WARNED TO BEWARE OF FAKE TAX EXPERTS

Collector Geo. L. Loomis of Omaha, in Charge of Nebraska, Calls Attention to So-called Experts

Collector Geo. L. Loomis of Omaha, of the Bureau of Internal Revenue, calls attention to the warning issued by the bureau against "fake experts" on the Income Tax. A statement regarding this received from Commissioner Daniel C. Roper says: "Business houses and individual taxpayers are being canvassed this year by numerous so-called 'Income Tax experts,' who offer to use 'clairvoyant' or 'medium' methods to determine the qualifications of many of these 'experts' will disclose the fact that very few have had the training and experience that would place them anywhere near the expert class. "Some of them were formerly temporary employees of the government who are attempting to capitalize this fact regardless of their personal knowledge of the revenue laws and regulations. Others are soliciting clients on the strength of diplomas as Income Tax experts obtained after taking long-distant courses by means of printed instructions of doubtful value. "Taxpayers should not allow themselves to be imposed upon by

strangers who claim to be Income Tax experts. They should discriminate carefully between really helpful, authoritative advice in tax matters, and the irresponsible brand peddled under glittering pretenses. "The bureau is arranging to furnish for the benefit of Income Tax payers in every city and town in the country a free advisory service by trained collectors, agents, inspectors and deputies. At the offices of collectors and their deputies, and at other central points, free information and advice with respect to filing returns under the new revenue bill may be had up to the final date for filing such returns. "Banks, trust companies and similar responsible institutions have always co-operated in furnishing authentic Income Tax information, and have generously offered to serve the government and taxpayers in this respect again this year. "It is the aim of the Bureau to bring its agencies as close as possible to every person and to make available in official form all necessary information regarding the requirements of the law. The bureau welcomes aid from every responsible agency in its effort to enlighten the people on tax matters. "Every taxpayer is assured of a square deal from the government based entirely on the tax laws and regulations and the facts in his case. No other influence is allowed to enter into Internal Revenue matters and the statement of any firm or individual that they are in a position to exert special influence with Internal Revenue officers is wholly without foundation in fact. Painstaking and open-minded consideration is

given in every case regardless of whether the taxpayer appears in person or by attorney. "Firms or persons who offer to prosecute claims against the government can secure no special consideration beyond the merits of the claims as determined by the facts and the law. "Any former government officer or employee is barred by statute from acting as counsel, attorney or agent for prosecuting claims against the United States which were pending while he was an officer or employee; and is also barred from aiding in any manner the prosecution of such claims within two years after leaving the government service."

Toad's Good Service. The toad is useful because of its diet. No less than 83 specimens of insects, mostly injurious, have been proved to enter into its dietary. George W. Hunter says: A toad has been observed to snap up 128 flies in half an hour. Thus at a low estimate it could easily destroy 1,000 insects during a day and do an immense service to the garden during the summer. It has been estimated that a single toad may, on account of the outcrops which it kills, be worth \$19.88 each season that it lives.

Spikenard. Spikenard, or nard, mentioned by St. John 12, 9, and St. Mark 14, 3, was a highly aromatic plant growing largely in the Indies. From this plant was made the valuable extract or unguent or favorite perfume used at ancient baths and feasts.

STATE LEGISLATURE FAVORS GOOD ROADS

Bill Introduced Before House of Representatives at Lincoln Has Many Excellent Provisions

A road legislation bill was introduced before the Nebraska House of Representatives at Lincoln the last of January which contains many excellent provisions, the main ones being summarized as follows: Some eighty lines of roadways are mapped out to be designated State Highways. After January 1, 1920, each county shall maintain the whole of the State Highway system lying within the county, except such portions as are within incorporated towns having more than 1400 inhabitants. The maintenance of such roads shall include improvements to the surface, to bridges, culverts and other structures thereon. The maintenance of the State Highways by each county shall be under the direction of the State Board of Irrigation, Highways and Drainage. When any county shall adequately maintain the State Highways within its limits, there shall be paid into the county treasury, out of the State Highway fund, the actual cost of such maintenance. The State Highway Fund shall be derived from the tax on all motor vehicles; such tax to be a minimum of ten dollars per car and graduated to 50 cents per hundred pounds on all cars over 2,000 pounds. One-

fourth of this fund to be placed in the county for the county road dragging fund, and three-fourths to be used for construction and maintenance by the State Board of Irrigation, Highways and Drainage in the county where same tax is collected. This system of roads connect all the county seats, and 63 per cent of all the people in the state live directly on these roads. On the fifteenth of each month the State Board of Irrigation, Highways and Drainage shall file with the county clerk of each county a certified statement showing the total amount of money received, the total claims allowed and the amount of money available in the fund for the maintenance of the State Highways in each county. Provides for Traffic Regulation No motor vehicle in excess of seven and one-half feet in width, or twelve feet in height, shall be operated on the system of State Highways. Motor vehicles shall not carry a load in excess of 600 pounds per inch of tire width. The weight of truck and load combined shall not exceed 7,000 pounds on any one wheel, unless special permission has been obtained of the State Board of Irrigation, Highways and Drainage. The State Board may formulate such rules and regulations in regard to the use of and travel upon the State Highways as it deems necessary to promote public safety and to protect the State Highways. The State Board shall publish these rules and regulations in pamphlet form, and furnish them, upon request, to the general public without charge.

ALLIANCE EVIDENCE FOR ALLIANCE PEOPLE

Statements of Alliance Residents are Surely More Reliable Than Those of Strangers

Home testimony is real proof. Public statements of Alliance people carry real weight. What a friend or neighbor says compels respect. The word of one whose home is far away invites your doubts. Here's an Alliance man's statement. And it's for Alliance people's benefit. Such evidence is convincing. That's the kind of proof that backs Doan's Kidney Pills. G. H. Williams, stationary fireman, 421 Yellowstone, says: "My back was lame and ached steadily and heavy work would about use me up. Doan's Kidney Pills relieved me and I endorse them as a first-class kidney medicine." Price 60c, at all dealers. Don't simply ask for a kidney remedy--get Doan's Kidney Pills--the same that Mr. Williams had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. feb20-27

WANT TO BUY LAND We have customers for fifty quarter-sections of Box Butte County land. If you have land in Box Butte county to sell, call at our office at once. THOMAS - BALD INVESTMENT COMPANY, Alliance National Bank Building, Alliance.
