The TRACTOR PAYS ITS WAY
If the man who runs it gives it a chance by using an oil made specially for it.

STANOLIND
GAS ENGINE TRACTOR OIL

Recommended by leading engine builders and manufacturers, is best for the tractor because it is made for the tractor. Clean, carbon-free and stable at high temperatures. Lubricates both cylinders and external bearings. Cuts friction to a minimum. Use Stanolind—it means more power at the draw bar and less time out for repairs.

Order Your Winter's COAL Supply NOW!

It is the wise thing to do—
You'll say so this winter, too.

If we could make plain to you the situation, we know that you would put in your winter's coal supply now. We are not trying to scare you, but we are trying to tell you. The car shortage exists. It may look to you like everything is moving, but you'll appreciate what we tell you when winter comes and it may be next to impossible to get coal.

We've got coal to sell you today. We've got coal today to put into your bin. We can't promise more. It's good coal and it's a fair price. We urge you to get busy—think—act. It will prove to your advantage.

POTATO STORAGE

Severe losses from dry rot have done much in the past to discourage potato storage in Nebraska. These losses may be largely avoided if the following precautions are taken:

1. Carefully grade the crop and do not store diseased or bruised potatoes.
2. Treat these graded potatoes with formalin. This must be done within 24 hours after digging to be effective.
3. Maintain a temperature of 35 degrees to 40 degrees Fahrenheit, preferably nearer 35 degrees.
4. Arrange for thorough ventilation of the pit or cellar. It is important that no potato be more than 3 feet from air. Storing in deep piles leads to overheating and may seriously damage the tubers for seed purposes.

Further information may be obtained from the department of plant pathology and physiology at Lincoln.

Probably.

Sillies—Mrs. Dashaway is going to be married for the fourth time. I wonder why. Cynics—Probably for the pleasure it gives her of rocking the boat on the sea of matrimony.—Philadelphia Record.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Lives and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart, which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for a while, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

WILL NOT SEIZE FOODS.

In answer to a widely circulated statement that the Government intends to seize food supplies in the home, the Food Administration and the United States Department of Agriculture have issued an emphatic denial of any intention to commandeer foodstuffs in the family larder. One variation of this statement declares that the Government intends to take from each family all canned fruits and vegetables in excess of one hundred quarts. The authorities deny that such a measure was ever considered; and on the contrary, they have been urging housewives to can and dry fruits and vegetables of all kinds so as to provide a cheap and plentiful supply of food for each family.

You Need a Spring Laxative

Dr. King's New Life Pills will remove the accumulated wastes of winter from your intestines, the burden of the blood. Get that sluggish spring fever feeling out of your system, brighten your eye, clear your complexion. Get that vim and snap of good purified healthy blood. Dr. King's New Life Pills are a non-gripping laxative that aids nature's process, try them tonight. At all druggists, 25c. Adv—1

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

ALL AVAILABLE BOYS AND MEN ARE NEEDED

State Council of Defense Urges Immediate Canvass of All Labor Resources

The harvesting of Nebraska's gigantic corn crop is going to tax the labor resources of the state very heavily this year—so heavily that every available man and boy will be needed. This is pointed out in an appeal just issued by the State Council of Defense, through its vice-chairman, George Coupland.

Already large, Nebraska's normal corn acreage was increased more than two millions of acres when winter-killing of wheat necessitated the replanting of more than three millions of acres. A million acres were planted to oats, and the remainder went to swell the corn crop.

In the face of this added burden of cornhusking in a husking season that promises to be unusually short because of the late ripening of the corn, the draft is calling many farmers from the field to the trench. To harvest this crop, so valuable and so necessary for replenishing the world's larder, the State Council of Defense, in co-operation with the Federal and State Labor Bureaus, the State Agricultural College, county agricultural agents, school superintendents, United States Boys' Reserve, commercial clubs, and other organizations, is endeavoring to meet labor requirements.

County councils of defense are being urged by the State Council to make a canvass of the labor requirements and resources, so that wherever there is a scarcity or a surplus of labor an adjustment may be made that will benefit the entire state. At the same time, all available men and boys are being urged to enlist in the "cornhusker division" of "the army of the commissary."

The plan to enlist school boys in this work found a ready ally in W. H. Clemmons, state superintendent of public instruction, who recently issued a statement saying that boys will be excused from school work to help harvest corn.

In order to assist the many farmers, married and unmarried, who are being called to shoulder the gun despite the fact that they have large corn crops to harvest, the State Council of Defense upon the motion of Governor Neville is asking the county councils of defense to regard the care of the interests of these men as a special obligation to their communities.

FEEDING DAIRY COWS

"Feeding Dairy Cows" Extension Bulletin No. 46, has just been issued by the Extension Service of the College of Agriculture. It will be sent free upon request to the Bulletin Clerk, University Farm, Lincoln.

Your Grocer will deliver

Bevo
A BEVERAGE

You've enjoyed it at restaurants and other places—now you want your family and your guests to join you in the same pleasure. That's one of the joys of serving Bevo—to hear your guests say how good it is—then to listen to their arguments as to just what it is. If they haven't seen the bottle they'll all agree that it is something else—if they have seen the bottle each will have a different explanation for its goodness.

Bevo is nutritive—pure through pasteurization and sterilization—non-intoxicating, wholesome and thoroughly refreshing. Note—Bevo should be served cold.

Bevo—the all-year-'round soft drink

Get Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, steamships, and other places where refreshing beverages are sold. Guard against substitutes—have the bottle opened in front of you.

Bevo is sold in bottles only—and is bottled exclusively by

"Sudden pain from over-strain"

Every Housewife or
Mother is ever under
that Nervous Strain
which so often results
in Headaches, Dizzy
Sensations, Faintness,
Depression and other
Nervous Disorders.

Dr. Miles'
NERVINE

is Highly Recommended
in Such Cases.

IF FIRST BOTTLE FAILS TO
BENEFIT, YOUR MONEY WILL
BE REFUNDED.

BADLY RUN DOWN.
"I had become greatly run down and my nerves were in terrible condition. I had frequent headaches and became very weak and was unable to do anything. I bought a bottle of Dr. Miles' Nervine. I soon began to feel better, my nerves were quieted, I recovered my strength, and have since recommended Dr. Miles' Nervine to many of my friends who have used it with satisfactory results."
