Conference minutes, published by The Herald's job department. He recalls another time when he assisted printers in need.  —A new linoleum has been ordered for the offices of the Community club.
 —I. S. Johnson was in from his ranch Sunday and dropped in this office for a brief chat. He says that under the beneficent management of railroad by the government, shipments of livestock has become a source of diversion and recreation for brakemen. Some weeks ago, he was shipping cattle at the same time as Henry Hier was shipping. The cars were placed at 3 o'clock for loading, one of Henry's steers jumped the boards and hit the high places over the hills. Cowmen took after the gentleman cow and the brakeman, desirous of trying his hand at cow punching, borrowed Mr. Johnson's horse and saddle and the train waited for the return of Henry's steer and the brakeman before getting started. As a result of this delay, he was compelled to unload and feed at Lincoln, with the additional cost of \$24, when the train proceeded on its journey to Omaha, arriving there Wednesday afternoon. He is not sure whether the government is operating trains for recreation of brakemen or for the purpose of selling hides and bones to the packing companies, the flesh having dwindled from the cattle while enjoying their three days' ride, but he does know that under the present system, the source for taking complaints is to the Almighty, there being no human willing to acknowledge responsibility for receiving complaints. Mr. Johnson says he would be willing to acknowledge the advantage of this beautiful system of transportation, if the loss fell on the other fellow, but it seems quite outrageous to him.—Antioch News.

GRANDMA NEVER LET HER HAIR GET GRAY
 She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.
 When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.
 Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.
