### The Reason

A clergyman in the pulpit was a fearless expounder of right and wrong, but in the domestic circle maintained, for prudential reasons, considerable reserve of speech and action.

On one occasion when this divine visited a neighboring town the editor of the only paper there, which never failed to notice the presence of a stranger in town, offered the following, so worded as to prove unwittingly keen:

"Doctor Carrol is once more among us for a brief stay. He says and does exactly as he thinks right, without regard to the opinions or beliefs of others. His wife is not with him."

### He Was Looking Too

An Ohio farmers wrote that he owned nine cows, and asked Representative Nicholas Longworth to send him a government exterminator for flies. He got this reply:

"Sorry, but I, too, am in quest of the same thing. I have no cows, but I have a bald head."
