks.

Hemingford Correspondence
E. L. Everett has bought the lots which the Lincoln Land Co. owned in Hemingford, about 110 in all. This closes the holdings of the company in Hemingford.

Ole Hedgecock opened up his new barber shop in the Gilman building Saturday.

FROM COAST TO COAST

A Remarkable Chain of Home Testimony. And Alliance Adds Its Voice to the Grand Chorus of Local Praise

From north to south, from east to west; In every city, every community; In every state in the Union Rings out the grateful praise for Doan's Kidney Pills. 50,000 representative people in every walk of life

Publicly testify to quick relief and lasting results. And it's all for the benefit of fellow sufferers.

In this grand chorus of local praise Alliance is well represented. Well-known Alliance people Tell of personal experiences. Who can ask for better proof of merit?

Henry Merk, 501 Yellowstone Ave., Alliance, says: "I haven't needed a kidney medicine for a long time because I have none of the kidney trouble of which Doan's Kidney Pills rid me several years ago. They completely relieved me of backache and other ailments that came from my kidneys. I am glad to give Doan's my endorsement."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Merk had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. Adv—July 12
