

**ROUND HOUSE RUMBLINGS**

John Nolan, commonly known as "Johnnie" is working as engine dispatcher this week, while F. E. Brown the regular man is enjoying a vacation.

Engineers B. W. Beardon, J. O. Parsons, Wm. Mahoney and Frank Wilson spent the latter part of the week in the sand hills near Seneca, looking for grouse. If they reported the actual facts, they weren't the fortunate victims of very good luck. They say they only got six birds during the whole time. They all returned to work Sunday.

C. O. Davenport, road foreman spent the fore part of the week, in Seneca, and other points on the east end of the division.

Construction has been begun on a new office for the round house, and also a new engineers room, for use of engine men. The new building will be twenty five feet longer than the old one, and will contain besides modern commodities, a fine shower bath, equipped in such a way as to make the said engine men forget that he is now in his own home. He will probably think he is in some fine hotel. It is well to say however, that the engine men deserve all they will get.

The Purdy Brothers, boilermakers at the round house for the past few months, have resigned. It is not known what their plans are for the future but we venture to say that they can take care of themselves.

J. M. Schirk, who was temporarily transferred to Sheridan as a machinist, has returned to Alliance, and taken up his duties at that place again.

Friends of Mr. and Mrs. L. L. Strayson, who was formerly employed at Alliance but who was transferred to Seneca as a machinist, will be glad to hear of the arrival of a baby girl at their home in Seneca. All are reported as doing well and Shorty still wears his smile—it is larger than heretofore too.

H. H. Fink fireman on west end local laid off the fore part of this week to go to the sand hills for a little hunt. The funny part of it was, he never showed up at the sand hills at all. They are still looking for him down there.

J. L. Ward who has been employed as stationary fireman at the boiler room for the past few months has resigned his position.

Engine 2982 has arrived on the Alliance division from Havelock and was exchanged at Seneca for engine 2983—the latter engine being brought to Alliance for more repairs. Beary Beardon made the transfer assisted by fireman Wallace. The first engine mentioned, 2982, has been in the Havelock shops for some time and is undoubtedly in a condition to withstand the knocks occasioned by services in the Seneca yards.

Fireman E. L. McKinson who regularly works out of Alliance, has been working on the east end for the past two weeks.

J. A. Allen who has been storekeeper here for the past few years, has been transferred to another point on the division and H. O. Condit has been assigned to this position here. Mr. Allen made many friends here and their wish for him is all to the good. On the other hand they extend a welcoming hand to Mr. Condit and all hope that he makes good and likes his new position.

George Inman, who has been employed as machinist at the round house for the past few months, has resigned and gone back to his old home at Seneca.

We failed to mention last week that a new addition was being built on the storehouse. The new addition is amply large enough to give the store room for all needs for some time to come. This is a much needed improvement and meets with the hearty approval of all concerned.

Mrs. C. E. Wills and daughter Janice, are visiting their husband in Crawford.

Barney Egbers, who has been employed by the C. B. & Q. for the past 53 years has obtained a million dollars worth of transportation and has departed for his old home in Quincy, Illinois, and also for other points in the eastern parts of this United States.

**Communications**

Names of contributors will not be used in this column if not desired, but the name of the contributor must be known to the editors before an article will be printed.

Alliance, Nebr., Sept. 15, 1917.  
Lloyd C. Thomas,  
Editor Alliance Herald,  
Alliance, Nebraska.

My Dear Sir:—Upon the eve of my leaving to take up the study of law at Creighton University in Omaha, permit me to take this opportunity to extend to you and through your paper to the citizens of Alliance my sincere thanks and appreciation of the honors and courtesies that have been extended to me during my residence in this city.

While my stay from your midst will be but temporary it is with extreme regret and a sad heart that I am leaving. The citizens of Alliance have honored me many times, which I deeply appreciate, and while we may not all agree politically or upon certain municipal questions, we are all citizens of one great nation and all citizens of one great city, standing together with only one aim in view—"The advancement and betterment of all that is just and right."

Yours very truly,  
Penrose E. Romig.

# IT'S DRESS O'CLOCK

AT THE FAMOUS CLOTHING HOUSE

Again we emphasize the importance of selecting your new *Fall Clothes* from stocks of a *known reputation for quality*. With the scarcity of good woollens it is easy to "go wrong" unless you depend upon the reputation of the makers. The *Famous* has long been foremost in the line of Nationally advertised goods of known quality—such clothing as Hart Schaffner & Marx, such hats as Stetson and Borsalino, such shoes as Edwin Clapp and Walkover, such underwear as Munsing, Lewis, Wright & Cooper, such sox as Holeproof, such shirts as Manhattan and Cluett *are your protection*. And it is just so throughout the entire store. We have been constantly preparing for these critical times in the clothing industry and backed by the *United National Clothiers*—one of the largest buying organizations in the world—we are prepared to offer you this good merchandise reasonably priced. Besides the *quality* they contain the very latest *style* ideas wanted by up-to-date men.
