**FIRST BAPTIST CHURCH**

The First Baptist church always has a warm welcome for those who take the privilege of worshipping with us. There is a program of songs in which everyone delights to take part, and there is a timely discussion of the most important topics of the day from the pulpit. The public can ill afford in these days of hustle and hurry to miss the opportunity of rest and refreshment that is provided in our services. You will live longer, enjoy life better, and make those about you happier if you will go to church next Sunday somewhere in the city. Remember our church is the "homelike church" and is open to everybody.

Sunday school at 10:00 a. m.  
Church service at 11:00. Sermon subject, "Work Out Your Salvation."  
Young People's societies at 6:30 p. m.

Church service at 7:30. Subject, "The Banu of Martyrs."  
J. ORRIN GOULD, Chaplain.

**CHURCH OF CHRIST**

This is the last week of the meetings which will close Sunday night. Mr. and Mrs. Knapp are doing fine work. His preaching is simple, plain and convincing. This will be your last opportunity to hear this "Little Giant." Below is a number of his subjects: Friday night, "Satan's Cradle;" Saturday night, "A Quartet of Fools;" Sunday morning, "The Liberty of Christ;" Sunday afternoon, "Who Is the Real Infidel?;" Sunday night, "A Cry of Victory or Despair." These last services will be the climax of a great series of sermons which have been preached by this godly man.

Our aim is 201 in Bible school Lord's day morning and fifty in the Christian endeavor prayer meetings. Our delegate to the state C. E. convention at York has returned and will add much to the service. Her complete report will be given at the regular business meeting. Come to the church with a message and a welcome. STEPHEN J. EPLER, Minister.

—F. T. McKee, formerly with the Quick Service Electric shop, and E. T. Campbell of the city force have formed the Emergency Electric company, with headquarters in the W. W. Norton office. They will do contract wiring and specialize on electrical repairing. Notice their advertisement in this issue of The Herald and keep them in mind when you need anything in their line.

—A J. Isaacson returned Tuesday from Omaha, where he had spent a week attending to business matters. —The Wiker Music company delivered a fine piano to Mr. and Mrs. A. L. Furman at Marsland the first of the week. They made the trip overland, and were caught in the snowstorm, which blocked the roads to such an extent that return was impossible. They spent the time most pleasantly with Mr. and Mrs. Furman and on returning they said that they regretted the storm let up so soon.

—The Alliance chapter of the American Red Cross will hold its annual election at the court house November 26. Twenty candidates have been placed in nomination by the nominating committee, and the ten receiving the highest vote will be declared elected. The vote will be taken by Australian ballot. The nominees are: E. D. Mallery, Ira E. Tash, J. B. Miller, Dr. F. A. Copsey, John O'Keefe, Robert Graham, Mrs. Claudia Dole, A. G. Isaacson, Mrs. E. H. Boyd, Mrs. H. E. Gantz, Mrs. W. R. Metz, Mrs. G. L. Griggs, Mrs. H. F. Thiele, Harry A. Dubuque, E. G. Laing, Mrs. A. J. Cole, Mrs. Arthur Wright, Mrs. C. H. Fuller, Mrs. M. F. Donovan. Ten elected will meet soon after election and will select the officers for the chapter from among their number.

—Saturday last Judge Tash issued a marriage license to Henry T. Ryan of Alliance and Bessie I. Carpenter of Sioux Falls, S. D. The ceremony was performed by the judge. Mr. Ryan is the assistant recruiting officer at the local office.

—Complaint has been filed charging that James Skinner, age seventy-five, is insane and asking that he be taken care of. Mr. Skinner is at present living with the family of his son-in-law, M. G. Leishmann. His wife died some time ago, and this, together with other causes, is believed to have affected his mind.

—George E. Douglas, formerly with the immigration department of the B. & M. railroad, with headquarters at Alliance, where he lived at one time for three years, arrived in the city Sunday morning from Grand Haven, Mich., to spend Thanksgiving with his daughters, Mrs. George W. Watson and Mrs. Etta Phillips, and his sons, Earl and Louis at Orlando. Mr. Douglas had an opportunity to see many of his old friends and enjoyed himself immensely in renewing acquaintance with them. He had three sons in the army, Frank, Charles and Clarence. The latter two saw service in France for six months and later in the army of occupation. They were in the thick of the fighting, one of them being gassed. A number of Herald readers will remember Mr. Douglas, who was one of the old settlers, coming to Box Butte county before the Burlington. For years he had charge of the Box Butte county exhibit at the

state fair, and was in charge of the display at the fair grounds in Alliance during most of his residence here. Mr. Douglas secured his position with the B. & M. because of his ability to arrange and care for exhibits, and got up the first display the B. & M. made in Alliance. In 1907 he was in charge of an exhibit car which toured the states of Iowa, Illinois, Missouri, Kansas, Wisconsin and Indiana. The tour lasted six months and on its completion the car was shown at various places in Nebraska.

