

# The PERUNA Family

has three members you should know if you desire to enjoy life.

1. The popular liquid form of Peruna—the reliable tonic of the American household, with a long history of success in treating all catarrhal difficulties.
2. The tablet form, which is made after the same formula and is more convenient for many.
3. Manalin, the ideal laxative, by the regular use of which constipation may be overcome and natural action restored. Manalin has no habit forming drug, but is an aid to nature. Your druggist has all three. So many thousands have received benefit from the use of one or both these remedies that they are a recognized part of the equipment of every careful household.
