To our friends and customers:—

May the peace which, since November the 11th, has been enjoyed by all the nations of the world fill your hearts to the fullest degree at this joyful season and extend through all of 1919.

To the policy holders of the Equitable Life we have a special announcement to make that is of great interest. Beginning January 1st the Equitable Life will issue Accident and Health policies with full coverage and without restrictions which may be attached to and form a part of all outstanding policies. We will be pleased to explain the details to you at your convenience.

Very cordially,  
**GUTHRIE & MILLER**

## WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

man of Alliance, were married Christmas night by Rev. Epler of Alliance. The happy couple left on the midnight train for a honeymoon at Denver.

Miss Ethel Graham has purchased the interest of Fred Mollring in the insurance and real estate business of Snoddy & Mollring. The firm will be known as Snoddy & Graham. Miss Graham has had several years of experience in the insurance business and is considered an expert on insurance matters. The new firm is enjoying an excellent business.

Warren Lotspeich, aged eighteen, a well known and popular Burlington locomotive fireman and son of Mrs. L. B. Lotspeich of Alliance, was married to Miss Lena M. Jameson of Hoffland on Tuesday of this week. The bride is a popular Sheridan county school teacher. They will make their home at Alliance.

The Burlington Cafe, owned by Wm. Fuller is being remodeled this week, during which time it is closed. When again ready for business Mr. Fuller will have for sale bakery goods, made in the bakery in connection and instead of serving meals as heretofore will confine his lunch counter business to light short-order lunches. He will employ an experienced baker and promises the best in the bakery line.

Alliance people who buy the Klean-rap bread from the Alliance Bakery, of which F. F. Stephens is proprietor, often wonder how the neat wrappers are placed around the bread. It would be interesting to them to watch the patent electric "sealing machine" seal the paraffine paper wrappers. An electric heated machine melts the paraffine at the folded paper joints, making the packet air tight and germ proof. The paraffine paper is not greasy and no other wrapper is needed. This keeps the delicious bread in excellent shape.

### CHRISTIAN SCIENCE

First Church of Christ, Scientist, which is a branch of The First Church of Christ, Scientist, in Boston, Mass. Holds services as follows: Sunday School at 10 A. M.—Lesson Sermon at 11 A. M.—Testimonial meeting Wednesdays at 7:30 P. M. Subject of this weeks lesson: "Christian Science"

Christian Science Reading Room is open to the public on Wednesday and Saturday afternoon, from two to four o'clock. All are welcome.

Box Butte county went over to Des Moines a week or two ago and made an exhibit in a "Potato Show." Yes, you guessed right the first time. Box Butte county won the first prize for the best collective exhibit and enough minor prizes to fill a good sized box.

## SHE KEPT THEM ON THE JOB

# OUTWITTING the HUN by PAT O'BRIEN R.F.C.

THIS is without a question one of the most astounding stories of air and land adventure written since the war began. A flier under the British flag, O'Brien, after a hard fight with several Boche machines was finally wounded 8,000 feet in the air, brought down and captured.

While being taken to the prison camp with a German guard beside him with gun loaded ready to shoot, he made his escape by jumping through a window.

After 72 days of crawling and slipping by night and hiding by day—bleeding, wounded—passing sentries boldly—fighting peasants—he crossed the boundary into Holland.

No wonder he was received with joy by the English public—no wonder audiences all over the United States listened breathlessly to his story. YOU can read it now for we have secured it for our next serial.

This long-limbed, hawkfaced dare-devil Irishman—they could not keep him out of war—they could not kill him—they could not hold him! Read his story, it is a splendid proof of that indomitable spirit that makes America unconquerable, invincible.

**Our New Serial—Be Sure to Read It**  
Starts in Next Week's Issue

## Churches

**CHURCH OF CHRIST**  
Christmas Day is passed but the spirit of Him who brought "glad tidings of great joy" lives on. Now we wish all a Happy New Year. Make next Lord's Day the time for great reflection. The sermon subjects are "A day of rejoicing" and "A Promise fulfilled."

Next Sunday afternoon is the great event in the calendar. Every member when possible, will remain at home to receive a visit from canvassing committee. The splendid cooperation of the past year is only an earnest of the greater which we anticipate this year. Yours for a great year of service. Come to the church with a message and a welcome.  
Stephen J. Epler, Minister.

**METHODIST CHURCH**  
Sunday school 10 a. m. We cordially invite all who are not attending Bible study at another Sunday school to meet with us.

At the morning hour that pastor will preach using as his sermon subject, "The Coin Of The Human Heart" Special music will be rendered at this hour. Mrs. A. R. Kresge, a graduate of the music school of the Ohio State University will sing.

Epworth League meets at 6:30 p. m. We urge all young people connected with the church to attend this fine service. Young people of the town as well as older folks are always welcome.

At 7:30 p. m. the pastor will preach having as his subject, "The Best Choice." This is a homey church and there is always a warm welcome for the public.

Professor and Mrs. Allen R. Kresge of Athens, Ohio are visiting at the Methodist parsonage. Mr. Kresge was called into limited service just before the term opened last sept. and was stationed at Camp Sherman, Ohio till mustered out a few weeks ago. He will not return to the University till next Sept. He was organist at the great Methodist church in that fine old University city, as well as instructor of Pipe organ in the University. His wife is a graduate from the same music school of which Mr. Kresge was an instructor. She also was Asst. choir leader in the church where her husband was the organist.

During the year just drawing to a close the state of Nebraska contributed in round numbers more than one billion dollars worth of food and manufactured values to the country. No other state in the Union approached Nebraska's per capita record for food production, and no state west of the Mississippi river equalled Nebraska's manufacturing record. Packed meats amounted to more than \$150,000,000. Potash and sugar contributed close to \$35,000,000. The food factories added nearly \$10,000,000 to the total. Soil products and live stock added more than \$750,000,000. Orchards and vineyards contributed close to \$10,000,000. Manufacturing plants aside from food factories added more than \$100,000,000 to the value of raw material handled by them. Nebraska's per capita production of agricultural, live stock and manufactures in 1918 will close approach \$950. What state in the Union can beat that record.

**HOTEL CONANT**  
OMAHA

RATES \$2.50 and DOWN  
50 ROOMS WITH BATH \$2.50  
100 ROOMS WITH BATH \$2.00  
100 ROOMS WITH BATH \$1.50

## GRANDMA NEVER LET HER HAIR GET GRAY

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.
