OBITUARY

Hazel Powell
Hazel Powell, daughter of Arthur S. and Margret Powell, was born April 23, 1908. at South Omaha, died near Canton, Nebr., Monday, Nov. 14, age 10 years, 6 months and 21 days.

She leaves to mourn her death, a father, mother, seven brothers and six sisters. Two brothers are in the service and were unable to be present, besides several members of the family who were so ill with the Spanish influenza that they were not informed of the little one's death.

Hazel, though frail in body, was a sweet and lovable child.

The remains were tenderly laid to rest in the Hemingford cemetery on November 16th.

F. A. Bald of The Thomas-Bald Investment Company returned the latter part of last week from Aurora where he attended District Court.

Demobilization in U. S. To Start Soon

Orders Have Been Issued for Mustering Out Men—Some Expected Home in Two Weeks.

Washington, Nov. 18.—In discussing the demobilization plans with senators at their weekly conference. War department officials said Secretary Baker planned to stop all movement of additional troops to Europe with the exception of surgical units. Orders have been issued, General March announced today, for the gradual demobilization of all troops now in this country.

Demobilization will be in the following order:

First—Development battalions, 71 in number and comprising 98,199 men.

Second—Conscientious objectors not under arrest.

Third—Spruce production division.

Fourth—Central training schools for officers, with some modifications.

Fifth—United States guards, now numbering 135,000 men.

Sixth—Railway units.

Seventh—Depot brigades.

Eighth—Replacement units.

Ninth—Combat divisions.

1,790,000 in United States

There are now in the United States 1,790,000 men under arms, General March said. Orders which will result in the immediate demobilization of 200,000 men are already issued, and those men will be at their homes in the next two weeks.

When the reduction plan is under full operation, the chief of staff explained, 30,000 men each day will be released from the army.

Regarding the return of troops in France General March said the order in which the divisions will be withdrawn is being left to General Pershing. It is the intention of the War department, however, so far as is practicable, to return each division to the locality from which the majority of its men came and to parade the division in adjacent cities so that the people may have a chance to give fitting welcome.

Return Sick at Once.

Orders have been cabled to General Pershing to begin the return at once of all sick and wounded, who can be moved, and convalescents. A steady stream of these men should begin immediately to cross the Atlantic.

Camps at home will be cleared out to prepare for the return of the expeditionary forces, and the general indicated that the process would be expedited. A unit of regular troops will be left at each camp to guard and police it in preparation for the arrival of the overseas unit.

Tribute to Rainbow

Because of its unusual composition, General March said, and its brilliant record at the front, the 42nd (Rainbow) division will be given special consideration in the demobilization plans. The purpose of the department was not outlined specifically, but the impression was gained that the division will be paraded in Washington before it is mustered out.

Steps already have been taken toward the organization of the permanent army. All men now in the army have been or will be offered an honorable discharge from the emergency enlistment and an immediate re-enlistment in the new forces. A furlough of one month will be given as an incentive to re-enlistment.

Wants Bonus Given

It was announced that congress will be asked to give each man discharge from the army, regardless of whether he reenlists, a bonus of

one month's salary. General March pointed out, also, that all soldiers are entitled under law, to wear their uniforms for three months after discharge. This will make less difficult the immediate task of supplying civilian clothing to the demobilized army.

EASY TONE OF SPUDS AT CHICAGO MARKET

Cold Weather Expected Any Time But Operators Divided in Opinions as to Effect it Will Have

Chicago, Nov. 13.—The potato market has changed but little the past week as a slight advance of one day was usually lost the next. Buying from the outside territory has been light, but reports come in that accumulated stock has been considerably reduced.

With the advent of cold weather expected daily, there is considerable difference of opinion among potato interests as to what the market will do. Some look for a further decline while others reason that an advance is due just as soon as the weather gets snappy or when buyers come to date is far ahead of that of a year ago—estimated at an increase of close to 40 per cent.

Harvesting conditions have been ideal this fall as no potato producing section has as yet been subjected to a freeze sufficient to affect the tubers in the ground. This same condition also has been especially favorable to the movement of cars without loss, whereas the losses sustained from freezing during the latter part of October and the early part of November of the past two years has been quite an item. The favorable harvesting season this year has been especially beneficial in view of the fact that the shortage of farm labor has prolonged the period necessary to get crops under cover.

The demand from buying territory has been rather light but some encouraging reports are being received from outside markets to the effect that the accumulation has been reduced considerably. Receipts here have continued to be liberal but the reported shipments from all sections have not been heavy for this time of

the year—running around 625 cars daily on the average.

Tuesday the market held fairly steady with Minnesota and Wisconsin bulk No. 1 white stock selling at \$1.65 & 1.75 per cwt. sacked white stock brought \$1.75 & 1.85 and Early Ohio \$1.70 & 1.75. Receipts were 192 cars and there was a total of 356 cars in the inner and outer yards.

Wednesday the market was off a little with Minnesota and Wisconsin bulk No. 1 white stock moving at \$1.60 & 1.77, and sacked at \$1.70 & 1.80. No. 2 sacked whites brought around \$1.15 & 1.25; Michigan bulk white stock \$1.60 & 1.75 and Idaho whites \$1.90 & 2 per cwt. New receipts were 77 cars and there was a total of 341 cars in the inner and outer yards.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.
