BOWLES LIVE STOCK COMMISSION COMPANY
Omaha, Nebraska.

Union Stockyards, Omaha, Aug. 29.—As predicted by us last week, the receipts of western grass cattle show a considerable increase at all markets, and Omaha received its share. All the packers had "killed out" everything last week, and were free buyers, and the outside demand was also good, giving us an active market, although prices will average 10c to 25c lower than the high time last week on most grades.

Beef steers and butchers stock suffered most as the supply of stockers and feeders continue moderate. The "dry" sections are sending stock to market, which will have a tendency to affect the market on all kinds of stock cattle, but we don't believe this forced liquidation will be very extensive or last long. Mr. Hoover tells us we must furnish more beef than ever for our boys and allies, and we will be able and glad to continue to do this.

Present prices are quite satisfactory to the selling interests, although fully justified from a supply and demand standpoint, and also from the cost of production. Ranch and farm labor is scarce even at the high scale of wages prevailing, and unless exemptions are made under the new draft, the production of live stock will be curtailed. We believe, however, that those in authority understand the necessity of increased production and that sufficient capital and labor must be furnished by some body to accomplish this.

Most of the range or grass sections tributary to the Omaha market seem to have good feed, and we believe many owners will hold back shipments should the market break severely, and with the corn crop practically assured, although short of early estimates, we expect a strong demand for all kinds of cattle during the fall months. Packers can well afford to buy fat cattle at good prices as the outlet is assured for practically all they can slaughter and handle, but we look for liberal

supplies during the next three months, and think there will be times when the markets will rule lower, but our "guess" is that we will not have anything like "low" prices for any length of time this year or next.

World conditions, present and prospective, are certainly favorable for the live stock interests, and we again advise our readers to play the "game" to the full, limit of their judgment and capacity on their own account, as well as from the standpoint of patriotism.

The Bowles company have sold a good many sandhill Wyoming and South Dakota cattle this week: During the first two days selling 760 lb. whiteface feeders at \$10.75; 100 lb. feeders at \$12.50; 1050 lb. beef steers \$12.50; 1100 lb. feeders \$13.25; 620 lb. stock steers \$9.25 and many others in proportion.

The trade is closing strong at last week's best prices for all kinds of cattle.

Stockers and feeders are selling well, but the tendency is toward a little lower range in prices for the light and poorer grades. Fleshly feeders with quality will sell well all of the time. We quote Nebraska grass cattle:

Good to choice heavy fat steers \$12.50 to \$14.00
Fair to good \$11.00 to \$12.25
Good choice to fat cows and heifers \$9.00 to \$11.00
Fair to good \$8.00 to \$9.00
Wet cows \$7.50 to \$8.50
Canners and cutters \$6.75 to \$7.50
Good to choice heavy feeders \$12.50 to \$15.00
Good to choice 800 to 900 lb. feeders \$9.50 to \$12.00
Light stock steers \$8.25 to \$10.00
Stock calves \$7.50 to \$10.50
Fat calves \$11.00 to \$13.00
Veal bulls \$7.75 to \$9.50
Feeding bulls \$7.50 to \$8.50
Common to fair grades at the usual discount.

Wyoming, South Dakota and selected cattle generally 25c to 75c higher than these quotations.

With continued moderate receipts of hogs and a strong demand, the trade ruled active and the bulk sold from \$18.75 to \$19.25 and the outlook is still favorable for several weeks at least.

August receipts of sheep and lambs are the largest on record, but the demand continues strong and prices are high, with fat and feeding lambs selling from \$17.00 to \$17.65; fat ewes \$11.00 to \$11.50; feeding ewes \$8.50 to \$10.00. We expect larger receipts next month, and will not be surprised to see some decline in prices, but nothing like low prices any time.

Don't fail to write to the Bowles company any time you need special or other information, and consign to them for satisfactory service and results.

THE KITCHEN CABINET

Every woman can render important service to the nation in its present emergency. She need not leave her home or abandon her home duties to help the armed forces. She can help to feed and clothe our armies and help to supply food to those beyond the seas by practicing effective thrift in her own household.—United States Department of Agriculture.

SEASONABLE GOOD THINGS

One never has too many good things in the fruit cellar for winter use. The following may be new to some and suggestive to many:

Apple Catsup.—Peel and quarter a dozen apples, stew them in a very little water until soft, then run them through a sieve. To a quart of the sifted apples add one cupful of sugar, one teaspoonful of pepper, the same of cloves and cinnamon and two medium-sized onions, chopped fine. Stir all together, add one tablespoonful of salt and a cupful of vinegar. Boil one hour and bottle while hot.

A cupful of apple juice added to two cupfuls of ripe grape juice will make a nice jelly.

