

SOCIETY

Jerry Butler of Hemingford spent Tuesday in Alliance.

Charles Herion and wife of Antioch were Tuesday shoppers.

Miss Mary Barry went to Gordon today to attend the Carnival at that place.

Miss Katherine Kniest arrived in Alliance Monday to attend the Kniest-Beuchenstein wedding.

Mrs. Jack Miller returned from Iowa Monday bringing her mother who will make her future home with Mrs. Miller.

Mrs. J. D. Mallory went to Iowa the first of the week to visit her mother.

F. W. Pierson of Gothenburg was an Alliance visitor the fore part of the week.

Automobile and tractor repair work wanted by experienced mechanic. Work done at your home city or country if desired. Phone 656, ask for Boyd. All work guaranteed. 28-14-8057

The Alliance Auto and Truck Company, of which John Wallace is the manager is doing a wonderful business in Mitchell automobiles since taking the agency for this territory a few weeks ago. Already they have disposed of four carloads and another shipment of three carloads is now enroute. The members of the sales force find the selling of the cars much easier than the getting of them in sufficient numbers to supply the demand.

FOR SALE

**TWENTY ACRE BUILDING SITE** for Summer Home—In the beautiful Spearfish Canyon. Best of water, good trout fishing. Close to railroad depot. Be quick if you want it. Address me at Barret Hotel, Spearfish, So. Dak. W. A. BARRETT.

The Alliance Fire Department is having the old skylight in the armory building removed this week and one that will provide proper ventilation installed. Electric fans will also be placed at convenient places throughout the building and when complete the job will make for a very comfortable dance hall. It will be, in fact the coolest hall in the county. The boys will hold the regular Saturday night dances and during the reunion and race meet will stage a big "hop" nightly.

Rev. Stephen J. Epler of the Christian church returned last Saturday from Pleasant Plains, Illinois, where he had been in attendance at the golden wedding anniversary celebration of cousins. A striking fact is that in this same family four couples have had the unusual opportunity of celebrating the half-century married life goal. Rev. Epler says he had a grand time and that he enjoyed the trip, but that he was glad to get back to Nebraska, where there is evidence of prosperity upon every hand and the air is fit to breathe. He reports having seen considerable damage done by heavy rains and washouts in the corn fields along the route.

W. E. Smith and son, E. K., father and brother of E. B. Smith of the Herald force spent Saturday and Sunday in Alliance visiting. E. K. just recently returned from France after a service of almost two years in the army of Uncle Sam. While he saw no active service on the front lines he was privileged a trip overseas and saw many things very interesting to those who remained at home. He was a member of the presidential guard in Paris during the peace conference and was sent home with his company, on board the president's ship on its return voyage from Paris.

Mrs. J. G. Beck returned from Chadron where she has been attending Institute.

John Snyder, T. G. Scott, Perry Mailey went to Mitchell Wednesday to attend to business matters.

Mrs. G. Lamb of Bridgeport visited at the Chas. Henry home this week.

Jack Miller and family autoed to Pine Creek Saturday night where they camped out until Monday.

C. H. Gibson left the first of the week for California where they expect to make their future home.

Miss Deona Mallory is spending a few days visiting her brother Bruce at Marple.

Weaver Garage open for business again, 116 West 2nd St. 28-31-8060

Mrs. Anna Chaffee has received word that her son Merritt is at the Great Lakes Training School waiting his final discharge papers.

Sheriff J. W. Miller left Tuesday night for Kearney, having in charge Dewitt Tyrell, who was taken to the Boys' Industrial school at that place for commitment.

Regular teacher's examinations will be held at the Court House, June 27th and 28th. This is the last Reading Circle Examination. Opal Russell, Co. Supt. 28-21-8061

Mrs. George Wittsey of Hemingford came from Hemingford Monday to meet her brother and wife who are coming for an extended visit with Mrs. Wittsey.

The Nebraska State Fair has passed the experimental stage, as was demonstrated by the fairs of 1917 and 1918, which were put on under most adverse conditions.

Definit dates have not been decided upon for the annual meeting of the Nebraska Sheriff's Association, but this meeting will be held in Omaha sometime in July.

My minor son Robert C. Lawrence having quit my home without any provocation. I will not be responsible for any deals entered into or bills contracted by him. J. R. Lawrence. 28-11-8052

Mr. and Mrs. S. O. Carr leave today for their new home at Wheatland, Wyo. They have sold their property at 719 Laramie to Mr. Miller of Hastings. Mr. Miller plans on moving his family here the first of September.

Wyoming's Prize Cowpuncher.

That old fellow in the Bible who had "cattle upon the sand hills" probably did not own as many as Ed. L. Dana of Sheridan county. Mr. Dana is Wyoming's prize cowpuncher. He likely does not tell anybody, not even the assessor, how many cattle he owns, but he will ship 20,000 Herefords in July. Six hundred standard stock cars will be required for the shipment. This consignment alone will bring Mr. Dana between \$2,000,000 and \$3,000,000 and he has a lot more upon the ranges of Wyoming and Montana.—Cheyenne Tribune.

Piano For Sale

We have stored in Alliance a high grade piano which, if taken at once, will be sold at a very substantial discount. Terms to a responsible party. If interested write at once for particulars to THE DENVER MUSIC COMPANY, Denver, Colo. 28-21-8051

SECURITY MTR. CORPN.  
GEO. W. FRANKLIN

Two years ago the Mitchell factory decided on this new-type car. They employed many specialists—men of wide experience—to aid in its creation.

They have perfected the car in two years because of the war-time lull. The factory was devoted to truck building, and these engineers and experts had a unique opportunity.

Part by part they brought the car up to these new standards. They employed larger parts, new heat treatments, more costly steels, more drop forgings.

They spent \$250,000 for new machinery and equipment, for more accurate workmanship and more radical tests. And they trained a staff of 135 inspectors to watch this car's construction.

This is more than a new model, as new models go. It fixes new standards—it marks a new era in this type of car.

The more than 100 important improvements add 50% to endurance, 25% to economy and 20% to comfort.

Remember that the Mitchell pioneered the Six. For many years the Mitchell Sixes have been gaining world-wide respect.

Yet they add to these sturdy cars 50% more strength. To these enduring cars they add 75% endurance. And, while adding weight, they reduce operating cost by 25%.

They have added new beauty, new comfort. They are adding new finish, new features, new room.

Yet the price is below any comparable Six—below the cars which have not been changed.

That is the most amazing fact—a Six of this class at its price. It is due to wonderful factory efficiency. This complete car—motor, chassis and body—is built in the model Mitchell plant under scientific methods.

See the new Mitchell before you buy your car. It will prove a revelation to you.

**ALLIANCE AUTO & TRUCK CO.**  
JOHN WALLACE, Mgr.
