FORMING A NEW ARMY DIVISION AT CAMP DODGE

**BOX BUTTE COUNTY BOYS WILL
BE MEMBERS OF NEW DI-
VISION FOR TRAINING.**

THROUGH WITH QUARANTINE

**Boys Occupied Tents Until Required
Time Passed for Quarantine for
Contagious Diseases.**

(By J. W. Jarrigan, Herald Correspondent.)

Camp Dodge, Iowa, August 28.—With the leaving of the Three hundred fifty-first and Three hundred fifty-second infantry regiments commanded by Col. C. S. Crosby and C. E. Hawkins, respectively, the Three hundred forty-ninth, the Three hundred fiftieth, Three hundred fifty-first and Three hundred fifty-second ambulance companies and field hospitals of the same designation, all division organizations south of Depot street and to a considerable extent north of this road, have left the cantonment. Besides the infantry regiments named, the Three hundred thirteenth field signal battalion, the military police, two sanitary squads and the ammunition train have left camp. This means that the entire 88th division of the national army, consisting of 27,000 men have departed for overseas service. In place of these men thousands of new recruits have taken their places at the big camp. The 163rd depot brigade is composed of 76 companies and this is to be the nucleus of the new division now forming. Other units have been left behind and a couple of regiments of regulars are to be sent here to participate in the reconstruction. The men from Montana, Nebraska, South Dakota and various other sections who have been sheltered in tents have served the quarantine restrictions and are now occupying the barracks and the tents are to be used for quarantine quarters for the new men arriving daily. We are not allowed to give the number of men now in camp but it registers well up to the capacity of the cantonment. The One hundred sixty-third depot brigade to which all new men have been assigned and those units for overseas service relegated, is slowly spreading out into the vacated territory. Officers at the camp express the opinion that there is every reason to believe there will be a speeding up in the training of soldiers in this new division which will make possible its being turned out fit for overseas work in four to six months' time. In the first place the camp is now complete in its facilities for training men. There are officers of experience on hand to facilitate the work. It is understood that the practice of taking men away from this camp to fill other divisions elsewhere will be discontinued which will greatly facilitate the completion of their training at Camp Dodge. The organization plan of the army has been thoroughly worked out so there will be no delay on that account and the past experiences all help to make possible rapid training. The plan of organization, which includes dozens of units, which until a year ago were practically unheard of in American military affairs, has been thoroughly worked out. Questions which puzzled officers eleven months ago have been ruled upon by the department and no time will be lost in the transmission of communications.

Red Cross Building Completed.
The big Red Cross building erected in the form of a cross, painted white with an electric cross blazing at night in the cupola, has been thrown open to the friends and relatives of the men in the big base hospital. This hospital covers 65 acres of ground and each ward is connected with the others by means of corridors. A covered passage way leads from the hospital proper to this Red Cross building. Here the convalescents may meet their folks and if father or mother desires to remain overnight to be near their afflicted boy beds are provided for such emergencies. It is a large, roomy structure and will serve a most excellent purpose. There are hundreds of men in the hospital. Many of these are being built up and made ready for some kind of service. There are 250 Red Cross nurses on duty and the best medical talent in the United States is available. Miss Grace Redman, who has been dietitian at the hospital ever since it was established, has been ordered to France. She is an expert in her work. She prescribes just what the food shall be and how much after the ailment of the patient has been submitted to her. She is an Iowa girl, the late W. H. Redman, was at one time speaker of the Iowa house of representatives.

All But One Band Gone.
All of the work of organizing bands, musical organizations, athletic units and the various and sundry entertaining features must be gone over again. Only one of the big bands remains and that is the one belonging to the Depot brigade. All of the others, eight in number, and

all of the drum corps, are headed for France. New bands are being organized and numerous drum and life artists are being sought. The negroes, of which there are several thousand, are organizing two big bands. Other amusement features are under way. The Montana soldiers have already featured a wild west exhibition and there will be all kinds of stunts because of the diversity and abundance of talent.

