

Lloyd's Column

A man sidled into Si's shoe parlor the other day and wanted to buy a pair of No. 11 rubbers. Si was so astonished that he roared out: "You'll have to go over to the livery barn, we don't sell elephant shoes here." "Well," said the customer, "where can I get a pair?" "You'll have to go to a drug store, they handle all kinds of rubber goods."

Lloyd's Column
Miss Sheridan went down to the First National bank to cash her monthly check. As it happened Mr. Minor was in charge of the window. He took the check and turned to the stack of bills near the window. These were old and musty looking, and, Brad, knowing the young lady's aversion to germs, said: "Now, Miss Sheridan, I just hate to give you these old bills, as they may have microbes on them. If you will wait until tomorrow we can give you some brand new ones that are coming in." "Oh," said the young lady, "those old ones are all right; no microbes could live on my salary."

Lloyd's Column
The representative of the state farm at Lincoln distributed some advertising by the free air route last Wednesday, when some bills he was carrying caught by a gust of hot air emanating from around Fifth and Box Butte, were blown noisily through the crowd listening to the patriotic address near Brennan's corner. Everybody now knows how to make cottage cheese.

Lloyd's Column
The Big 'un: "What have you done to show your patriotism?"

The Little 'un: "What have I done? I bet I've sold more flags and patriotic buttons than anyone in this county."

Shoulders All Baking Cares

When CALUMET comes in, all baking troubles take quick leave. You go right ahead and mix up baking materials, for biscuits—cakes—anything without fear of uncertainty. Calumet makes you forget failure.

CALUMET BAKING POWDER

is the most popular because it does give most perfect results. It has the biggest demand because it is the most dependable. The fact that it is the biggest seller proves that it is the best. A trial will convince you that there is none just as good. Buy again—if you are not satisfied take it back and get your money back.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

You save when you buy it. You save when you use it.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Discovered Goldfields.

It was in the English town of Gosport on October 6, 1816, that Edmund Hammond Hargraves, the discoverer of the Australian goldfields, was born. He left England for Australia, and Australia for California. The scenery of the American goldfields was so similar to that of the Australian Blue mountains that Hargraves argued boldly, "Gold here, therefore, gold there." A commissionership and £10,000 was the reward of a generous government. Hargraves had really been anticipated by Smith, who about 1849, offered the government the secret, but it refused to buy in the dark.
