"GUARD DUTY"

DRAFTED MEN CLASS 1-A ACCEPTED BY EXAMINATION BOARD

This Means That **YOU** Are Going Sure

A photograph as a remembrance is unsurpassable. It will mean more to those you leave behind than anything you could offer. "She" wants a picture of you—wants it badly, but maybe she doesn't like to urge it. It's the least you can do. It's a little act of kindness and it's something you will never regret. There can be only one motive that can cause you to neglect it and that is selfishness. Do it at once. Today!

The Herald's Free Offer

Any man who is to enter the service of the United States, who either intends to enlist or believes he may be drafted may, by going to the Van Graven studio at Alliance; have a sitting made at no expense to himself and putting him under no obligations. The pictures will be turned over to The Alliance Herald to be published in The Herald in the event that he should distinguish himself in any way or should receive advancement from the government.

FIVE GOOD REASONS

WHY YOU SHOULD HAVE A PHOTOGRAPH MADE AT ONCE

THE UNCERTAINTY

1. You are subject to call any minute; it may be this week and it may not be until next month. To delay may mean that you may be forced to leave without leaving behind the most cherished remembrance—Your Photograph.

THE EXPENSE

2. The expense of a photograph is trifling; in fact its range is so wide that it will suit any pocketbook. Read The Herald's free offer in this ad.

THE APPROPRIATENESS

3. There cannot and never will be a time like the present for you to have that picture taken. You know that you are going "Somewhere in France," and you each one know that you will return; but when? It may be a year or sooner and it may not be for several years. Your photograph will act as an inspiration to those at home. How often will the wife, the sweetheart and the mother look at it, study it, and ponder over it. If they can't have you with them the next best thing they will want is your photograph.

THE OBLIGATION

4. You owe allegiance to two things: your home and your country. You are now forced to neglect one for the other. It is as much your duty to leave "Her" as happy and contented as possible as it is to fight. Your picture will "Do its bit."

THE QUALITY

5. Last and most important comes the question as to where to have the picture taken. (Read The Herald's free offer). You may be able to send home snapshots of yourself after you have left but they will never take the place of the photograph "she" will have framed and keep prominently displayed while you are gone and after you come back.

You will both be sorely disappointed with the quality of the photo if you wait and pay the exorbitant price a camp photographer will charge. Quotations from National Photographic Journals show the work that is done by these camp photographers is of the poorest quality, the likeness sometimes being hardly recognizable, and they strongly urge the boys to patronize a legitimate photographer before it is too late.

Alliance, Nebr., July 10, 1918.
To the Editor of The Herald:
It has been my pleasure to be in your growing city for two days and to see something of Box Butte county. In the five years since I have last seen your framing and general building development there has been a marked improvement. I do not wonder at the increase in your land values and the renewed demand for both farming and grazing acreage. It seems to me that you people do not appreciate your good land for what it is worth. No better land in western Nebraska on certain Union Pacific points is selling for nearly double the price you are asking.
Import more farmers, stick the plow into this black ground, and break into these vast stretches of grazing somewhat. I recognize that grazing is a vital industry, but more of this fine tillable ground should be redeemed and made to blossom as the rose. No better corn can be found for sore eyes. You have the wheat and oats and alfalfa and flax. Advertise your county. There are a million of people in Nebraska alone that do not know about this county.
