Your Harvest Money

You can make your Harvest Money earn another Harvest this year by depositing it with this Bank where it will draw interest. Then if an opportunity arises whereby you can make a good investment you have the money to grasp it.

THE COMMUNITY NEEDS SAVERS

With the coming of the harvest and the increase of ready money in circulation business is certain to increase. For the good of the community everyone should exercise judgment in the disposition of his money. The safest plan is to deposit it in a strong conservative bank, let it accumulate interest money for you while you decide the wisest disposition of it.

The prosperity of progressiveness of any community is measured by the total of its bank deposits. The American system of finance incorporates the idea of "placing your ready money in a bank" as a fundamental principle. It should be taught to the little folks, and followed by their parents.

THERE IS NO SAFER AND BETTER PLAN THAN TO DEVELOP THIS AMERICAN IDEA OF BANKING