Wild Grapes for Winter Use.—Carefully remove all the stems from wild grapes which have been picked after the frost has sweetened them and place them in a stone crock with layers of sugar between, until the crock is full. Cover with a double thickness of cloth and tie newspaper over the cover. Keep on the cellar floor in a cool place. The grapes cure themselves and keep their fresh taste. Huckleberries and blueberries may be treated in the same way.

Pear Preserves.—Pare the fruit very thin, make a sirup of a pint of water to a pound of sugar, and when it is clear, put in a pound of pears and stew gently until they are clear. Place a clove in the blossom end of each pear and add the juice and thinly pared rind of a lemon to each five pounds of fruit.

Peach Preserves.—Take three-quarters of a pound of sugar to each pound of the fruit. Put the sugar with a cupful of water and boil and skim. Pare the peaches and cut them in halves or quarters, then in the sirup for ten minutes. Take out the fruit carefully, placing it in the jar, boil the sirup for fifteen minutes or until it is thick, pour over the fruit and seal while hot.

Nellie Maxwell

W. L. Walker has accepted a position as night manager of the Alliance Potash company of Antioch.

Mr. and Mrs. Kuhn and daughter returned Sunday morning from a week's vacation in the eastern part of the state.

DR. MCCOY'S OFFICE WILL BE CLOSED UNTIL SEPTEMBER 15.
39-9506-tf

R. M. Baker and family and J. D. Hawes motored up to Henry on a week's vacation.

Edwin Mollring left Tuesday noon for Newcastle, Wyoming, after spending the summer in Alliance.

Lena Jamieson left Wednesday for her home at Holland.

Ralph Joder returned to Fort Sill about the middle of last week. Miss Mable Grassman and brother Wade, accompanied him as far as Lincoln.

E. T. Eneyart, of Marsland, was in the city Wednesday on his way from Omaha and Kansas City, where he has been for the past few weeks buying his fall merchandise.

Clayton Reed, of Idaho, was in Alliance Wednesday visiting old friends.

The annual county convention of the Woman's Christian Temperance Union will be held in Antioch, Thursday, September 5. As it is the annual election of officers it is an important meeting and all members of our local union should plan to attend. The committee on arrangements for conveyances is Mrs. F. E. Sanders, Mrs. W. E. Cutts and Mrs. F. M. Phelps. Call them on the phone and tell them that you are going. Any one having a car that could be used in conveyance, kindly call these ladies for arrangement, also.

Why is it that of two persons of the same age and responsibilities you'll find one who always seems young and buoyantly healthy, while the other just feels his way through life, ailing, complaining and growing old rapidly?

The difference lies in nerve energy. One conserves it—the other dissipates it through faulty nerve action.

Normal nerve action, which brings about a normal distribution of energy in the body, is the basis of health. Those who are not always at their best, thoroughly well, virile, energetic, strong, healthy and ambitious, should let the Chiropractor, by scientific adjustment of the spine, correct faulty nerve action. Then Nature, by normal distribution of energy, can revitalize and regenerate every part of the body to the normal state that results invariably in great material benefit.

CHIROPRACTIC
THE BETTER WAY TO HEALTH

will help every one, those who think they are in fit shape as well as those who are not. Certainly Chiropractic (KI-RO-PRAK-TIC) never harmed anyone, but it has done thousands an immense amount of good. Investigate it. See what it means to enjoy real natural health and vigor.

VULCANIZING AND REPAIRING

Our tire vulcanizing and repair department is in charge of a man of long years of factory experience—a man who know how to build tires from the first layer of fabric to the tread. It stands to reason that such a man using the only complete tire repair and vulcanizing plant in the western part of the state, can give you better satisfaction than can the novice who experiments with a new and untried plan.

Our knowledge of tire repairing is such that we can tell at a glance if the tire is worth repairing and we will give you an honest opinion. If we tell you it is not worth repairing you can depend upon it — don't waste your money by sending your work out of town. If we tell you that your tire is worth repairing we will stand behind our work and will cheerfully guarantee it to hold.

Our prices are consistent with the class of work we do and you have the assurance that your work will be done right here in Alliance—that if it does not hold up you can get immediate adjustment without wrangling with an out-of-town concern. If this policy meets with your ideas of doing usiness, bring in your casings and have them repaired.

INCIDENTALLY, TIRES ARE GETTING SCARCER AND HIGHER. IT WILL PAY YOU TO BRING IN YOUR OLD CASINGS AND HAVE THEM OVERHAULED.

Experts are in charge of our battery department. This insures you against experiments with the most vital part of your car. Repairs made on all makes of batteries and new Prest-O-Lite batteries in stock. Free battery inspection on any make of battery. Come where the service is good.
