Running on Three Wheels

It is easier to pull a loaded wagon that has only three wheels than it is to run a business without sufficient income to meet expenses. Each may struggle along for a time, but neither can travel fast or far, and the strain is sure to be great.

A business that lacks the revenue to pay for the best material and workers can not give the best service. When the service suffers, all users of the service also suffer.

That is the problem now facing the telephone company. Unless it charges rates that make it possible to purchase necessary material and pay wages that will hold good employees, it can not give you good service.

The future of your telephone service rests on the charging of fair rates.