The War Department Is Strong on Athletics.

Athletic material sufficient to supply 1,750 companies, or 125 complete regiments, has been purchased by the war department commission on training camp activities, an appropriation of \$250,000 having been obtained for this purpose. The supplies, for which the war department thru the commission invited bids, included the following items: 17,500 sets of boxing gloves, 7,000 baseball bats, 21,100 baseballs, 3,500 playground baseball bats, 10,500 playground balls, 3,000 Rugby footballs, 7,000 soccer footballs, 3,500 volley balls, and 1,750 medicine balls. Allotment of the material to the various training camps is being made, and much of the equipment has already been distributed. As part of the commission's campaign to raise funds for the purchase of athletic equipment for the camps, it is announced that with the sum of \$3,600 obtained from the American Lawn Tennis association, the commission has purchased and distributed 1,050 tennis rackets, 220 nets, and 2,700 balls. Arrangements have been made with a national baseball organization, composed of business men who have interested themselves in baseball as a sport rather than a money making proposition, to put on a limited number of outside games in the various large cities of the country, in which camp teams will be matched against civilian amateur or semi-professional clubs. All proceeds from the games will be turned over to the commission's athletic fund.

Hostess House an Important Adjunct.

The women of the country did a most generous and worthy act when they raised a fund for the erection of the large hostess house at Camp Dodge. I have been studying the work done there and it is wonderful to note the large place this house fills. In the three months the hostess house at Camp Dodge has served thru its cafeteria 41,071 meals. This means that many a family had a reunion with their soldier, and a family meal together. The few emergency guest rooms, which are held at the disposal of the base hospital have taken care of 985 women all away from their homes for the one purpose: to see the man who was sick. On request of chaplains, wedding ceremonies have taken place in the hostess house. It is just as probable that while one member of the staff is preparing for a wedding, another is seeing a mother thru the arrangements necessary after her boy has died. It is easy to locate a soldier for his folks when they come—they simply ask at the information desk and the secretaries there "do the rest." Camp headquarters are always eager to co-operate.

The tired woman, after a long journey, goes to the quiet rest room, where she may sleep pending the arrival of her soldier at the house; the sick one may use the emergency sick room, which has been equipped completely by the M. F. club of women in Quincy, Illinois. Little babies are put into the blue and white nursery, with its cribs and playthings, which room has been equipped by the Delphians of Des Moines. Besides all this, is the homiest kind of a big lobby, with writing desks and stationery available.

Base Hospital Patients Entertained.
All records for entertaining were broken last week at the base hospital at Camp Dodge. Entertainments were given in forty-four wards, with 1,380 invalids attending. The Elks' male quartet visited twenty-two wards, the girls' quartet eight wards, the "Y" base hospital quartet eight wards and the Mrs. Jarvis company six wards.

Form Classes at Fort.

Classes in mechanics, agriculture and academic subjects which are a part of the reconstruction program for patients at the U. S. army hospital at Fort Des Moines, are progressing rapidly under the direction of Lieut. W. B. Mooney and assistants. The survey of patients conducted by the educational department is nearly completed and men have been enrolled in classes and work begun. Many of the classes are only temporarily housed, until the more permanent quarters can be secured. A large corner in one of the buildings has been fitted up for classes in electrical engineering, where everything from fuse plugs to dynamos will be studied. This will include telegraphy and the construction and repair of telephone lines. In the rear of building 72 is the wood-working shop. The class is learning how to use tools and in fitting up the shop. It is the intention to do practical work in this class, as well as in all subjects, and much of the furniture of the hospital repaired. Wounded men from France are arriving almost every day. The nature of their injuries governs their choice of occupational pursuits.

Dodge.

Wetproof Steel Lined Shot Shells

MAKE your showery hunting days this Fall the good days for ducks they really ought to be, with the right shotshells—Remington UMC Smokeless "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells." No matter how much water may get to them, they will actually stay just as dry and serviceable as your Remington UMC Pump Gun or Autoloading Shotgun.

