Potatoes Dug and Sold 90 Days After Planting—Yield 125 Bushel to Acre—Sell at \$3.25 Cwt.

D. R. Baker and L. A. Hawkins have demonstrated in a most practical manner the opportunities for the newcomer in Box Butte county. These two men came to Alliance this spring. Mr. Baker from Red Cloud, Nebr., and Mr. Hawkins from Central City, Iowa. Mr. Hawkins purchased 40 acres south of the Burlington round house known as the Banhoff property and planted it to Red River Potatoes.

Twenty-four bushels of seed were planted on the four acres—six bushel to the acre. The planting was done on May 18 and 19. Just ninety days afterwards or on August 18 and 19 the spuds were being dug and sold, and Mr. Baker states they could have been dug a week before had they

known the potatoes were matured. The spuds average 125 bushels to the acre. They are being sold on the platform to be shipped to Antioch and Hoffman at \$3.25 per hundred pounds or \$1.95 a bushel.

On Saturday, Mr. Baker brought in some potatoes that were exceedingly large. One of them was weighed on the scales at the Tom Stalos store and weighed a pound and a quarter. Mr. Baker brought in a couple dandy looking spuds to the Herald office Monday morning. One weighed an even pound and the other a little better than a half pound. The spuds will average about half a pound each.

Mr. Baker says that the land would have stood about two more bushels of seed to the acre with a corresponding increase in the total yield. The four acres of potatoes will net the owners about \$975. The land sold this spring at about \$40 per acre.

**QUIT MEAT IF YOUR KIDNEYS ACT BADLY**

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, all of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