—William Strasburger, wife and two children made The Herald office a pleasant call last Friday afternoon, and left a renewal subscription with us. They took time to go through the shop with us, and gave our machinery, new type and equipment the once-over. This reminds us that we are glad to show visitors over The Herald office any old time, and will welcome the opportunity. The next time you are in our neighborhood, drop in, and we'll do our best to make you feel at home.

—Jay W. Mollring, at one time a resident of Alliance, but now with the United States navy, has been advanced in rating one notch and is now fireman first class, according to word received by The Herald. The promotion is the result of "good conduct and excellent work." The writer did his bit in the navy, and knows that fireman first class is a rating that requires real ability to attain. Mr. Mollring is now serving on the Melville, which was the mother ship to our destroyer flotilla under the command of Admiral Sims. While serving on the Melville, Mr. Mollring has been under the direct supervision of the chief engineer, who has recommended him highly for his attention to duty. A mother ship, by the way, carries repair parts, and is a mighty necessary adjunct to the fleet, as well as the target for a good share of the enemy's shells. It carries a valuable cargo and is usually pretty well guarded.

—Ex-soldiers, sailors and marines are urged to hang on to their government insurance. Your government insurance is a good thing—hand on to it. If you have lapsed, reinstate it. If you want information, call on the home service committee of the Red Cross, where they have specimen forms, the latest rulings, and can answer all your questions. You will find the headquarters at the

—George Markoff of Alliance recently left for Kansas City, Mo., where he registered for a course in automobile mechanics and tractor engineering in the Rahe auto and tractor school.

—Gering has been entertaining a professional community booster, who partook of an excellent banquet set before him and later electrified his

hearers by telling them that good roads can lead people away from town as well as to it. The new gospel, the speaker assured his hearers, is co-operative publicity, backed by genuine service. The Gering newspapers described the address as both eloquent and convincing.

—The even tenor of life at Spalding has been sadly upset. The teachers in the public schools went on strike, and after being out for two days, went back to work at the increased salary offered by the board. About a month ago the teachers got together and served notice on the board that they wanted more money. The board offered an increase of \$90 a year, or \$10 a month, the same increase granted to Alliance teachers, but this was considered insufficient and the next Monday morning the school bell failed to ring. The local newspaper says that the difference in the amount offered and the amount asked was not much, and insinuates that a little diplomacy on both sides might have prevented the occurrence. All of the teachers had contracted for the year at certain salaries, but contracts never did mean any more to school teachers than the average run of mortals.

—Yeggs entered the Bank of Julian last week and proceeded to rifle the safety deposit vault, gaining entrance by means of nitro-glycerine, just as it is done in the movies. They confined their attention largely to liberty bonds and jewelry, but overlooked a lot of loose change. The Auburn newspaper gives a most complete account of the affair, with the exception that it neglects to state just how large the loss will total.

—Now that the women are to have equal suffrage, the chairman of the state republican state central committee gets busy and issues instructions to the county and precinct chairmen to call caucuses for November 11, at which time precinct

committeewomen are to be elected to serve until the primary election in April. Incidentally, Chairman Devoe makes it as plain as possible that the whole credit for the passage of the suffrage act is due to the efforts of the republican party, who have fought the democrats night and day for eight years in order to secure justice for the women. It makes a pretty story, and some of the girls may be taken in by it. We seem dimly to recall a few prominent re-

publicans who didn't welcome the prospect of woman suffrage with open arms. At any rate, the republican party is the first to issue a call to the women to assume their responsibility as voters, which may mean that they welcome the new electors, or may mean that they fear them.

One of the problems that should claim study is the unlimited supply of munitions available to Mexican

**GIFT SEASON**

Is almost here—  
The period of the year when everyone's thoughts turn to ideas of giving.

**Johnston's Chocolates**

We have a wide selection of extra high grade Chocolates in fancy boxes. Every box is fresh, dainty and attractive.

**EMBLEMS  
CHARMS**

A watch charm gives every man a chance to wear the emblem of the fraternal order to which he belongs. Some don't care for rings. Some forget to change pins or lapel buttons from one coat to another. But a man always has his watch with him, and the fob or chain ought to have a charm to make it complete.

We are showing a fine line of emblem charms—Masonic, Odd Fellows, Elks, K. of C.—and other lodges. These are well made and finished in every detail—the good, substantial quality a man desires.