Those finest of shoal-water fowl, the big mallards—which you can seldom get with-in gunshot of when it is calm and fair—are then not so quick to take wing. But your shells must be right. Hunting has no worse luck than a water-soaked shell that has swelled and sticks in the gun at a critical moment—to say nothing of a "miss" caused by wilting of the turned-over end of the shell.

Remington UMC Smokeless "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are made waterproof by a wonderful process, invented for them and used exclusively in their manufacture.

It took three years to perfect this process. The result is a shell that will work and shoot right throughout an all-day downpour—keeps hard and smooth with no softening of the turned-over end or bulging of the top wad in the wettest coat pocket.

You buy the same favorite brand, at the regular price, and get the Wetproof improvement without cost. The first completely waterproof shotshell, at the same time having the uniform superiority of speed, pattern and penetration for which Remington UMC "Arrow" and "Nitro Club" Steel Lined "Speed Shells" are famous.

In black powder, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.

WOOLWORTH BUILDING NEW YORK CITY

All chances of a match between **Champion Caddock Leaves Camp** Earl Caddock, the world's heavyweight champion wrestler, and Joe Stecher, Nebraska heavyweight, and a strong contender for the Iowa title, went glimmering when the local pride left Camp Dodge with the headquarters troop of the 88th division for an eastern port. He will soon sail for France, where he will take part in the big battle across the pond. A big match for Labor day between the pair of heavyweights had been planned and had practically been arranged by the managers of the two grapplers.

New Military Police Receive Instruction.

Military police of the 163rd Depot brigade have been given preliminary practice during the past week in the duties they will perform when the 316th military police are called away from the camp. The 313th military police officers have supervised the new "cops" in their duties the past week, giving them the necessary instructions preparatory to turning over the police supervision of the camp to them. Capt. Wm. E. Per Lee has been placed in charge of the new military police organization and Lieut. C. E. Crippen, of the 313th military police, will act as adjutant of the new police force.

Negro Troops Numerous.

By the first of September Camp Dodge will have as many colored soldiers in training as at any previous time since the cantonment was built. This week 4,000 colored recruits were received at the mustering office and assigned to the depot brigade. Three thousand more are scheduled to arrive some time this month. Besides these are the negroes now training in the 804th Pioneer infantry regiment, organized at Dodge several weeks ago.

Convicted of Theft.

Three years at hard labor in the United States disciplinary barracks at Fort Leavenworth is the sentence which has been meted out by a general court martial to Private Lee A. Detienne, a former member of company K, Three hundred and forty-ninth infantry regiment. According to the evidence Private Detienne was charged with appropriating \$70 belonging to a fellow soldier, Private Matteo Maniaci, a member of the same organization. Detienne pleaded not guilty but was convicted.

Y. M. C. A. Is Busy.

Approximately 192,000 soldiers attended entertainments given at Camp Dodge army Y buildings and tents during the month of July, according to a report by C. A. Bryan, camp secretary. Of the 315 entertainments, 136 were movies, 177 musical and dramatic and the remainder athletic exhibitions and stunt nights. Seventeen programs were given at the base hospital and five at Highland park college.

Objectors Get Chance to Work on the Farms.

Two hundred conscientious objectors at Camp Dodge who have refused to enter military service will be given an opportunity to receive furloughs and work on farms. Orders have been received to grant agricultural furloughs to those who apply. These men will not receive more than

soldiers pay, \$30 a month and room board. It is believed that those who do not apply for this work will be charged with insubordination and tried by general court martial.

DIFFERENT TASTES

Pussy—No Caesar, I cannot be your wife! I can't live on bones and dog biscuit an' I'm sure you'll never learn to like mice!

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

Hundreds of people use THE HERALD'S want an columns to sell or buy something, to find something that may have been lost. In fact some people have been known to secure a faithful, hardworking wife by advertising in want ad columns.
