

**OIL NOTES**

Because of the large number of persons interested in the Osage oil field, a petition of oil men and others interested in the development of the field, has asked the Burlington to stop its trains Nos. 41 and 42, at the small town of Osage, Wyo.

Oil development, which has resulted in several Wyoming towns becoming the locations of first class hotels, may have a similar result in Newcastle, where a company is being organized to build a \$150,000 hotel.

The Buck Creek Oil company is erecting three rigs in the Lance creek field on section eight. Drilling will be started as soon as this preliminary work has been completed.

The Rawlins town council has granted to the Kasoming Oil company a twenty-year franchise to provide residents of Rawlins with natural gas for illuminating, heating and power purposes. The gas will be piped from the Mahoney dome, where the Kasoming company has a well good for 50,000,000 cubic feet daily. Under the terms of the franchise delivery of gas to consumers in the city must begin within a year.

Fifty drilling rigs are now on the ground in the Osage field, and thirty

shallow producing wells have been brought in. Four additional rigs have arrived this week and several more are on the way. In a very short time drilling will be in progress in a strip of territory thirty miles in length and from five to eight miles wide.

The Buck creek well on section 35-36-65 in the Lance creek field, in which water was encountered as it was nearing completion, is to be drilled deeper in an effort to bring in an oil well. The hole will be drilled to the second sand. A similar operation with the No. 4 well on section 26-36-65 brought in a fair well.

A new oil strike at Moab, Utah, is causing much excitement in western Colorado and eastern Utah. The well, estimated at 500 barrels, is just three blocks south of the Moab post-office. The oil was found at 1,100 feet and is said to be flowing steadily. The well began gassing at noon last Saturday and later in the day the oil came forth with a rush. It is said that oil leases that could have been obtained here at \$25 an acre prior to the discovery are now held at as high as \$2,500 an acre.

Figures compiled by Wyoming Oil News indicate that twenty-nine Colorado and Wyoming oil companies, or companies which receive a substantial proportion of their revenues from Wyoming oil fields, paid a total of \$43,972,490 to stockholders in 1919. Since organization, or within recent years, these companies have paid stockholders a total of \$208,368,286. Except where indicated, the dividend statistics have been gathered from official sources. Otherwise they are estimates based on semi-official figures. During the present year dividend payments should increase materially. Advances in the price of Wyoming crude will result in increased earnings for the companies and the prospects of developing new production also should reflect in earnings and dividends.

**NEIGHBORHOOD NEWS**

Mr. and Mrs. James Brittan spent Friday evening with Mr. and Mrs. Frank Boag.

Charlie Kennedy is building a new garage. He expects to purchase a car before long.

There is a lot of sickness in the neighborhood at this writing. Those who have sickness in their homes are Loyd Kibble, James Evans, Henry Behm, James Brittan, Arthur Rogers, Howard De Shazo and Frank Boag. We hope they will all soon be well again.

There was no school in district No. 2 Monday, the teacher being sick.

Mr. and Mrs. Lee Kasner are expecting visitors from Sterling, Col., next Saturday.

Mr. Evans helped Loyd Kibble pick corn last Monday.

Mrs. Waumbaugh invited the E. S. P. club to her home Wednesday for an all-day enjoyment. The men were also invited and a very enjoyable day was spent, dinner being served at a cafeteria. About fifty were present.

Mr. McGinnis is helping Mr. Kennedy build his garage.

The Rehder family are having quite a siege with smallpox.

Mrs. Otto Becker is slowly recovering from her fall. We hope for a speedy recovery.

**Ford**  
THE UNIVERSAL CAR

**No Secret Diplomacy Here**

There will be a greater shortage of cars this year than last. We can give you reasonably prompt delivery now, but are facing a serious shortage for Spring and Summer. Why? Less climatically favored sections of this great country of ours are snow bound during December and January and the Ford Motor Co. will not stock cars in one section of the country if they can be used in any other. We can get cars now while these territories are frozen up and snowed in. Let's get them. Give us your order now and have yours when you need it. You can use it every day in our glorious Nebraska.

By the way, have you noticed how many cars began the New Year with an increase in price. A word to the wise is sufficient.

You know the price. You can get delivery. The spring holds nothing but uncertainty as to both.
