**PLANNING FOR
A LABOR TEMPLE**
At the late meetings of the unions the question of building a labor temple has been discussed. All the lodges that have taken the matter up seem to be strongly in favor of it. There are but four more organizations to see and it is expected that the decision will be unanimous in favor of the temple.
This will necessitate forming a labor temple company which must be incorporated under the laws of Nebraska in order to make the sale of the shares lawful. The present figures show that the stock will sell for about \$10 per share and every lodge will be expected to buy.
The lots that have been chosen are back of Highland Holloway Co. but they have made no move toward obtaining an option on the property because there has been no final decision as yet.
It is certainly to be hoped that the plan is successful, for it will be an all around uplift to the community. The plans have not been made as yet but they figure that the assembly and lodge rooms will take up most of the upper floor and the lower floor will be occupied by business houses, and professional men.

The Elks and Uncle Sam have joined forces to take care of the wounded soldiers, sailors and marines, and the first of these films shows what is being done, and just how it is accomplished. It's a big picture, and one that will interest everyone who views it. The latter play is particularly interesting to Elks.
