PACKING COMPANY A SUCCESS FROM START

Fargo Concern Does Business of Over \$4,000,000 in First Five Months

That the Equity Co-operative Packing Co., of Fargo, N. D., has done a volume of business of nearly \$1,000,000 per month since operation began less than five months ago, is the statement made by Manager L. C. Hoopman in a letter issued recently to stockholders.

Mr. Hoopman writes: "At the present time, your plant has been in operation about four months and a half and as we compose this letter, we have come to the conclusion that one statement will cover the situation, that is, the plant's progress has been startling. We have surprised ourselves on the volume of business that has been done, and as the demand for your company's products continues to increase, we see no limit to the final outcome. We quote you a few facts to back this up:

- "1. A volume of business of over \$4,000,000.
 - "2. Over \$225,000 in hides.
 - "3. Two hundred and fifty cars of stockers and feeders.
 - "4. Fifteen cars of lard, sold on board of trade inspection, Chicago.
 - "5. Fifteen cars of tallow and inedible grease.
 - "6. Ten cars of fertilizer.
 - "7. Six branch houses established.
 - "8. One branch house alone selling a car per day of dressed meat.
 - "9. Fargo alone taking over a car per day.
 - "10. Seventy-six cars of livestock, one day's receipts.
- "And capacity not yet reached. At present it will require 1,000 hogs and 200 cattle per day to satisfy the demand for your product. Your trade territory on finished product has reached from Boston, Mass., to Portland, Ore., and from the Canad-

ian line to Jacksonville, Fla., with your own refrigerator cars, carrying your own products.

"The above is only a general outline of the volume of business we have done so far, with only limited capital. The board of directors, therefore, saw fit to vote for the company to increase its capital stock from \$3,000,000 to \$10,000,000 as it will be necessary to build five acres more yardage, additional large cold storage plant, more residences for employes and sufficient working capital to take care of the increased business."

RAILROAD NOTES

Mrs. C. A. Hopkins returned home from Lincoln yesterday to care for her husband who is reported quite ill.

M. F. Coursey got his finger smashed yesterday when he was working with the boring mill. He will be off for a few days until the finger is improved.
